

Agile Product Lifecycle Management for Process  
Release Notes  
Release 5.2  
**Part No. E11042-01**

**February 2008**

**Copyright © 1995, 2008, Oracle Corporation and/or its affiliates. All rights reserved.**

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

#### **U.S. GOVERNMENT RIGHTS**

Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software--Restricted Rights (June 1987). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.

Oracle and Agile are registered trademarks of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.

Java and Solaris are trademarks or registered trademarks of Sun Microsystems, Inc. in the U.S. or other countries.

Microsoft, Windows, Excel, and Microsoft Internet Explorer are trademarks or registered trademarks of Microsoft Corporation in the United States and/or other countries.

**February 15, 2008**

## Change Record

Date	Author	Version	Change Reference
12-Dec-07	Oracle	0.1	First draft
Jan 9, 20008	Sabrina Hettinger	0.3	Third draft – Updates from PMs
Jan 11, 2008	Sabrina Hettinger	.5	Updates from Tech Writers and PMs
Jan 23, 2008	Sabrina Hettinger	.6	Updates from QA and PMs
Jan 28, 2008	Sabrina Hettinger	.7	Updates from QA
February 6, 2008	Sabrina Hettinger	.8	Updates from Kelly Mayfield
February 6, 2008	Sabrina Hettinger	.9	Updates on Resolved Issues from Kelly Meyers
February 7, 2008	Sabrina Hettinger	.10	Updates from Kelly Mayfield
February 8, 2008	Sabrina Hettinger	.10v2	Known Issues from Kelly Meyers.
February 11, 2008	Sabrina Hettinger	.11	Final updates from QA.
February 14, 2008	Sabrina Hettinger	.12	Final updates from Kelly Meyers
February 15, 2008	Sabrina Hettinger	.13	Removed reference to OIT.

**Resolved Issues ..... 9**

**Known Issues ..... 15**

# Preface

This document describes issues that you may encounter with this release. Internal Tracking numbers that appear in the tables are used to identify issues reported by customers. You can use these numbers to identify the issue should you need to contact Oracle Support. Locator numbers that appear in parentheses after some notes are for Oracle internal use only.

# Chapter 1: What's New in This Release?

*This chapter contains information on new product features for Agile Product Lifecycle Management for Process 5.2.*

## What's New In This Release?

The following tables outline changes and enhancements that have been made for the Agile 5.2 release.

### General Enhancements

Table: 1-1 General Enhancements

Internal Tracking #	Application	Description
7571	All	Re-ordering usability enhanced allowing for wrapping text and fluid movement of the item.
8158	All	Several formatting enhancements have been made to enhance custom section printing. Administrators can now define print widths as well as user interface widths for columns. Landscape Printing is no longer paged, so landscape sections can be stacked on a page. Administrators also now have the ability to insert page breaks above and below a section.
8189	All	The user interface has been updated using Swan standards. This includes a change in the cascading style sheet architecture and general style changes (font, colors, and icons).
8813	All	Custom Data Distinct Error is now more explicit telling the user the Extended Attribute Name and where it exists on the specification.
8846	All	Analytical Properties can now be configured off. Testing Protocols will use the names of Extended Attributes instead of Analytical Properties.
9178	All	Removed online help from the application.

### CACS (Computer Aided Compliance Screening) Enhancements

Table: 1-2 CACS Enhancements

Internal Tracking #	Application	Description
7566	CACS	When you run CACS from a specification, you can now use the Computer Aided Compliance Screening search page to select screens. Previously, you selected screens from a dialog box listing available screen names. This feature enables you to search by screen name, description, or screen number.

