BEA Jolt Release Notes

The BEA Jolt Release Notes present changes or updates to the standard documentation provided with your BEA Jolt product release. Should anything in the *Release Notes* conflict with information in the documentation, consider information in these *Release Notes* authoritative.

About the BEA Jolt Version 1.1 Volume 3 Release

Welcome to BEA Jolt Version 1.1 Volume 3. This version of Jolt supports the use of BEA TUXEDO 6.5 and is source-compatible with the Volume 2 release of Jolt 1.1. These *Release Notes* provide a list of the supported platforms required to use this Jolt release.

BEA Jolt Version 1.1 Volume 3 is being distributed on a CD-ROM; the CD also includes the contents of the Jolt Version 1.1 Volume 2 CD.

The following table shows the TUXEDO support for the three CDs:

Jolt Version	TUXEDO Support	Notes
Jolt Version 1.1 CD	TUXEDO 6.1, 6.2, and 6.3	
Jolt Version 1.1 Volume 2 CD	TUXEDO 6.4	
Jolt Version 1.1 Volume 3 CD	TUXEDO 6.4 and 6.5	Replaces Jolt Version 1.1 Volume 2 CD

Supported Platforms in Version 1.1

Volume 3

This release supports TUXEDO 6.4 on the following platforms:

Platform	Operating System	Version
Digital Alpha	dux (UNIX)	3.2, 4.0b
Digital Alpha	Windows NT	4.0
IBM RS/6000	AIX	4.1.4, 4.2.1
Hewlett-Packard 9000	HP-UX	10.10, 10.20
Sun	Solaris	2.5.1, 2.6
Intel	Solaris	2.6
Intel	Windows NT	4.0
SCO	UnixWare	2.1
SGI	IRIX	6.2
Sequent	Dynix	4.2, 4.4.1

This release supports TUXEDO 6.5 on the following platforms:

Platform	Operating System	Version
Digital Alpha	dux (UNIX)	3.2, 4.0d
Digital Alpha	Windows NT	4.0
IBM RS/6000	AIX	4.1.4, 4.2.1
Hewlett-Packard 9000	HP-UX	10.10, 10.20, 11
Sun	Solaris	2.5.1, 2.6

Intel	Solaris	2.5.1, 2.6
Intel	Windows NT	4.0
SCO	UnixWare	2.1
SGI	IRIX	6.2
Sequent	Dynix	4.2, 4.4.2

Supported Browsers

This release supports the following browsers:

Browser	Platform	Version
Netscape Communicator	Windows NT 4.0	4.5
Microsoft Internet Explorer	Windows NT 4.0	4.0 Service Pack 1

Supported Relay Platforms

The Jolt Relay front-end (JRLY) is not dependent on TUXEDO version. This release supports the following Jolt Relay front-end platforms:

Platform	Operating System	Version
Sun SPARC	Solaris	2.5.1, 2.6
Hewlett-Packard 9000	HP-UX	10.10, 10.20
IBM RS/6000	AIX	4.2.1
Intel	Windows NT	4.0

Supported JDK Versions

This release supports JDK 1.1.6 and JDK 1.1.7 on the Solaris 2.6, Windows NT 4.0, and Windows 95 platforms.

Installing BEA Jolt Version 1.1 Volume 3

The *BEA Jolt User's Guide* contains complete installation instructions. During installation, menu choices for suggested platforms include those mentioned previously under the section “Supported Platforms in Version 1.1 Volume 3.”

Backing Up Before Installation

Prior to a Jolt 1.1 Volume 3 new installation or upgrade, first shut down the server and then back up the Jolt Repository file. On Windows NT, back up the following file:

```
tuxdir/udataobj/jolt/repository/jrepository
```

On UNIX, back up the following file:

```
tuxdir/udataobj/jolt/jrepository
```

If you have Jolt Relay installed, on both Windows NT and UNIX, also back up the following configuration file:

```
tuxdir/udataobj/jolt/jrly/jrly.config
```

In the preceding file path names, *tuxdir* is the absolute path name to the directory where the TUXEDO software is found.

Upgrading Immediately

If you need to immediately upgrade your TUXEDO/Jolt installations to TUXEDO 6.5 and cannot wait for the Jolt Version 1.1 Volume 3 CD, do the following:

- ◆ For Windows NT 4.0: Download the Jolt 1.1 Windows NT install image from BEA's Customer Support Web site and install. For more information, refer to "Accessing Download Image for NT."
- ◆ For UNIX: Use the existing Jolt 1.1 Volume 2 CD for installation.

Accessing Download Image for NT

For the TUXEDO 6.5 release, Jolt 1.1 has specific requirements that you should be aware of when installing or reinstalling TUXEDO 6.5. You may need to upgrade, install patches, or reinstall existing software. For complete information regarding these requirements, refer to the BEA Customer Support Web site. To access this Web site, follow these steps:

1. Enter the following URL in your browser: `http://www.beasys.com`.
2. Click the Customer Support button.
3. Select the LOGIN link, and log in to the BEA Customer Support Site.
4. Select BEA Downloadable Software.
5. Follow the Jolt 1.1 Product Support link.
6. For Intel NT 4.0 perform the following:
 - a. Download and run the following self-extracting program:
`jolt11v3inwnt40.exe`
 - b. Run the setup program in the following directory:
`intel\nt40\tux65\`

7. For DEC Alpha NT 4.0 perform the following:
 - a. Download the following file:
`jolt11v3alwnt40.zip`
 - b. Use winzip32 from C:\Program Files\WinZip to extract the contents.
 - c. Run the setup program in the following directory:
`alpha\nt40\tux65\`

Compatibility Issues

Due to possible incompatibility issues, we recommend that the Jolt 1.1 client and server software be upgraded to Patch 11 or higher. For more information on the upgrade, see the section “Contacting BEA Customer Support.”

Contacting BEA Customer Support

If you have any questions about this version of BEA Jolt, or if you have problems installing and running BEA Jolt, contact BEA Customer Support through BEA WebSupport at www.beasys.com. You can also contact Customer Support by using the contact information provided on the Customer Support Card, which is included in the product package.

When contacting Customer Support, be prepared to provide the following information:

- ◆ Your name, e-mail address, phone number, and FAX number
- ◆ Your company name and company address
- ◆ Your machine type and authorization codes
- ◆ The name and version of the product you are using
- ◆ A description of the problem and the content of pertinent error messages
