

**Oracle[®] Retail Data Warehouse
Operations Guide Addendum
Release 11.0 (German)
September 2006**

Copyright © 2006, Oracle. All rights reserved.

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software—Restricted Rights (June 1987). Oracle Corporation, 500 Oracle Parkway, Redwood City, CA 94065

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

Oracle, JD Edwards, PeopleSoft, and Siebel are registered trademarks of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.

Preface

Oracle Retail Operations Guides are designed so that you can view and understand the application's 'behind-the-scenes' processing, including such information as the following:

- Key system administration configuration settings
- Technical architecture
- Functional integration dataflow across the enterprise

This Operations Guide Addendum should be used in conjunction with previously released Oracle Retail Data Warehouse 11.x documentation.

Audience

Anyone with an interest in developing a deeper understanding of the underlying processes and architecture supporting Oracle Retail Data Warehouse functionality will find valuable information in this guide. There are three audiences in general for whom this guide is written:

- Business analysts looking for information about processes and interfaces to validate the support for business scenarios within and other systems across the enterprise.
- System analysts and system operations personnel:
 - Who are looking for information about Oracle Retail Data Warehouse's processes internally or in relation to the systems across the enterprise.
 - Who operate Oracle Retail Data Warehouse regularly.
- Integrators and implementation staff with overall responsibility for implementing Oracle Retail Data Warehouse.

Related Documents

You can find more information about this product in these resources:

- Oracle Retail Data Warehouse Installation Guide Addendum 11.0 (German)
- Oracle Retail Data Warehouse Release Notes 11.0 (German)
- Oracle Retail Data Warehouse Migration Guide Addendum 11.0 (German)

Customer Support

- <https://metalink.oracle.com>

When contacting Customer Support, please provide:

- Product version and program/module name.
- Functional and technical description of the problem (include business impact).
- Detailed step-by-step instructions to recreate.
- Exact error message received.
- Screen shots of each step you take.

Introduction

The information in this document reflects modifications and updates to the Oracle Retail Data Warehouse 11.0 Operations Guide. Using this document in conjunction with that guide provides retailers with a complete overview of the application.

Please note that entire sections have been included from the original Oracle Retail Data Warehouse Operations Guide for your reference, and the changes that have been made to those sections are in bold. For more specific information regarding enhancements and modifications made to the previous Oracle Retail Data Warehouse release, see the *Oracle Retail Data Warehouse 11.0 Release Notes*.

LANGUAGE variable

For `rdw_config.env`, the `LANGUAGE` variable refers to the language that RDW expects to be used for writing descriptions to the dimension tables, the language used in the front end, and so on. Currently, RDW supports English, French, Japanese, Spanish, and **German**. The valid `LANGUAGE` values include the following:

- `en`=English
- `fr`=French
- `ja`=Japanese
- `es`=Spanish
- **`de`=German**