## ***CSS (Content Synchronization and Syndication) Enhancements***

Table: 1-3 CSS Enhancements

<b>Internal Tracking #</b>	<b>Application</b>	<b>Description</b>
None		

## ***ADMN (Data Admin) Enhancements***

Table: 1-4 Data Admin Enhancements

<b>Internal Tracking #</b>	<b>Application</b>	<b>Description</b>
7191	ADMN, Custom Data	An administrator can now preview a custom section. This preview will include items in the Active and New status.
7601	ADMN, Custom Data	"Do Not Publish To Supplier" tag has been added to Extended Attributes. Now an extended attribute can be suppressed in eQ as well as Supplier Portal without suppressing printing in core applications. This tag has replaced "Not Available in eQ."
8257, 8258	ADMN, Custom Data	Security Classification is a new search criterion for extended attributes and custom sections.
8434	ADMN, Custom Data	Administrators can now define the display/sort order of custom sections. Order can be defined per object type and will be respected when printing.
8447	ADMN, Custom Data	Administrators now have the ability to copy a Custom Section template.
8674, 9680	ADMN, DWB	Administrators can now manage DWB specification statuses. And Design Taxonomies.
8843, 8844, 9043	ADMN, Global	Administrators can now manage Rounding Rules Groups, custom unit of measures and Cross References
8843	ADMN, PQS	Administrators can now manage PQS Lot Samples Quantity UOMs, Sample Types, and Scorecard Qualifications.
8843	ADMN, GSM FSIS	Application Status, CFIA Approval Types, CFIA Payment Methods, CFIA Product Types, and USDA HACCP Categories can now be managed.
8843, 8847, 8980, 9044, 8848, 9680, 9899	ADMN, GSM Common	Administrators can now manage the following lists: Environmental waste, label claims, label claims classifications, label owner, package type, packaging UOMs printed packaging language, shelf life type, Concepts, menu item class, menu item standard, Nutrient Profile Special Attributes, Nutrient Information (including the In Foods ID), and trading company.
8849, 8851, 8843	ADMN, NPD	Administrators can now manage business unit, consumer value perception, enabling technology, functional areas, project types, project type categories and metrics (category, basis, fiscal year, and phase).
9243	ADMN, GSM Common	Administrators can now add data groups for Additives, Allergens, Intolerances, Complies With, Label Claims, and Nutrient Information.
9256	ADMN, WFA	You can now administer WFA system actions.

Internal Tracking #	Application	Description
9274	ADMN, Spec Category	Administrators can now edit or add external IDs for spec categories.
9680	ADMN, SCRM	Administrators can now manage the SDM Status list.
9865	ADMN, Custom Data	The Custom Data submenu has been added to ADMN. It contains the custom data options that were previously included in the Global submenu.
9891	ADMN, Spec Category	The "Taxonomy" section has been renamed to "Spec Category". UDEX classifications have been moved into the GSM Common section.

### ***DWB (Design Workbench) Enhancements***

Table: 1-5 DWB Enhancements

Internal Tracking #	Application	Description
7441	DWB	Users can now add annotations to bill of material items on the Formulation tab of DWB Specifications.
7565	DWB	A Related Documents section has been added to a new References tab on a DWB specification. This section contains links to all NPD activities that have been associated to the DWB Specification.
7633	DWB	Users can now create new DWB specifications as well as update existing DWB Specifications from Process Specifications within GSM.
7634	DWB	Access to DWB can now be controlled by the author of the specifications. Users can now be given read only, read/write, or no access to DWB specifications. In addition, only users with certain role will be able to create new DWB specifications.
7641	DWB	Bill of material items inside of DWB process steps can now be reordered. Additionally, the system will also allow it to respect the order that was established in GSM when process specifications are pushed from GSM to DWB. The final order established in DWB will be the default order when that spec is pushed from DWB to GSM.
7875	DWB	When specifications are created/updated between GSM and DWB, specification lineage is created and maintained in GSM and DWB.
8121	DWB	Calculated Extended Attributes are now available in DWB.
8674	DWB, ADMN	Action items are now available in DWB. Action items are based on the status of DWB specifications.
9213	DWB	Formula Compare in DWB can now be configured to have a limit to the number of specifications that can be compared at one time.
9664	DWB	A new field called 'Date Created' has been added to DWB specs.

