Oracle Agile Engineering Data Management - Bug Fixes for Agile e6.1.3.0

March 28, 2014

Part No. E50978-02

Agile e6.1.3.0

BUG ID	Component	Subject
7107308	CLI	User defaults BRW_EXP_XBA,BRW_EXP_XAA ,mask limit reached, reload again
7108432	DB	Quick load of assembly does not work if Generics are located below variants.
7108828	CLI	Calling the function PrpFavorite/SaveNosel on a document type list, PrpFavorite/GetEntInfo returns an error.
8771791	CLI	Difficulty choosing menu selections in the Java Client
8854551	CLI	It is not possible to avoid adding field names OR field titles when using Drag & Drag with the Java Client, even though the value "DragDrop.HtmlFieldNames" was set to "false"
9123712	CLI	Field menus with 2 columns not correctly formatted with non proportional font
9138033	CLI	LogiView mask (LVF-MASK) cannot be confirmed with the keyboards (RETURN key)
9868133	CLI	JAR file missing in the Batch Client installation
10190043	CLI	Working without mouse click after a recursive widget not possible
10372226	CLI	Cannot quit view mode in Combo box field
10377895	BAS	T_USER.C_LDAP_NAME should be capable of containing more than 80 characters
10402269	CLI	Scrolling in OFFICE document form does not change record until 2nd click
10406498	CLI	General tab N*Tree definition empty after Tab switch
10413197	INSTALL	Cannot set Java Daemon port with 4-digit numbers in installer
11071378	CLI	Wrap line in message window wraps in the middle of a word, not only word by word
11733016	CLI	Menus should be configurable in length and not limited to 8 lines and scroll bar.
11788663	CLI	AutoCAD Integration ECI Server Plug-in could not open ECI connection
11868915	ORG	HK reloading modified permission data should work for all application servers
11891917	DOC	PDF generated from MS Excel dies not have repeated lines
12397277	CLI	Internal browser: Icon of the entity is not appearing
12411096	BAS	In MDI mode a Java icon is displayed instead of the standard Agile icon

BUG ID	Component	Subject
12538293	VIEW	Viewer mask / window should show file name
12538939	TEC	Java Wrapper Release 3.2.3: Error during start up
12603905	CLI	Java Client: LVF masks do not show defined icon in upper left corner
12683173	CLI	Java Client should come to foreground when accessed with CTRL-U link
12735779	WSI	In case of illegal access exception, the running PLM Server should be down
12819637	BSL	DataView function DMI_SET_DIS is no longer available without TCL
12829471	WFL	HK-enable sending notification to a group of users for every state/state change
12890601	DOC	Old file not deleted on File Server when checking in a file through Web File Service
12921048	CLI	Auto Complete (Preselect) of Drop Down values does not work if checkstring "A"
12934582	INS	No error check at the end of the GUI installation
12952128	UPG	Windows scripts included MS SQL related parts should be removed
12957590	CLI	Multiple entries in Java cache
12986764	CLI	Virtual width of fields with multiple lines not considered in Java Client
12991037	BAS	Call XQRY_CND_SAV as menu selection in document list: Wrong stored query created
12998346	CLI	Enhance daemon consol plug-in for the Java Client
13322285	DOC	File Server transfer rate with ~7 Mbyte/sec is too slow
13445473	WFL	Connect lone to operators ins not properly aligned
13457816	VAR	Derive order specific BoM leas to XML bridge error
13465035	DOC	Better trace function required for File Server losing RPC ports
13469210	CLI	Java Client field editor (F8) opens field with same size like the mask
13480917	DOC	OFFICE 2010 property exchange does not work for old format (DOC)
13495531	DOC	Wrong transfer size for Distributed File Management
13501496	CLI	Java Client performance slow on remote sites compared to Windows Client.
13509293	DOC	Database error when checking in a file with a very long file name
13514612	BAS	Item revision chain – dies not withdraw previous revision
13519679	BAS	Issues with generating records in T_DOC_HIS (C_ID and HIST_ID)
13525048	BAS	SSL encrypted connection LDAP-UNIX is essential for security reasons
13528856	INSTALL	Redeploy business service JSAFE_PADDINGEXCEPTION: Could not perform unpadding
13586368	BAS	XUTIL_FRM_LIS truncates query string from source widget
13589631	CLI	Browser refresh creates addition selections
13589867	BSL	LogiView round function RND() gives mathematically wrong results
13596069	DOC	FileServer losing RPC ports, needs reboot
13602428	BAS	Customers want to have a flag in the user management to deactivate user
13605037	BAS	Server side external mail EXM_SND_EXT /MAILER=NOTIFIER corrupts subject
13614151	ORG	WebLogic permission manager LogiView system variable EP_ROL_PRO VALUE incomplete
13626120	BAS	ECI function ECI_CKI_BOT returns 'Transaction Error' and does not

