

**Oracle[®] Retail Data Warehouse
Release Notes
Release 10.2.6
December 2005**

Copyright © 2005, Oracle. All rights reserved.

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software—Restricted Rights (June 1987). Oracle Corporation, 500 Oracle Parkway, Redwood City, CA 94065

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

Oracle, JD Edwards, PeopleSoft, ProfitLogic and Retek are registered trademarks of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.

A Release Notes document can include some or all of the following sections, depending upon the release:

- Overview of the release
- Functional, technical, integration, and/or performance enhancements
- Assumptions
- Fixed and/or known issues/defects

Audience

Release Notes are a critical communication link between Oracle Retail and its retailer clients. There are four audiences in general for whom a Release Notes document is written:

- Retail clients who wish to understand the contents of this release.
- Integrators and implementation staff who have the overall responsibility for implementing RDW into their enterprise.
- Business analysts who are looking for high-level functional information about this release.
- System analysts and system operation personnel who are looking for high-level functional and technical content related to this release.

Customer Support

Customer Support is available 7x24x365 via email, phone, and Web access.

Depending on the Support option chosen by a particular client (Standard, Plus, or Premium), the times that certain services are delivered may be restricted. Severity 1 (Critical) issues are addressed on a 7x24 basis and receive continuous attention until resolved, for all clients on active maintenance. Retek customers on active maintenance agreements may contact a global Customer Support representative in accordance with contract terms in one of the following ways.

Contact Method Contact Information

E-mail	support@retex.com
Internet (ROCS)	rocs.retek.com Retek's secure client Web site to update and view issues
Phone	+1 612 587 5800
Toll free alternatives are also available in various regions of the world:	
Australia	+1 800 555 923 (AU-Telstra) or +1 800 000 562 (AU-Optus)
France	0800 90 91 66
Hong Kong	800 96 4262
Korea	00 308 13 1342
United Kingdom	0800 917 2863
United States	+1 800 61 RETEK or 800 617 3835
Mail	Oracle Customer Support 950 Nicollet Mall Minneapolis, MN 55403

When contacting Customer Support, please provide:

- Product version and program/module name.
- Functional and technical description of the problem (include business impact).
- Detailed step-by-step instructions to recreate.
- Exact error message received.
- Screen shots of each step you take.

Release Notes

Overview

A Defect is a modification to base Retek code (for example, a bug fix, a performance enhancement, or a functional enhancement). Each Defect that is included in this patch has a corresponding Defect document in the \Documentation\Defect docs folder titled <Defect#> <module>.doc.

There is a document in the Defect docs folder entitled “DEFECT MODULE XREF RDW10.2.xls”, that lists every Defect # and the accompanying modules/scripts that are included in the patch. Each Defect document should be reviewed fully before this patch is implemented.

This Release Notes document contains a list of the more significant changes in the patch.

Fixed Issues/Defects

- **396852** orglocex.ksh has been modified to explicitly check for the existence of the wh_name_secondary column from the all_tab_columns. The current code assumes that the wh_name_secondary column exists in the WH table as long as the store_name_secondary column exists in STORE table.
- **397514** prcildex.ksh has been modified so that all the records with the POST_DATE as the current date are selected. Also, POST_DATE is selected as DAY_DT instead of ACTION_DATE.
- **398226** scrqtdex.ksh has been modified so that it groups the data at the item/purchase order/location level for the ORDLOC table and also at the item/shipment level for the SHIPSKU table.