## ***eQ (eQuestionnaire) Enhancements***

Table: 1-6 eQ Enhancements

Internal Tracking #	Application	Description
8677	eQ	Suppliers now have the ability to add unsolicited Nutrients to an Ingredient or Product Questionnaire.
8714	eQ	In the Formula section of a Questionnaire, the 'Complies With' column has been added to match GSM.

## ***FSIS Enhancements***

Table: 1-7 FSIS Enhancements

Internal Tracking #	Application	Description
(none)		

## ***GSM (Global Specifications Management) Enhancements***

Table: 1-8 GSM Enhancements

Internal Tracking #	Application	Description
7126	GSM	Within GSM, Supporting Documents can be secured using Object Level Security. When creating a Supporting Document, users can select a Security Classification that will determine which users can read the attachments enclosed within the Supporting Document. (Supporting documents are not secure in SCRM or Supplier Portal.)
7727	GSM	While importing sourcing approvals into a newer version of a specification, the most current version of the sourcing approval will be displayed for the user to select. Prior to this release, the oldest version of the sourcing approval was displayed to the user.
7575	GSM	A new field has been added to the trade specification that will allow a user to mark a specification as a variable weight item. Once checked, this will allow the user to enter a minimum and maximum weight in addition to the target weight that is normally entered.
7635	GSM	'Supporting Documents' has been added to Nutrient Profiles in GSM.
7642	GSM	Added the ability for user to enter the tare weight of packaging and printed packaging specifications. Additionally, users can calculate the tare weight and gross weight of a trade specification (consumer and traded units) based on the entered tare weight of the associated packaging specifications.
7645	GSM	Specific to a trade spec, users can now select the unit of measure for volume before performing the calculation and the system will convert the results to the selected unit of measure.
7703	GSM	Added activities as a standalone business object that can be accessed from the left navigation panel and searched on using search form capabilities. Activities can now be created independently of specifications. We also added the ability to include custom data (extended attributes and custom sections)

Internal Tracking #	Application	Description
		on activities.
7840	GSM	Custom Data is now available to master specifications. Custom Data will be included when printing and can also be searched.
7880	GSM	Users can now search for equivalence in searches using the “contains” operator.
8103 9282	GSM	Newly added Allergens, Sensitivities and Additives are now alphabetically sorted on specifications and print.
8272	GSM	Added the ability to include a cover page when printing trade specifications. This page will show the effective dates and status of all dependent specifications.
8273	GSM	Added the ability to include an activity summary report when printing all specifications. This page will show key attributes for all related activities.
8274	GSM	Added the ability to include an ingredient summary report when printing process specifications. This page will show key attributes for all related ingredient specifications.
8399 8995	GSM	Label weight in Nutrient Profile can be pulled from the associated Menu item spec based on the configuration setting.
8400	GSM	'Per 100 mL' values can now be displayed in the Nutrient Rollup Window provided the Density field is a valid value.
8584	GSM	The Short Name specification attribute has been added to the search results for the main Ingredient EQT within GSM. This is based on a configuration setting (whether short name is included in the EQT criterion).
8675	GSM	Implicitly set master specifications will now appear on the associated specification. The implicitly set master specification references will also be included when printing the specification.
8744	GSM	Print Extensibility has been added. This provides the ability to apply a custom XSL document to specification printing. This feature will allow custom formatting of specification printing, organized by specification type. This feature has added the “Print Template” dropdown to the print dialog boxes.
8953	GSM	Added a new configuration that will allow users to turn off the Label Comp tab of a nutrient profile.
9042	GSM	Shelf Life data now prints just like the data was entered, instead of printing 5 decimal places.
9205	GSM	Added master specifications to the list of supported specification types in Global Succession.
9234	GSM	Approved for Use In sections will list all selections in alphabetical order.
9691	GSM	Supporting Documents now show the Title of the attachments on the main control on the specification.

