

Foundation Configuration Worksheets

Installation Worksheet

Property	Value
External Portal URL	
Default Plumtree Automation Service computer	
Plumtree Automation Service Port	
Plumtree Image Service URL	
Plumtree API Service URL	
Plumtree Search host name	
Plumtree Search port	
Plumtree Document Repository Service host name	
Plumtree Document Repository Service port	
Plumtree Content Upload Service port	
Portal database	
Oracle	
	Host name
	Port
	Service name
	Schema user
	Schema password
WebLogic Information:	
	WebLogic Home
	WebLogic Host Name
	WebLogic Port
	WebLogic Domain Home
	WebLogic Domain
	WebLogic Server
	WebLogic Admin User
	Admin User Password
WebSphere Information:	
	WebSphere Home
	WebSphere Host Name
	WebSphere SOAP Port

Property		Value
Tomcat Information:	WebSphere Application Server	
	Tomcat Web Application Deployment Directory	

Administrative Portal Worksheet

Plumtree Administrative Portal Information	Value
Fully Qualified Domain Name and Ports:	
Portal Server Host	
Non-Secure Port	
Secure Port	
External Portal URL	
Plumtree API Service URL	
Plumtree Image Service URL	
Plumtree Search Host Name and Port:	
Plumtree Search Host Computer	
Port	
Default Plumtree Automation Service User Computer	
Portal database, Oracle connection information:	
Host name or IP address	
Port	
Portal Database SID	
Portal Database Schema user	
Portal Database Schema Password	
WebLogic Information:	
WebLogic Home	
WebLogic Host Name	
WebLogic Port	
WebLogic Domain Home	
WebLogic Domain	
WebLogic Server	
WebLogic Admin User	
Admin User Password	
WebSphere Information:	
WebSphere Home	
WebSphere Host Name	
WebSphere SOAP Port	
WebSphere Application Server	

Tomcat Information:	
Tomcat Web Application Deployment Directory	

Automation Service Worksheet

Plumtree Automation Service Information				Valu
Plumtree	Automation	Service	Port	
Portal database, Oracle connection information:				
Host name or IP address				
Port				
Service name				
Schema user				
Schema user password				

Document Repository Service Worksheet

Plumtree Document Repository Service Information	Value
Plumtree Document Repository Service Host and Port:	
Host name	<input type="text"/>
Port	<input type="text"/>

Image Service Worksheet

Plumtree Image Service Information	Value
Plumtree Image Service URL	<input type="text"/>
WebLogic Information:	
WebLogic Home	<input type="text"/>
WebLogic Host Name	<input type="text"/>
WebLogic Port	<input type="text"/>
WebLogic Domain Home	<input type="text"/>
WebLogic Domain	<input type="text"/>
WebLogic Server	<input type="text"/>
WebLogic Admin User	<input type="text"/>
Admin User Password	<input type="text"/>
WebSphere Information:	
WebSphere Home	<input type="text"/>
WebSphere Host Name	<input type="text"/>
WebSphere SOAP Port	<input type="text"/>
WebSphere Application Server	<input type="text"/>
Tomcat Information:	
Tomcat Web Application Deployment Directory	<input type="text"/>

Portal Server Worksheet

Portal Server Information	Value
Fully Qualified Domain Name and Ports:	
Portal Server Host	
Non-Secure Port	
Secure Port	
Plumtree Administrative Portal URL	
Plumtree Image Service URL	
Plumtree Search Host Name and Port:	
Plumtree Search Host Computer	
Port	
Default Plumtree Automation Service User Computer	
Portal database, Oracle connection information:	
Host name or IP address	
Port	
Portal Database SID	
Portal Database Schema user	
Portal Database Schema Password	
WebLogic Information:	
WebLogic Home	
WebLogic Host Name	
WebLogic Port	
WebLogic Domain Home	
Portal Server Information:	
WebLogic Domain	
WebLogic Server	
WebLogic Admin User	
Admin User Password	
WebSphere Information:	
WebSphere Home	
WebSphere Host Name	
WebSphere SOAP Port	
WebSphere Application Server	

Tomcat Information:	
Tomcat Web Application Deployment Directory	

Search Worksheet

Plumtree Search Information	Value
Plumtree Search Host Name and Port:	
Host name	<input type="text"/>
Port	<input type="text"/>

API Service Worksheet

Plumtree API Service Information	Value
Plumtree API Service- Application Port:	
Secure Port	
Non-Secure Port	
Port Number	
Portal database, Oracle connection information:	
Host name or IP address	
Port	
Portal Database SID	
Portal Database Schema user	
Portal Database Schema Pass-word	

Content Upload Service Worksheet

Plumtree Content Upload Service Information	Value
Plumtree Content Upload Service - Application Port:	
Secure Port	<input type="text"/>
Non-Secure Port	<input type="text"/>
Port Number	<input type="text"/>
Plumtree API Service - Application Port:	
Secure Port	<input type="text"/>
Non-Secure Port	<input type="text"/>
Port Number	<input type="text"/>
Portal database, Oracle connection information:	
Host name or IP address	<input type="text"/>
Port	<input type="text"/>
Portal Database SID	<input type="text"/>
Portal Database Schema user	<input type="text"/>
Portal Database Schema Password	<input type="text"/>
Plumtree Document Repository Service Host and Port:	
Host name	<input type="text"/>
Port	<input type="text"/>
