This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS

Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, duplication, disclosure, modification, and adaptation shall be subject to the restrictions and license terms set forth in the applicable Government contract, and, to the extent applicable by the terms of the Government contract, the additional rights set forth in FAR 52.227-19, Commercial Computer Software License (December 2007). Oracle America, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications which may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle and Java are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Xeon are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Opteron, the AMD logo, and the AMD Opteron logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information on content, products and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third party content, products and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third party content, products or services.

Preface

These release notes describe enhancements, configuration information, and known issues for Oracle Utilities Smart Grid Gateway Version 2.0.0.2.

This preface contains these topics:

- **Audience**
- **Related Documents**
- **Conventions**

Audience

Oracle Utilities Smart Grid Gateway Release Notes is intended for anyone installing or using Oracle Utilities Smart Grid Gateway Version 2.0.0.2.

Related Documents

For more information, see these Oracle documents:

- *Oracle Utilities Smart Grid Gateway Quick Install Guide*
- *Oracle Utilities Smart Grid Gateway Installation Guide*
- *Oracle Utilities Smart Grid Gateway Database Administrator's Guide*

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.

Convention	Meaning
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Chapter 1

Release Notes

These release notes contain the following sections:

- **About This Release**
 - **Relationship Between Version 2.0.0.2 and Version 2.0.0.1**
 - **Functionality**
- **Known Issues**
 - **Adapter for Echelon**
 - **Adapter for Landis+Gyr**
 - **Oracle Utilities Meter Data Framework**
 - **Oracle Utilities Application Framework**

About This Release

This section contains general information about Oracle Utilities Smart Grid Gateway version 2.0.0.2. Version 2.0.0.2, or alternatively “2.0.0 Service Pack 2,” includes all the components and features previously released with version 2.0.0.1 plus a number of fixes tested and released together.

These release notes contain information about how the service pack, version 2.0.0.2, relates to the previously posted distribution (version 2.0.0.1).

Refer to the release notes available with Oracle Utilities Smart Grid Gateway version 2.0.0 and 2.0.0.1 for functionality delivered with those versions.

Relationship Between Version 2.0.0.2 and Version 2.0.0.1

Version 2.0.0.2 supports the following upgrade paths:

- If you are installing Oracle Utilities Smart Grid Gateway version 2.0.0 for the first time, you must install version 2.0.0.0, available on the Oracle Software Delivery Cloud, before installing version 2.0.0.2
- If you have Oracle Utilities Smart Grid Gateway version 2.0.0 or 2.0.0.1 installed, you can upgrade to version 2.0.0.2 directly.

Functionality

This section describes new features and functionality included in Oracle Utilities Smart Grid Gateway version 2.0.0.2.

Landis+Gyr SOA Security

This release supports the creation of security credentials for communication between the adapter for Landis+Gyr and the head-end system. For more information on configuring the security credentials, see the *Oracle Utilities Smart Grid Gateway Installation Guide* included with this release.

Known Issues

This section describes known issues in Oracle Utilities Smart Grid Gateway version 2.0.0.2 at the time of release. Single fixes for these issues will be released at a later date.

Adapter for Echelon

IMD Upload

On the Initial Measurement portal, performing additional mapping produces an error. (Bug Number 13112366)

Upload Statistics

Saving a measuring component with statistics aggregator type produces an error. (Bug Number 13244531)

Adapter for Landis+Gyr

Device Decommissioning

When the Device Decommission Activity is initiated, the Activity stops at the Communication In Progress state. The Completion Event is created at the Pending state and does not transition to the Executed state.(Bug Number 13117277)

Oracle Utilities Meter Data Framework

This section describes known issues in the Oracle Utilities Meter Data Framework that impact Oracle Utilities Smart Grid Gateway version 2.0.0.2. Single fixes for these issues will be released at a later date.

Command Processing

An activity stays in the Waiting for Effective Date state when no effective date is specified. (Bug Number 13108830).

Oracle Utilities Application Framework

This section describes known issues in the Oracle Utilities Application Framework that impact Oracle Utilities Smart Grid Gateway version 2.0.0.2. Single fixes for these issues will be released at a later date.

Help Text Is Covered by Zones

When the help text window of a field overlaps zones in the portal, the zones are appearing in front of the help text. The help text should be appearing in front of the zones. (Framework Bug Number 12714145)