---

## ***NPD (New Product Development) Enhancements***

Table: 1-9 NPD Enhancements

Internal Tracking #	Application	Description
7637	NPD	On an Activity, it is now possible to add a link to a DWB specification.
7745	NPD	Read access to NPD Activities have been enhanced to allow a user to explicitly define Users and User Groups that have the ability to read the Activity.
8990	NPD	Projects created from the new ISPs will now have links back to the originating ISP in the Supporting Documents tab.

## ***NSM (Nutrition Surveillance Management) Enhancements***

Table: 1-10 NSM Enhancements

Internal Tracking #	Application	Description
(none)		

## ***PQS (Product Quality Scorecard) Enhancements***

Table: 1-11 PQS Enhancements

Internal Tracking #	Application	Description
8688	PQS	A new role [PQS_FINAL_SCORER_ROLE] enables final scoring in PQS.

## ***Reporting Enhancements***

Table: 1-12 PQS Enhancements

Internal Tracking #	Application	Description
8994	Reporting	Ad-hoc reporting now supports extended attributes. Users can now create ad-hoc reports based on extended attributes.

## ***SPA (Supplier Portal Administration) Enhancements***

Table: 1-13 Supplier Portal Enhancements

Internal Tracking #	Application	Description
8197	SPA	Access to data in Supplier Portal can be controlled at facility level in addition to supplier company level.

## ***UGM (User Group Management) Enhancements***

Table: 1-14 UGM Enhancements

Internal Tracking #	Application	Description
7603	UGM	"Last Updated" is now an available criterion when searching user and group profiles. This criterion is also available when searching for users and groups to export. This option allows the administrator to easily identify recently edited and approved users and groups
8208	UGM	Administrators can now copy a user profile to create a new profile.

## ***WFA (Workflow Administration) Enhancements***

Table: 1-15 WFA Enhancements

Internal Tracking #	Application	Description
7606	WFA	The Workflow Permissions section has been added to the GSM and SCRM workflow templates. This feature enables an administrator to designate which users can workflow an item in GSM and SCRM. This allows for you to isolate "workflowers" from "editors"  Pre 5.2 Workflow rights were assigned to anyone with "Edit" permissions. We have separated this permission assignment with the addition of a Workflow Permissions grid. With this process, "Edit" rights were also removed from Owners.
7776	WFA	Administrators can now use "Owner" and "Signature Requestee" tokens in the Permissions grid for GSM and SCRM workflows.
8232	WFA	In GSM workflows, administrators can now assign section level editing permissions to multiple types per row (instead of only one).
8868	WFA	Specification-related Sourcing Approvals can now resolve based on the specification type: Process Specification.
10488	WFA	The ability to lock down custom sections using section level editing is now available. The SLE type of "Extended Attributes" has been updated to include all custom data (extended attributes and custom sections). The SLE type "Extended Attributes" has been replaced with "Custom Data" This will allow you to lock down the ability to add/remove/edit sections and add/remove/edit extended

---

		attributes.
--	--	-------------

# Chapter 2: Resolved Issues

*This section contains information on Agile Product Lifecycle Management for Process 5.2 resolved issues.*

## Resolved Issues

The following tables outline known issues that have been resolved for the Agile Product Lifecycle Management for Process 5.2 release.

### Data Admin Resolved Issues

Table: 2-1 Data Admin Resolved Issues

Internal Tracking #	Onyx #	Application	Issue	Resolution
8321	NA	Data Admin	Import Custom Section-->Multilanguage changes are not being imported	Multi-lingual Extended Attribute and Custom Section names will now be exported/imported.
9115 10292	296443 300721	Data Admin	Qualitative Multiselect Extended Attributes Formatting Undesirable.	Text wrapping was added to the Qualitative Multiselect Extended Attribute.
9824 9612	300111 298777	Data Admin	Problem with Degree Symbol and Single Quote in sections.	Special characters are now handled in the Custom Section name and in the Extended Attribute name.