BUG ID	Component	Subject
		work anymore.
13627536	BAS	Server side external mail MAIL EXM_SND_EXT /MAILER=NOTIFIER ATTACHMENT 2MB
13635381	ORG	Userexit XPDW_KSA_VIE_DWN returns no widget available in Java Client
13635446	ORG	Userexit XPDW_KSA_VIE_UP returns "ERRORCODE: 767"
13644501	CLI	Old concept for classification lists is not working in Java Client
13649958	BAS	XCFG_GET_VAL does not cache empty values
13651511	EXCH	PLM connector properties mixed up/ignored – Call timeout – Connection time out
13655501	DOC	PDF generator: JAVA.IO.IOEXCEPTION: Cannot run program "INTEL-MS-NT5.1"
13680525	BAS	Server side external mail EXM_SND_EXT /MAILER=NOTIFIER Java Client list connection.
13682132	ORG	Access rule is not executed from a status change directly after the file recheck-in
13702643	BAS	Password up to 255 characters should be possible
13702689	DOC	Wrong transfer size for DFM
13706538	BAS	Heterogeneous structure should support different CAD system (EXPLODE_PROE)
13722444	ORG	Project independent role project manager stored default – Project does not exist
13731775	CLI	Java Client selects a record on aborting an Insert action in a list
13741744	BAS	The user is not asked to change the password during first login.
13745180	CLI	Webstart warning: JNLP file not signed
13783072	CLI	Select Action userexit with FIELD_WRITE hampers form mask from normal scrolling
13787635	CLI	Query result in recursive widget behaves different in Java and Windows Client
13804069	DOC	File transfer XFILE_CHG_ARE error: File remains in source vault
13818748	CLI	Inserting a new note in the Java Client may create incorrect position number
13819695	CLI	Refresh (WDH_UPD_LIS) not possible any more in POST_ACTION of Insert action
13824835	BAS	Userexit XCPY_AGG returns error 4 for some document records
13838960	BAS	It is not possible to change password encryption algorithm from LDAP to SHA-0
13839020	BAS	EDB-BAS-EMPTY edit menu missing for certain forms
13866421	INSTALL	Batch Installation – WLS domain deployment fails if NM username is not WebLogic
13866629	CLI	EDB-EXIT causes 'Dead processes' if mask should be opened
13870269	INS	EPKEYTOOL.SH points to wrong version of Jar files on Unix platforms
13880173	BAS	Search functionality for folder contents does not work XREL_UPD_MUL)
13896190	BAS	Java and Web Client open password dialog for LDAP users without message
13903139	CLI	Java Client: DAL_MAS_SET_FLD called C userexit does not position cursor
13960210	CLI	LVF mask: Post-field userexits are executed three times.

BUG ID	Component	Subject
13969200	CLI	Significant fields displayed in Java Client browser taken from current mask
13981404	CLI	Style definition to add icon on hyperlinked field results in incomplete link text
14001683	CLI	Java Client: Right mouse button in browser opens previously selected item.
14039342	BAS	Mask tab definition leads to server crash on Windows
14041455	CLI	ECI_UPD_TYP ERROR 071 value too big for column: Additional error message missing
14063674	BAS	Userexit ECI_CKO_FIL_ONE throws message 'NO WIDGET IS ACTIVE!'
14078620	WFL	Automatic activity or split batch process does not start sub-process
14095297	INS	Deployment command fails with error and causes 0 KB files in installwe folder
14107276	WFL	Unused sub-processes remain in status 'IN DEFINITION' after main process closed
14127177	BSL	Userexit "XUTIL_MAS_GET_INFO" destroys virtual mode and displays masks
14158315	BAS	Drag&Drop of relations into browser deletes the source relations
14178833	CLI	Browser collapse after creating a new record (e.g. Favorite or Stored Query)
14185523	CLI	FIELD_SET_QRY changing sort order field with Null values displayes empty lines
14215669	BAS	DATE FIELD HeterogeneousSTRUCTURE - XASE_CRE_TAB_VIE_SEL DB-ERROR-CODE: -20008
14216130	BAS	Heterogeneous structure 'XASE_SHW_HIE' -20008 'XASE_HIE_POM' -942
14225786	WFL	Business service logging leads to growing file ESERIES-01.OUT
14248273	CLI	Filter function in selection list in Query mode causes mask to reappear
14268612	DB	Query for µ character not possible – result is an empty mask
14341266	CLI	WDG_RET_ELM does not return current parent element name when scrolling
14349372	CLI	WDG_GET_SON returns all opened son widgets instead of only visible/current ones
14357450	INSTALL	Business service redeployment fails - J2EEAPPSERVER_TARGETS.XML:722:
14370267	WFL	Connector pool of business service looses values after redeployment
14393598	CLI	LogiView command 'WIDGET_ACTIVATE' does not pos an interactive widget
14461637	CLI	LogiView command WIDGET_CLOSE not working from a post mask userexit (Java Client)
14478103	BAS	ECI function ECI_ADD_DOC_HIS does not work correctly any more
14497998	TEC	WebLogic, RAC the JDBC connection should point to RAC not RAC MEMBER
14518589	CLI	Copy date field from Java Client to other application truncates year.
14524283	DOC	Office Suite cannot create PDF out of .DOCM files.
14525319	EXCH	Update trans queue UTF-8 data error at conversion of field T_EER_SEN.EXT_DATA
14525362	EXCH	Synchronous SAP connector - UTF-8 characters not displayed correctly
14591943	DOC	FMS_CLI crashes during rename of old FMS_CLI.LOG to

Copyright © 2014, Oracle and/or its affiliates. All rights reserved.

