

# Oracle® Retail Value Chain Collaboration

Release Notes

Release 13.0

October 2008

---

Welcome to Oracle® Retail Value Chain Collaboration (VCC) Release 13.0. This release notes contains information on functional and technical enhancements, fixed defects, and known issues in this release.

For more information on using the VCC application, the following documentation is available in the Oracle Retail Value Chain Collaboration Release 13.0 documentation set:

- *Oracle® Retail Value Chain Collaboration User Guide*
- *Oracle® Retail Value Chain Collaboration Installation Guide*
- *Oracle® Retail Value Chain Collaboration Operations Guide*
- *Oracle® Retail Value Chain Collaboration Online Help*

## Functional Enhancements

The Value Chain Collaboration Release 13.0 has the following functional enhancements:

- [Oracle Configuration Manager](#)
- [GUI Screens \(Swan User Interface\)](#)

## Oracle Configuration Manager

Oracle Configuration Manager is an optional data collector that provides continuous tracking of key Oracle and system configuration settings for machines on which it is installed. This tool collects configuration details for customer environments and uploads them to a repository that is viewable through the Software Configuration Manager Metalink web site. The OCM collector is optionally installed as part of your application installation.

Using Oracle Configuration Manager can reduce a retailer's support costs by providing extra configuration information that otherwise requires a phone-call or e-mail correspondence.

---

**Note:** Sensitive configuration information (such as passwords) is not included in the Oracle Configuration Manager collection.

---

## GUI Screens (Swan User Interface)

Swan User Interface is set of interface definitions produced by Oracle that create a consistent interface across the Oracle products and an improved user interface for the users. The VCC application is now available in the Swan theme.

## Technical Enhancements

The Value Chain Collaboration Release 13.0 has the following technical enhancements:

- The Integrator, Scheduler and Report modules are now compatible with Oracle Application Server 10.1.3.3. All the three modules can now run on IBM AIX 5.3 and Sun Solaris 10.

## Fixes in This Release

The following issues have been fixed for VCC Release 13.0:

- The previously saved context at the **Default Context** field on the **Preferences > General** page was not restored after the user logged in again.
  - **Resolution** - Now, the application displays the context previously-set at the **Default Context** field on the **Preferences > General** page.
- On the **Events > Promotions** page, the **Promotions Items** list that appears after clicking the link under the **Number of Items** column does not display the product information.
  - **Resolution** - The **Promotion Items** list now provides the product information.
- When editing a single item that is part of a list of items, the context for that item is not displayed on the **Edit** page. Instead the context at the parent level is displayed on the **Edit** page.
  - **Resolution** - For the selected item, the context relevant at that level is displayed on the **Edit** page.
- For a promotion selected on the **Events > Promotions** page, the **Promotion List** that appears is not sorted by the **Promotion Name**. Instead, it is sorted by the **Item No**.
  - **Resolution** - The **Promotion List** is now sorted by **Promotion Name** instead of **Item No**.
- When you click **All Partners** in the **Context** tab, the list of suppliers is not displayed in the alphabetic order.
  - **Resolution** - The list of suppliers are now displayed in the alphabetic order.

## Known Issues

The **Demand > Interactive** functionality of the application will not execute on the AIX platform.

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software--Restricted Rights (June 1987). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.

#### **Value-Added Reseller (VAR) Language**

##### **Oracle Retail VAR Applications**

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

(i) the software component known as **ACUMATE** developed and licensed by Lucent Technologies Inc. of Murray Hill, New Jersey, to Oracle and imbedded in the Oracle Retail Predictive Application Server - Enterprise Engine, Oracle Retail Category Management, Oracle Retail Item Planning, Oracle Retail Merchandise Financial Planning, Oracle Retail Advanced Inventory Planning and Oracle Retail Demand Forecasting applications.

(ii) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.

(iii) the **SeeBeyond** component developed and licensed by Sun Microsystems, Inc. (Sun) of Santa Clara, California, to Oracle and imbedded in the Oracle Retail Integration Bus application.

(iv) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Store Inventory Management.

(v) the software component known as **Crystal Enterprise Professional and/or Crystal Reports Professional** licensed by Business Objects Software Limited ("Business Objects") and imbedded in Oracle Retail Store Inventory Management.

(vi) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.

(vii) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

(viii) the software component known as **Style Report™** developed and licensed by InetSoft Technology Corp. of Piscataway, New Jersey, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.

(ix) the software component known as **DataBeacon™** developed and licensed by Cognos Incorporated of Ottawa, Ontario, Canada, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.