### DRL Resolved Issues

Table: 2-2 DRL Resolved Issues

Internal Tracking #	Onyx #	Application	Issue	Resolution
8288 7855	288320	DRL	Attachments are being saved with '+'s in the file name.	The attachment are no longer save with the '+' signs in places of the spaces in the document names.

### DWB (Design Workbench) Resolved Issues

Table: 2-3 DWB Resolved Issues

Internal Tracking #	Onyx #	Application	Issue	Resolution
8451	289085	DWB	Re-ordering of DWB BOM	The search results are now sorted

Internal Tracking #	Onyx #	Application	Issue	Resolution
			EQT selected search items.	consistently.
9379	298868	DWB	DWB LIO drag and drop ingredients	Resolved issue with ingredients not being saved post 'drag and drop'.

### ***eQ (eQuestionnaire) Resolved Issues***

Table: 2-4 eQ Resolved Issues

Internal Tracking #	Onyx #	Application	Issue	Resolution
8465	301950	eQ	EQ - Match analytical properties in Questionnaire with those on a Spec on push to GSM	With this release there is now a mapping sequence used if the same Analytical Property is used more than 1 time in the eQ.
8288	288320	eQ	Submitting Attachments on eQ in the Supplier Portal	The "+" no longer shows up in the eQ file name.
8714	NA	eQ	The 'complies with ' column is missing in the eQ	In eQ, 'Complies with' column has been added to the supplier's view.

### ***FSIS Resolved Issues***

Table: 2-5 eQ Resolved Issues

Internal Tracking #	Onyx #	Application	Issue	Resolution
9615	299223	FSIS	Date in Regulatory Filing defaults to today's date rather than the date the filing was created.	The date now displays the filing date rather than the current date.

### ***GSM (Global Specifications Management) Resolved issues***

Table: 2-6 GSM Resolved Issues

Internal Tracking #	Onyx #	Application	Issue	Resolution
7491	285043	GSM	Keeping your place on screen when editing a custom section.	The page focal point has been modified.
7718	003709	GSM	Error in editing Percent Breakdown in Prod Env.	An issue was addressed within the application when a user added a component in a non-

Internal Tracking #	Onyx #	Application	Issue	Resolution
				English language.
8697	289978	GSM	Searching for facility by name / number does not work correctly.	Search corrected based on issue found when there is a secondary search pop up window.
9025	296540	GSM	Editing Custom Section Yields Unhandled Exception.	Duplicate custom section column names no longer cause an error.
9042	009283	GSM	Shelf life printed incorrectly	The shelf life data that will be printed for trade and ingredient specifications has been modified to only include significant digits.
9083	008948	GSM	Add polyunsaturated fat and monounsaturated fat to the Product Fact sheet.	Polyunsaturated fat and monounsaturated fat are now available for inclusion on the Product Fact Sheet.
9343	296812	GSM	Renamed Custom Section Rows appear blank on "Additional Attributes" EQT Search	Custom Sections that have been renamed no longer appear blank in the searches.
9418	300509	GSM	Item History Needs Vertical Scroll Bar.	A scroll bar was added.
9598	299991	GSM	Issue with ordering of Custom Sections in "Print" form.	Print order corrected for Custom Sections when printing from GSM.
9602	297259	GSM	Nutrient Analysis Supporting Doc does not open.	The supporting documents pop up now opens correctly.
10690	303090	GSM	Need to add additional attributes link for Printed Packaging Specs.	On the search page for Printed Packaging specs, the additional attributes link is now visible.

