

Release Notes

Oracle VueLink 19.3 for Documentum

Interface for AutoVue Web Version

Oracle Corporation

Introduction

Oracle VueLink 19.3 for Documentum provides an interface between Documentum Webtop and AutoVue Web Version. This interface enables users to add powerful viewing and markup capabilities to Webtop.

System Requirements

Operating System

Operating Systems (where Documentum Webtop 6.0 SP1 and the application server are installed) that are certified in this release:

- Windows 2003R2 32-bit
- Solaris 10 on SUN SPARC 64-bit (VueLink running in 32-bit mode)

AutoVue

- AutoVue Web Version Release 19.3 (with any service pack for release 19.3)

Documentum Server installation

- Documentum Content Server 6.0 SP1 on Windows 2003R2 32-bit

Application Server / Servlet Engine

Servers that have been certified in this release:

- BEA WebLogic Server 9.2MP2

New Features

- Support for Intellistamp
- Support for AutoVue Mobile
- Markup rules and Mobile Pack
- Support for BMP and PDF renditions checked into Docbase
- Compatibility with AutoVue Web Services 19.3
- Support for Documentum 6.0 SP1
- Support for Documentum Webtop 6.1 SP1 on SUN Solaris

Features Added in Earlier Releases

- Support for browse and search of files stored in Content Server
- Support for batch print of files stored in Content Server through browse and search
- Support for cross probe of ECAD files stored in Content Server through browse and search
- Support for digital mockup of ECAD and 3D files stored in Content Server through browse and search
- Support for viewing documents stored in Documentum repository including multi-content documents
- Support for external reference files (XRefs)
- Support for markup/redlining with markups being stored inside Documentum repository
- Support for folder selection when saving markups
- Support for normal/master/consolidated markup types
- Support for opening markups which belong to previous revisions of base document
- Support for automatic markup promotion
- Support for owner/group/world base permissions as well as ACL's when saving markups
- Support for international (korean, japanese, and so on) characters in markup filenames
- Support for document attributes to be printed in footer/header/watermark
- Support for print notification messages from AutoVue server
- Support for file conversion to tiff stored in Documentum repository
- Support for file compare among revisions of a document stored in documentum repository
- Support for online caching of streaming files into Documentum repository
- Support for offline caching of streaming files into Documentum repository using streaming file caching utility
- Setup Program for windows for automatic installation of VueLink
- Support for HTTPS/SSL environment
- Customization of file info pages
- Support for XRefs stored as virtual documents
- Enhanced Setup Program with version compatibility panel

Included in the Media Pack

dms_extension

This folder contains a list of files that have been developed to extend DMS functionality. These files are called by the VueLink servlet to run various queries inside DMS.

vuelink_documentation

This folder contains VueLink documentation which contains:

- ***User's Manual***

Describes various features supported by VueLink, such as file viewing, and opening and saving markups.

- ***System Administrator Manual***

Describes step by step procedure for VueLink installation and configuration.

vuelink_servlet

This folder contains the following files:

- `vuelink.jar` : VueLink java classes
- `vueservlet.jar` : VueServlet java classes
- `commons-httpclient.jar` : Apache Common HTTP package
- `commons-logging.jar` : Apache Common logging package
- `vuelink.properties` : VueLink properties file

etc

This folder contains the following files:

- **`release.pdf`**
This document.
- **`filelist.txt`**
List of files and folder structure.
- **`version.txt`**
Build and build date information of this release.
- **`3rdParty`**
This folder contains licenses of all third party components that have been bundled with VueLink e.g. The Apache Software Foundation (<http://www.apache.org/>).
- **`Acknowledgements.pdf`**:
This file lists 3rd party software components used by VueLink.

vuelink_setup

This folder contains the installer for VueLink.

readme.html

This file is an entry point for Oracle VueLink for Documentum documentation. Includes links to the User's Manual, System Administrator Manual, and Release Notes.

Known Issues

- If a file is checked out, VueLink cannot check-in the streaming file and other renditions (such as PDF, TIFF, and BMP) to the DMS.

De-Supported Features

- Support for older versions:
 - Documentum Content Server 5.3 SP2
 - Documentum WDK 5.3 SP2
 - Documentum Content Server 5.3 SP3
 - Documentum WDE 5.3 SP3
- Streaming file caching utility
