## Ability to Move Facilities in SCRM

# Overview

Applications: SCRM

Focus Area: Facilities

Users identified scenarios where companies will buy businesses from other companies or sell a line of business to another company. In these situations customers needed a quick method for reflecting the change in SCRM.

# The Basics

You now have the ability to move a facility to a different company. This ability is protected by a user role, [SCRM\_FACILITY\_RELOCATER], and the company change will be audited and displayed on the facility profile.

1. When a facility is in edit mode the “Company Name” is an active link.