### ***NPD (New Product Development) Resolved Issues***

Table: 2-7 NPD Resolved Issues

Internal Tracking #	Onyx #	Application	Issue	Resolution
6677	284851	NPD	Instructions are being cut off.	On the Workflow window the Desired Action instructions are partially cut off by the un-necessary scroll bar.
6686	285009	NPD	Portfolio Activity number issue.	Activity numbers are now reflected correctly in the portfolios.
6795	285012	NPD	Removing Documents from Activities.	Removed documents no longer leave "--" marks after the deletion.
7917	288264	NPD	NPD -> Comments are not deleted with attachments.	The comments are now deleted.
8195	287875	NPD	NPD Attachment limit text still says 4mb.	File Attachment size translation changed.
8724	NA	NPD	Enabling Technology and Consumer Value Perception are not sortable fields in portfolio management when	In Portfolios, enabling technology and consumer value perception is now sortable when included in a custom layout.

Internal Tracking #	Onyx #	Application	Issue	Resolution
			included in a custom layout.	
8798	288773	NPD	Can't delete Terminated Project in NPD	Terminating a project no longer requires the project to have an owner.
8809	289830	NPD	Remove Steps from NPD Activity Template gives unhandled error.	Users are now able to remove steps without errors.
8956	301962	NPD	Deleted ISPs persist in Action Items list.	Deleted ISPs no longer show up in a users Actions Items page.
8987	296690	NPD	ISP - Cannot Update ISP Description.	The ISP description can now be updated.
9516	298965	NPD	NPD - Strategic Brief crashes if more than 2 BUs are assigned.	Users may now assign multiple Business Units to a Strategic Brief.
9599	298652	NPD	NPD - TSA Didn't recognize user on Private Project	TSAs are now recognized in projects marked as 'private'.
9600	298780	NPD	Owner of New ISP form not updating when returned to Draft.	When moving the ISP back to draft the owner now updates correctly.
9601	299934	NPD	ISP "Additional Notification" Section Does Not Work.	Email notifications are now sent for ISP Additional Notification.
9613	299497	NPD	NPD - Remove/Reorder Documents in Project Template Toolbox tables	Development was done so the 'remove/reorder' button functions properly.
9618	299828	NPD	Current Owner does not have activity in action items list.	Action items for users that are in a group now appear correctly.
9969	300845	NPD	NPD - Sig Request of Sub-Activity disconnects from Activity/Project.	Signature request notification corrected when being sent from a sub-activity.
10536	301569	NPD	Cannot relate more than 31 trade specs to an NPD Activity.	The URL string character limit has been increased.

***NSM (Nutrition Surveillance Management) Resolved Issues***

Table: 2-8 NSM Resolved Issues

<b>Internal Tracking #</b>	<b>Onyx #</b>	<b>Application</b>	<b>Issue</b>	<b>Resolution</b>
(none)				

***PQS (Product Quality Scorecard) Resolved Issues***

Table: 2-9 PQS Resolved Issues

<b>Internal Tracking #</b>	<b>Onyx #</b>	<b>Application</b>	<b>Issue</b>	<b>Resolution</b>
(none)				

***SCRM (Supply Chain Relationship Management) Resolved Issues***

Table: 2-10 SCRM Resolved Issues

<b>Internal Tracking #</b>	<b>Onyx #</b>	<b>Application</b>	<b>Issue</b>	<b>Resolution</b>
7105	NA	SCRM	Non-Spec related SAC handling of alphanumeric class.	The class field on Non Spec SACs now handles only alpha characters.
9163	295826	SCRM	Unable to consume an SCRM Contact Category entered via Data Admin tool.	The consumption issue for SCRM Contact Category has been corrected.

***Supplier Portal Resolved Issues***

Table: 2-11 SCRM Resolved Issues

<b>Internal Tracking #</b>	<b>Onyx #</b>	<b>Application</b>	<b>Issue</b>	<b>Resolution</b>
10323	302933	SP	Supplier Portal throws exception trying to add contact to parent company	Change made to the way read permissions are required in the Company/Facility tree.

***WFA (Workflow Administration) Resolved Issues***

Table: 2-12 WFA Resolved Issues

<b>Internal Tracking #</b>	<b>Onyx #</b>	<b>Application</b>	<b>Issue</b>	<b>Resolution</b>
(none)				

# Chapter 3: Known Issues

*This section contains information on Agile Product Lifecycle Management for Process 5.2 known issues.*

- *Known Issues*

## Known Issues

The following tables outline known issues for the Agile Product Lifecycle Management for Process 5.2 release.

