Copyright 2009 Sun Microsystems, Inc., 4150 Network Circle, Santa Clara, California 95054, U.S.A. All rights reserved.

Sun Microsystems, Inc. has intellectual property rights relating to technology embodied in the product that is described in this document. In particular, and without limitation, these intellectual property rights may include one or more of the U.S. patents listed at <http://www.sun.com/patents>, and one or more additional patents or pending patent applications in the U.S. and in other countries.

This document and the product to which it pertains are distributed under licenses restricting their use, copying, distribution, and decompilation. No part of the product or of this document may be reproduced in any form by any means without prior written authorization of Sun and its licensors, if any.

Third-party software, including font technology, is copyrighted and licensed from Sun suppliers.

Parts of the product may be derived from Berkeley BSD systems, licensed from the University of California. UNIX is a registered trademark in the U.S. and other countries, exclusively licensed through X/Open Company, Ltd.

Sun, Sun Microsystems, the Sun logo, AnswerBook2, docs.sun.com, Sun VTS, Sun Enterprise Authentication Mechanism, and Solaris are trademarks, registered trademarks, or service marks of Sun Microsystems, Inc. in the U.S. and other countries.

All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. in the U.S. and other countries. Products bearing SPARC trademarks are based upon an architecture developed by Sun Microsystems, Inc.

The OPEN LOOK and Sun trademark Graphical User Interface was developed by Sun Microsystems, Inc. for its users and licensees. Sun acknowledges the pioneering efforts of Xerox in researching and developing the concept of visual or graphical user interfaces for the computer industry. Sun holds a non-exclusive license from Xerox to the Xerox Graphical User Interface, which license also covers Sun's licensees who implement OPEN LOOK GUIs and otherwise comply with Sun's written license agreements.

DOCUMENTATION IS PROVIDED "AS IS" AND ALL EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS AND WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, ARE DISCLAIMED, EXCEPT TO THE EXTENT THAT SUCH DISCLAIMERS ARE HELD TO BE LEGALLY INVALID.

Copyright 2009 Sun Microsystems, Inc., 4150 Network Circle, Santa Clara, Californie 95054, États-Unis. Tous droits réservés.

Sun Microsystems, Inc. a les droits de propriété intellectuels relatants à la technologie incorporée dans le produit qui est décrit dans ce document. En particulier, et sans la limitation, ces droits de propriété intellectuels peuvent inclure un ou plus des brevets américains énumérés à <http://www.sun.com/patents> et un ou les brevets plus supplémentaires ou les applications de brevet en attente dans les États-Unis et dans les autres pays.

Ce produit ou document est protégé par un copyright et distribué avec des licences qui en restreignent l'utilisation, la copie, la distribution, et la décompilation. Aucune partie de ce produit ou document ne peut être reproduite sous aucune forme, par quelque moyen que ce soit, sans l'autorisation préalable et écrite de Sun et de ses bailleurs de licence, s'il y en a.

Le logiciel détenu par des tiers, et qui comprend la technologie relative aux polices de caractères, est protégé par un copyright et licencié par des fournisseurs de Sun.

Des parties de ce produit pourront être dérivées des systèmes Berkeley BSD licenciés par l'Université de Californie. UNIX est une marque déposée aux États-Unis et dans d'autres pays et licenciée exclusivement par X/Open Company, Ltd.

Sun, Sun Microsystems, le logo Sun, AnswerBook2, docs.sun.com, Sun VTS, Sun Enterprise Authentication Mechanism, et Solaris sont des marques de fabrique ou des marques déposées de Sun Microsystems, Inc. aux États-Unis et dans d'autres pays.

Toutes les marques SPARC sont utilisées sous licence et sont des marques de fabrique ou des marques déposées de SPARC International, Inc. aux États-Unis et dans d'autres pays. Les produits portant les marques SPARC sont basés sur une architecture développée par Sun Microsystems, Inc.

L'interface d'utilisation graphique OPEN LOOK et Sun trademark a été développée par Sun Microsystems, Inc. pour ses utilisateurs et licenciés. Sun reconnaît les efforts de pionniers de Xerox pour la recherche et le développement du concept des interfaces d'utilisation visuelle ou graphique pour l'industrie de l'informatique. Sun détient une licence non exclusive de Xerox sur l'interface d'utilisation graphique Xerox, cette licence couvrant également les licenciés de Sun qui mettent en place l'interface d'utilisation graphique OPEN LOOK et qui en outre se conforment aux licences écrites de Sun.

