Sun Java StorEdge Software & Suites

Read Me First

Sun Java StorEdge Software introduces a fundamental change in the way storage software is priced, licensed, delivered and serviced. Through innovative subscription pricing, Sun Java StorEdge Software & Suites provide a complete storage software bundle for your data management needs. Sun support, training, and consulting services are also included with your subscription.

For more information about the Sun Java StorEdge Software and Suites, please visit the Sun.com web site at:

<http://www.sun.com/storage/software/javastoredgesoftware/>

For detailed information about the software that is part of this bundle, including operating system and platform support, or if you have other questions, please contact your Sun Sales representative. Some compatibility restrictions may apply.

This Read Me First consists of the following sections:

- “Before You Begin” on page 2
- “Available Subscription Licenses and Install Options” on page 4
- “How to Get Help” on page 8

This media kit contains software for the Sun Java StorEdge Software and the following four Sun Java StorEdge Suites:

- Sun Java StorEdge Consolidation Suite
- Sun Java StorEdge Continuity Suite
- Sun Java StorEdge Content Suite
- Sun Java StorEdge Compliance Suite

For more information about installation of the software components in the Sun Java StorEdge Software and each one of the suites, please refer to “Available Subscription Licenses and Install Options” on page 4.

Before You Begin

This section has some very important information on the restrictions for using the software which is part of this media kit. You will also find a list of the software that you are entitled to use based on the license you purchased.

IMPORTANT: Subscription Licenses

YOU MAY NOT INSTALL OR USE THE SOFTWARE IN THIS MEDIA KIT, UNLESS YOU HAVE FIRST PURCHASED A LICENSE TO DO SO. Your use of the software is governed by the Sun Software License Agreement and applicable Entitlement. Contact your Sun Sales representative for information about purchasing a license.

This media kit contains the software for the Sun Java StorEdge Software bundle. If you purchased a license for the Sun Java StorEdge Software, you are entitled to install all the software in this media kit. If you purchased a license for any of the suites, you are entitled to only install the software pertaining to the suite you purchased.

For more information about which software components to install based on the license(s) you purchased, see the relevant section in “Available Subscription Licenses and Install Options” on page 4.

Contents of the Media Kit

Please contact your Sales Representative if you do not have access to the Internet and need a copy of the software.

Available Subscription Licenses and Install Options

Please read “Before You Begin” on page 2 to understand the restrictions for use of the software which is part of this media kit. The software that you can install and use depends on the subscription license that you purchased.

For detailed information about the individual software components that you can install and use, go to the following sections:

- “Sun Java StorEdge Software” on page 5
- “Sun Java StorEdge Consolidation Suite” on page 6
- “Sun Java StorEdge Continuity Suite” on page 7
- “Sun Java StorEdge Content Suite” on page 7
- “Sun Java StorEdge Compliance Suite” on page 8

You can install and use the software in this media kit, according to the terms of the Software License Agreement - included in this media kit - and the entitlement document which you should have received separately.

If you have not received the entitlement document within a week of the scheduled delivery date of the subscription license, please contact your Sun Sales Representative.

Sun Java StorEdge Software

If you purchased the Sun Java StorEdge Software subscription license, you can install and use all the software in this media kit:

- Sun StorEdge Enterprise Storage Manager Advanced Applications software and all its modules
- Sun StorEdge Enterprise Storage Manager Base Applications software, including:
 - Sun Storage Automated Diagnostic Environment software