### All Known Issues

Table 3-1 ADMN Known Issues

Internal Tracking #	Application	Description	Workaround (If Applicable)
10498	All	Certain Data Admin items once set to Inactive/Archived are not able to be removed from the UI display if they have been previously selected and then had their status changed.	
None	NA	When Analytics Properties are configured off, there are certain places throughout the application in which they will continue to show up.	
10579	All	OLS Configured Off - Still Displays Security Classification on Attachment/Procedures Pop-up.	

### ADMN (Data Administration) Known Issues

Table 3-2 ADMN Known Issues

Internal Tracking #	Application	Description	Workaround (If Applicable)
10224	Data Admin	The delete function for removing new taxonomy node has been temporarily removed.	
10366	Data Admin	In Data Admin the Project Type Admin needs to show complete Project Type Category.	
10635	Data Admin	In Data Admin - NPD Functional Area - Users are allowed to change the available in when the status is active.	

Internal Tracking #	Application	Description	Workaround (If Applicable)
		Data Admins should refrain from performing this function.	
10685	Data Admin	An error is given in the application when all Project Type dependencies are not properly imported/exported.	
10610	Data Admin	In DataAdmin when editing items having the sort order feature, clicking Cancel will cause the sort order to change.	

### ***CACS (Computer Aided Compliance Screening) Known Issues***

Table: 3-3 CACS Known Issues

Internal Tracking #	Application	Description	Workaround (If Applicable)
10601	CACS	When on CACS Constraints tab if the users add a "Lower Level Screen" or edits an exiting row and then clicks the cancel icon an error is thrown.	

### ***CACHES Known Issues***

Table: 3-4 Caches

Internal Tracking #	Application	Description	Workaround (If Applicable)
10475	Caches	Cache flush does not work for the Cross Reference Tree View, if you have Configuration.	Restart IIS.

### ***GSM (Global Specification Management) Known Issues***

Table: 3-5 GSM Known Issues

Internal Tracking #	Application	Description	Workaround (If Applicable)
10278	GSM	Catch Weight functionality is only available for Traded Unit (co-pack) Trade Specifications.	
10544	GSM	On a labeling spec and a master spec, the only thing displayed on the compliance tab is the analytical properties grid.	

Internal Tracking #	Application	Description	Workaround (If Applicable)
10560	GSM	The Data Group Filter is not displaying items previously selected in the right hand side of the pop up window.	
10606	GSM Oth	We have analytical properties configured off in our build. The Process print dialog window displays two options for Analytical Properties. These need to be removed. FYI - We already fixed the print issue just need to remove the options.	
10637	GSM	A Done/Close button is missing on the "Related NPD Activities" popup in GSM.	

### ***NPD New Product Development (Known Issues)***

Table: 3-6 UGM Known Issues

Internal Tracking #	Application	Description	Workaround (If Applicable)
10584	NPD	Excel 2007 .xlsx format not compatible with In-Place-Editing.	
10668	NPD	If you want to remove a link from an NPD activity and that is the one link existing, you cannot remove the link to the spec.	

### ***WFA (Workflow Administration) Known Issues***

Table: 3-7 UGM Known Issues

Internal Tracking #	Application	Description	Workaround (If Applicable)
10348	WFA	In WFA, if a workflow is configured to use the Evaluate all criteria and has multiple qualifying rows for the same functional area, there	

---

Internal Tracking #	Application	Description	Workaround (If Applicable)
		will be duplicated header tabs in the workflow popups. It is recommended at this time that Evaluate All Criteria is not used.	
10399	WFA	If a user is in a workflow group and listed individually in a signature request, that users name will appear twice.	
10509	WFA	Add Section Level Editing for "Custom Data" (extended attributes) on all spec types.