LA DOCUMENTATION EST FOURNIE "EN L'ÉTAT" ET TOUTES AUTRES CONDITIONS, DECLARATIONS ET GARANTIES EXPRESSES OU TACITES SONT FORMELLEMENT EXCLUES, DANS LA MESURE AUTORISÉE PAR LA LOI APPLICABLE, Y COMPRIS NOTAMMENT TOUTE GARANTIE IMPLICITE RELATIVE A LA QUALITÉ MARCHANDE, A L'APTITUDE A UNE UTILISATION PARTICULIÈRE OU A L'ABSENCE DE CONTREFAÇON.

# Release Notes

---

These release notes describe late-breaking information or changes to the SunVTS 7.0 Patch Set 6 release (PS6).

The SunVTS™ 7.0 PS6 software is compatible with all Solaris™ 10 OS releases from Solaris 10 05/08 Solaris to Solaris 10 05/09.

---

## End of Life Announcement for Sun VTS 6.4 Releases

SunVTS 6.4 releases are now end-of life (EOL). Feature patches will no longer be released for SunVTS 6.4.

Please use the latest SunVTS 7.0 patch set release to get all new feature updates and bug fixes in SunVTS. The SunVTS 7.0 release became available with Solaris 10 5/08.

For SunVTS 7.0 documentation, go to:

<http://docs.sun.com/app/docs/prod/test.validate>

---

# Open Issues

## Missing Sun Java Web Console Packages for OpenSolaris on SPARC and x86 Platforms

The Sun Java Web Console packages are no longer included in the OpenSolaris OS releases. The SunVTS Browser User Interface requires those packages to run.

*Workaround:* To enable the BUI, you need to download and install additional packages on your system. [CR 6846418]

## Download Instructions

### 1. Download the Sun Java Web Console 3.0.2 packages from:

<http://www.sun.com/download/products.xml?id=46cb72a9>

Select the Solaris 10 packages for your platform (x86 or SPARC) and download them.

### 2. Copy the file `webconsole3.0.2-solsparc.tar.gz` (or `webconsole3.0.2-solx86.tar.gz` for x86 systems) and place it in your testing system at a local directory, for example `/usr/osol`.

```
# cd /usr/osol
# gunzip webconsole3.0.2-solsparc.tar.gz
# chmod 755 webconsole3.0.2-solsparc.tar
# cat webconsole3.02-solsparc.tar |tar xvf -
```

### 3. Use `pkgadd` to add the following packages to your system:

```
# cd SunOS-5.11-sparc
# pkgadd -d . SUNWmconr SUNWmcos SUNWmcosx SUNWjato SUNWmcon
SUNWmctag
```

### 4. Verify that your system has the following packages installed:

SUNWj6cfg, SUNWj6dev, SUNWj6dmo, SUNWj6man, SUNWj6rt, SUNWjhrt

### 5. If necessary, install the above packages from this website:

<http://pkg.opensolaris.org/dev>

For more information go to:

[http://defect.opensolaris.org/bz/show\\_bug.cgi?id=7806](http://defect.opensolaris.org/bz/show_bug.cgi?id=7806)

## Possible Installation Issue: Install and Uninstall Using the Same Program

Use the same tool or utility for installation and removal of the SunVTS software. If you use `pkgadd` for installation, use `pkgrm` to uninstall; if you use Web Start for installation, use the Product Registry to uninstall.

## Possible Runtime Issues for Both x86 and SPARC Platforms

The `SUNWcakrnt2000` package should only be installed on a Netra T2000 system. If you installed this package on any other systems, you should remove it. [CR 6490977]

*Workaround:* Remove this package from all other systems with this command:

```
# pkgrm SUNWcakrnt2000
```

## `diskprobe` Registers `disktest` Twice for Same Disk on x86 Systems

On x86 systems, if a disk is not partitioned, `diskprobe` registers `disktest` twice for the same disk and fails while running the test.

*Workaround:* Before you run the test, partition the disk using `fdisk`. [CR 6848592]

# Pmap/Ramtest Core Dumps on SPARC and x64 Systems

Under certain conditions, execution of Memory LT may result in a core file due to the pmap(1) utility of Solaris. This core does not impact the execution of the test because the core is from pmap and not VTS memory/ramtest. To verify that the core is from pmap(1) command, use the file(1) command in Solaris. For example:

```
%file core
```

```
core: ELF 64-bit MSB core file SPARCV9 Version 1, from 'pmap'
```

*Workaround:* You can delete the core after it is determined to be from "pmap".  
[CR 6854499]