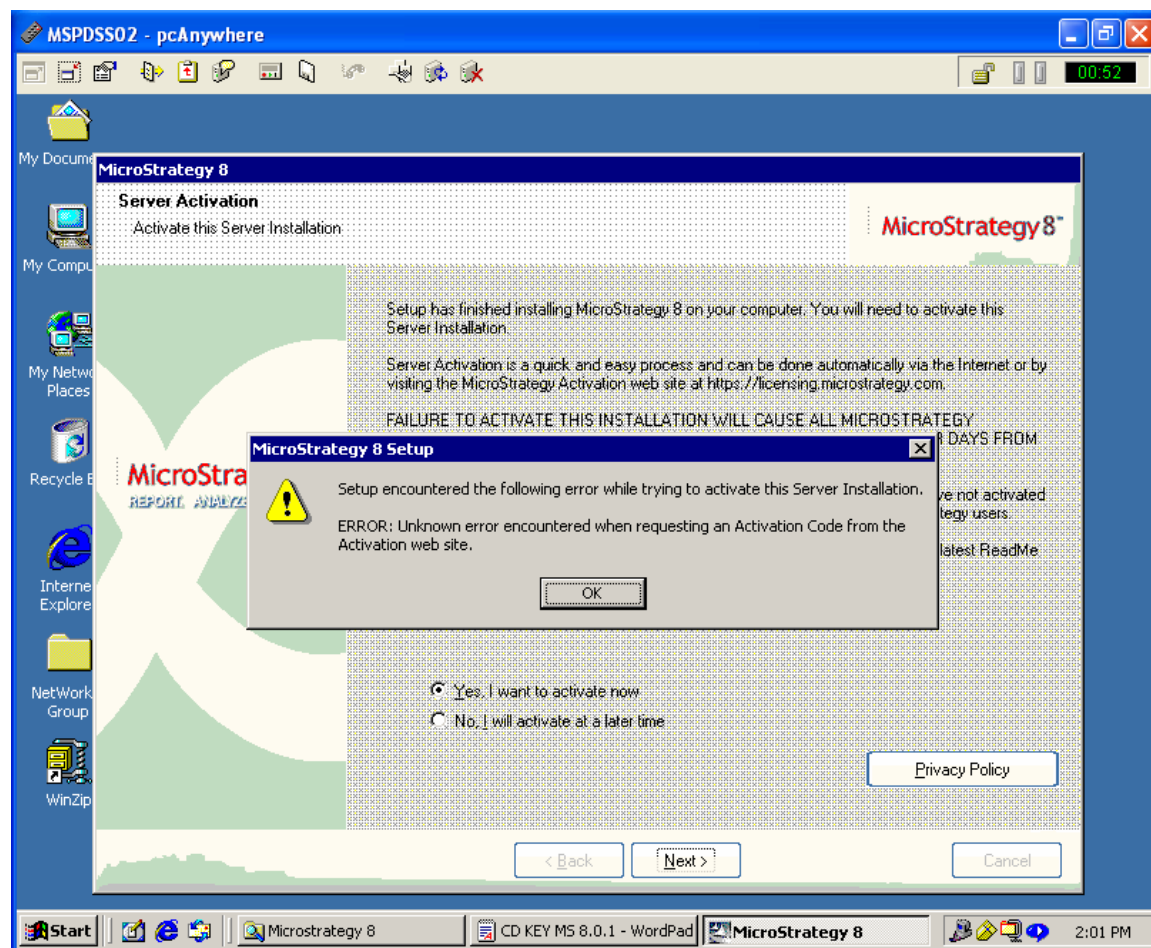

Technical Enhancements

Microstrategy 8.0.1 Upgrade

Note: Oracle is not responsible for any customizations done by the retailer that are **not** included in the RDW package.

Upgrade Process

1. Follow the upgrade process recommended by Microstrategy. Documents can be found in the knowledge base website of Microstrategy.
2. Oracle has encountered the following error while activating the servers in the process of upgrading.

3. If automatic activation fails with the above error message, click OK on the error message and select the second option "**No, I will activate at a later time**". Click 'Next' to complete the installation. After the whole setup is complete, contact Oracle Support and send the Activate.xml file, which is located at C:\Program Files\Common Files\MicroStrategy\Activate.xml on the machine where the installation has been performed. Oracle will generate the Activation Code manually. There is a 30 day period from the time of installation in which the server can be activated.
