General Issues and Workarounds

1.1 How to use these release notes

These release notes are updated periodically as new information becomes available. To ensure that you are reading the latest version of the release notes, check the OHI Claims Analytics Documentation set. The most current version of the Oracle Business Intelligence Applications Release Notes is available on the Oracle Technology Network.

1.2 New Password for BI Server Repository File ClaimsAnalytics_2.12.3.0.0.rpd

To open the ClaimsAnalytics_2.12.3.0.0.rpd file in Oracle BI Administration Tool, you must specify the Admin\Oracle123 credentials.

1.3 Certification Information

For certification information, refer to the Certifications tab on My Oracle Support at the following location:

<http://support.oracle.com>

2 Oracle Insurance Claims Analytics for Health: General

This section provides release notes for Oracle Insurance Claims Analytics for Health in general.

2.1 Metric # of Open Claims in analysis "Claims churn (influx / outflux) over a specific historical period" can give incorrect values

Metric # of Open Claims in analysis "Claims churn (influx / outflux) over a specific historical period" can give incorrect values. This happens when a subset of claim forms or claim types is chosen in the prompt of the dashboard page "Trend Analysis". When prompts are not set at all the metric shows correct information.

Workaround

Do not select multiple values in the dashboard prompt claim form or claim type. The analysis shows correct information if only one value is set in the prompt.

3 Preface
