

Oracle® Collaboration Suite

Documentation Read Me

10g Release 1 (10.1.2)

Q14482-01

November 2005

The following sections explain how to view HTML and PDF documentation, tool requirements, ordering information, and documentation accessibility features.

1 Viewing HTML Documentation

To view the HTML documentation from the library or local installation, open the top-level [index.htm](#) file with your favorite Web browser. From there, go to the list of books, the master index, or search the documentation. Click Help if necessary.

Note:

To use the dynamic features of the documentation library, including the search and virtual book features, you need an Oracle Technology Network account and an Internet connection. Get a free OTN account from

<http://www.oracle.com/technology/membership/>

2 Viewing PDF Documentation

To view the PDF documentation from the library or local installation, open the top-level [booklist.pdf](#). The file contains a list of documents available on the library with hyperlinks to other PDF documents.

You can search all the PDF documentation at once using the Acrobat Search facility. *Searching* allows you to scan through all the PDF files on the library at once. *Finding*, on the other hand, allows you to scan through only the currently active document. Before you can search the documentation, you need to add the PDF index for the library to your Available Indexes. Prior to Acrobat 6, choose Tools > Search > Indexes, click Add, add `index.pdx`, then choose Tools > Search > Query. In Acrobat 6, choose Edit > Search, click Use Advanced Search Options near the bottom right of your screen, choose Select Index from the Look In field, add `index.pdx`, then search. The Acrobat documentation has more details.

3 Tool Requirements for Viewing Documentation

You can copy the documentation to your local system, or you can read the files directly from the library. Table 1 lists the tools needed to view the documentation.

The HTML search facility uses JavaScript, and has been designed to work in Firefox 1.0 or later and Microsoft Internet Explorer 6.0 or later.

Acrobat Reader is available as a free download from the Adobe Web site:

<http://www.adobe.com/>

Table 1 Tool Requirements for Viewing Documentation

On-Line Format**Requires**

HTML viewing

Any modern Web browser

PDF viewing

Acrobat 4 or later Acrobat Reader 4 or later

4 Installing Documentation

You can view the documentation directly from the library, or you can install it on a local system. Install the documentation by copying the files from the library to your local system.

5 Differences Between Documentation Formats

As a result of publishing deadlines, electronic versions of the manuals might contain updates or corrections not included in the printed books.

6 Finding Other Oracle Documentation

Additional documentation is available on the product library and the OTN documentation site:

<http://www.oracle.com/technology/documentation/>

7 Ordering Hard Copy Documentation or Installation Media

Visit the Oracle Store to order printed documentation and additional copies of this library:

<http://oraclestore.oracle.com/>

8 Contacting Oracle Support Services

Visit Oracle Support Services if you need help:

<http://www.oracle.com/technology/support/>

9 Sending Comments

Send questions and comments about this library to collabsuitedocs_ww@oracle.com. If you have comments about the content of a particular book, then use the e-mail address provided on the reader comment form in that book. Follow the Send Us Your Comments link from the table of contents to reach the form. Documentation HTML files also include feedback links at the top and bottom of each page.

Note:

The collabsuitedocs_ww@oracle.com address is for documentation comments only.

Documentation Accessibility

Our goal is to make Oracle products, services, and supporting documentation accessible, with good usability, to the disabled community. To that end, our documentation includes features that make information available to users of assistive technology. This documentation is available in HTML format, and contains markup to facilitate access by the disabled community. Accessibility standards will continue to evolve over time, and Oracle is actively engaged with other market-leading technology vendors to address technical obstacles so that our documentation can be accessible to all of our customers. For more information, visit the Oracle Accessibility Program Web site at <http://www.oracle.com/accessibility/>.

Accessibility of Code Examples in Documentation

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

TTY Access to Oracle Support Services

Oracle provides dedicated Text Telephone (TTY) access to Oracle Support Services within the United States of America 24 hours a day, seven days a week. For TTY support, call 800.446.2398.

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software—Restricted Rights (June 1987). Oracle Corporation, 500 Oracle Parkway, Redwood City, CA 94065

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

Oracle, JD Edwards, PeopleSoft, and Retek are registered trademarks of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for

any loss or damage of any sort that you may incur from dealing with any third party.
