Oracle Primavera Connecting a P6 Client to a Contract Management HTTPS URL

Copyright © 1997, 2011, Oracle and/or its affiliates. All rights reserved.

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

The platform-specific hardware and software requirements included in this document were current when this document was published. However, because new platforms and operating system software versions might be certified after this document is published, review the certification matrix on the My Oracle Support (formerly OracleMetaLink) Web site for the most up-to-date list of certified hardware platforms and operating system versions. The My Oracle Support (formerly OracleMetaLink) Web site is available at the following URL:

<http://metalink.oracle.com/>

or

<http://support.oracle.com/>

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable: U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software -- Restricted Rights (June 1987). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

Oracle and Primavera are registered trademarks of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners. The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.

To view the list of third party component disclosures related to this product, please see the *Commercial Notices and Disclosures* document for the release.

Configuring a P6 Client to Connect to a Contract Management HTTPS URL..... 7

Overview of Connecting a P6 Client to a Contract Management HTTPS URL

Note: In this document, **P6 client** refers to **P6 Professional** or **P6 Optional Client**.

In order to connect to a Contract Management HTTPS URL, you must properly configure both the P6 client and the application server hosting P6. Establishing this connection enables you to import Contract Management data to the P6 client and view Contract Management data in P6.

Note: The instructions contained in this document DO NOT replace the instructions provided in the P6 client Help and P6 Help for linking the P6 client and Contract Management. If you are connecting to a Contract Management HTTPS URL, you must complete these steps in addition to the instructions provided in the help.

Configuring a P6 Client to Connect to a Contract Management HTTPS URL

To configure a P6 client to connect to a Contract Management HTTPS URL, do the following:

- 1) Determine the client machines that will be used to import data from Contract Management.
- 2) Close the P6 client on the client machine, if necessary.
- 3) On each client machine, go to the following Web site:
<http://www.slproweb.com/products/Win32OpenSSL.html>
- 4) Click the **Visual C++ 2008 Redistributables** link.
 - a. A new Web page opens.
 - b. Click **Download** to download the Microsoft Visual C++ 2008 RedistributablePackage (x86).
- 5) In order for the P6 client to communicate via HTTPS with the Contract Management server, an implementation of the OpenSSL libraries must be installed on the client machine. Do the following to install a version of OpenSSL from Shining Light Productions:
 - a. Go to the ***<http://www.slproweb.com/products/Win32OpenSSL.html>*** Web site, and do the following:
 - b. Click the **Win32 OpenSSL v0.9.8k Light link**. If v0.9.8k is not available, choose the latest version.
 - c. Follow the prompts in the Setup wizard to install OpenSSL.

Caution: In the Setup wizard, on the **Select Additional Tasks** dialog box, be sure to choose the **Windows system directory** option (this is selected by default).

For information about setting up the P6 client to import data from Contract Management, see the topics under the "Linking Contract Management (Expedition) Data" section of the Contract Management online help.

For information about configuring the Contract Management URL in P6, see the information regarding the Applications Settings General page in the *P6 EPPM Administrator's Guide*.
