Preface

The Agile PLM documentation set includes Adobe® Acrobat PDF files. The [Oracle Technology Network \(OTN\) Web site](http://www.oracle.com/technology/documentation/agile.html) <http://www.oracle.com/technology/documentation/agile.html> contains the latest versions of the Agile PLM PDF files. You can view or download these manuals from the Web site, or you can ask your Agile administrator if there is an Agile PLM Documentation folder available on your network from which you can access the Agile PLM documentation (PDF) files.

Note To read the PDF files, you must use the free Adobe Acrobat Reader version 7.0 or later. This program can be downloaded from the [Adobe Web site](http://www.adobe.com) <http://www.adobe.com>.

The [Oracle Technology Network \(OTN\) Web site](http://www.oracle.com/technology/documentation/agile.html) <http://www.oracle.com/technology/documentation/agile.html> can be accessed through **Help > Manuals** in both Agile Web Client and Agile Java Client. If you need additional assistance or information, please contact [support](http://www.oracle.com/agile/support.html) <http://www.oracle.com/agile/support.html> (<http://www.oracle.com/agile/support.html>) for assistance.

Note Before calling Oracle Support about a problem with an Agile PLM manual, please have the full part number, which is located on the title page.

TTY Access to Oracle Support Services

Oracle provides dedicated Text Telephone (TTY) access to Oracle Support Services within the United States of America 24 hours a day, 7 days a week. For TTY support, call 800.446.2398. Outside the United States, call +1.407.458.2479.

Readme

Any last-minute information about Agile PLM can be found in the Readme file on the [Oracle Technology Network \(OTN\) Web site](http://www.oracle.com/technology/documentation/agile.html) <http://www.oracle.com/technology/documentation/agile.html>

Agile Training Aids

Go to the [Oracle University Web page](http://www.oracle.com/education/chooser/selectcountry_new.html) http://www.oracle.com/education/chooser/selectcountry_new.html for more information on Agile Training offerings.

Accessibility of Code Examples in Documentation

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

Introduction

Agile PLM Data Mart is an operational data store for Agile PLM data that provides data foundation for your Enterprise Data Warehouse and Analytics solutions. The Agile PLM Data Mart is pre-packaged ETL to extract and load data from Agile PLM application using Oracle Data Integrator (ODI) technology. It stores all relevant data available in the PPM, PC, and PQM Modules of Agile PLM. The data model for the Agile PLM Data Mart is structured to facilitate querying and analysis.

The Agile PLM Data Mart operational data store facilitates the following use cases:

1. Integrate Agile Data with your Corporate Data Warehouse using corporate ETLs
2. Build and deploy your corporate Business Reporting & Intelligence applications
3. Deploy pre-packaged Agile PLM Business Intelligence (BI) Solutions

Key Features

This section lists the new features in the recent releases of Agile PLM Data Mart.

Agile PLM DM 3.0.2.0.0 has the following new features:

- Support for Agile PLM 9.3 version
- Schema names up to 30 characters
- Master Repository ID and Work Repository ID fields in the Installer

In addition, Agile PLM DM 3.0.2 allows you to create separate work repositories for development, production and testing environments on a single master repository. You must install DM 3.0.2 using the installer in the development environment.

You need to follow manual steps to create the work repositories in the QA and Production environments. For information, refer 30200 Agile PLM DM Setup Guide.

In Agile PLM DM 3.0.2 the source and target connections vary for each work repository. You can access all Work repositories simultaneously.

Agile PLM Data Mart 3.0.1 provides following new features:

- Subclass level P3 views for all supported Agile PLM business classes.
- Class Level summary views for supported Agile PLM business classes.
- Data Mart data dictionary (ODM_DATA_DICTIONARY) enhancements
 - Attribute ID and Custom Attribute ID are populated for all attributes
 - Dimension & Map tables are available for target columns in Data Mart schema
- Internationalization support for down-stream multi-locale reporting applications

- Double byte data supported in Data Mart schema and ETL
- Language data loaded for Metadata and Admin lists
- Support for Oracle 11g databases
- Support for Agile PLM 9225 and Agile PLM 9226 versions
- Supplier Map table for each Change class to identify the supplier associated with each Change
- Workflow data enhancements
 - Map table to identify the Approver/Observer users associated with the workflow state
- New installation option to enable deployment of Data Mart and ODI Repositories on single Database Schema user.

Known Issues

8234886

The installer does not allow distinct installation of Data Mart database and Data Mart ETL into the same directory on a single machine.

Workaround:

When installing components separately, select a common parent directory and use appropriate sub-directory for each component.

Example:

Select C:**PLMDatamart**\Database when installing Database components

Select C:**PLMDatamart**\ETL when installing ETL components.

8234918 – Cannot install Data Mart components on remote machines

Ability to install Data Mart over the network on another machine using Data Mart installer is not possible.

Workaround:

None.

8207238 – Cannot install Data Mart schema component on Agile PLM Schema user

User cannot install Datamart Schema objects in PLM Source Schema as similar schema objects with same names co-exist.

Workaround:

None.

Related Documentation

In [Oracle Technology Network http://www.oracle.com/technology/index.html](http://www.oracle.com/technology/index.html), the Agile documentation page, <http://www.oracle.com/technology/documentation/agile.html> has the following documents on Agile PLM Data Mart 3.0.2 application:

- Agile PLM Data Mart Setup Guide
- Agile PLM Data Mart Data Reference Manual

We suggest you refer to the documentation of the following products from Oracle Technology Network as they closely associate to Agile PLM Data Mart 3.0.2 application:

- Oracle Data Integrator
- Agile Product Lifecycle Management