BUG ID	Component	Subject
		FMS_CLI.LOG_1
14614418	WFL	Umlauts not displayed (wrong character set) in messages from Workflow
14615209	CLI	LogiView procedure not aborted with Cancle button of LVF form under certain circumstances
14627159	ORG	Task check only possible for one record during Drag&Drop with library EPSRV_ROL
14641352	CLI	Edit-action userexit not executed in initial query of modal widget
14667056	CLI	Newly inserted record jumps to the first row if Query mode is entered
14755664	CLI	Java Client freezes when opening a modal widget that contains list userexit.
14801941	WFL	Business Service Messenger – Exception handling during send mail
14807384	DOC	EPCLT_FMS_VC7.DLL missing
14811803	CLI	Recursive widget starts in Query mode even if populated
14828172	DOC	File Server Client crashes during replication in error case
14838296	BAS	Change of password of key over TOOLS > OPTIONS > OWN KEYS only on UNIX
15830832	WFL	Info mails T_MAIL_DAT from closed completed process will not be send
15830957	CLI	WIDGET_ACTIVATE does not work for child widget
15836132	DOC	Background OFFICE 2010 process of PDF generation does not shut down
15836241	DOC	PDF generation does not work for files -GENERATION NOT WORKING FOR FILES CONTAINING BLANKS IN NAME
15836354	DOC	axalant process started by pdf generation will not terminate
15847875	CLI	Hyperlink is not displayed correctly when style sheet is used for field alignment
15891622	CLI	WIDGET_ACTIVATE in pre-field or post-field userexit of LVF mask causes double masks
15922763	CLI	Special character 'µ' not possible in field with checkstring 'A'
15952970	UPG	Takeover for big tables fails with error "JAVA.LANG.OUTOFMEMORYERROR: JAVA HEAP"
15953426	WFL	Notifications are always send immediately even if e.g. DAILY is set
15985246	DB	Contexts activated – Internal database error in "XEDB_USAGE_VER" CODE -20008
15996826	INS	Customer redeployment of application-specific components got wrong files
16011729	WFL	High amount of classification attributes leads to slow Workflow Editor start
16029283	DOC	DFM online transfer fails with server crash
16034008	CHG	Withdraw operation (XCHG_INA_OBJ) fills wrong fields for 'Old' released records
16034543	CLI	Format of date field when copying from Java Client cannot be adapted
16035870	EXCH	IEF Import leads to server crash - @OWNER, @GROUP, @RIGHTS – Parameter Top
16184052	CLI	The size of all thumbnails in a list form should be adjusted to the height of the rows if "Calculated row height" is turned off.
16198542	CLI	PPO Batch job executed without filter criteria
16207763	BAS	LogiView data GDMBATCH will be destimated.

BUG ID	Component	Subject
16276556	BAS	Different list of container classes in different class masks
16297324	CLI	Group access right "O" OWNER does not provide possibility to change owner
16315856	EXCH	EIP SAP connector support SAP secure network communication is missing
16317318	CLI	Receive warning message due to WIDGET_ACTIVATE
16355903	CLI	DRAG & DROP of multiple records causes Java Client to hang.
16361583	CLI	Calculated row height together with thumbnails causes Performance issue
16386800	CHG	Monster mask causes release date to change to '@NOW'
16392452	INSTALL	FMS daemon standalone Install package missing for DFM Remote site
16422613	INSTALL	JADE.BAT FMS_JADE.BAT cannot be started in command shell - PLM_ENV_DEV.CMD
16422643	TEC	Java Wrapper release 3.2.3 Error during startup of EIP
16477411	DOC	FMS daemon crashes when viewing multiple files by multiple users
16512064	BAS	Logic field Heterogeneous structure - XASE_CRE_TAB_VIE_SEL DB-ERROR-CODE: -20008
16708421	ORG	Possibility userexit to reorganize organization structure missing
16774322	EXCH	One EIP file checkin leads to two file checkins – first file remains in vault
16826372	WSI	Each application specific domain server starts an E6 PLM authenticator process
16854799	CHG	Context filters: Wor kset will be released but not assigned objects (BOM /ADO)
16892317	CLI	Row style will be ignored
16969210	INSTALL	Certificate of several MSI files is only valid until 07/07/2013
17004199	INSTALL	Certificate of MS Office 2010 MSI file is only valid until 07/07/2013
17017068	BAS	After replacing a BoM record, the maser record remains locked
17373411	CLI	DRAG & DROP of multiple records causes Java Client to hang
17448171	INT_OPS	Server debug command trace file with C++ debugging includes unwanted characters
17469122	CLI	Web Start console complains about missing codebase and permission attributes

AutoVue Integration

Bug ID	Component	Subject
12534700	3DEMPRO	The size in which the undocked AutoVue client opens should be user-definable
12759265	3DEMPRO	There should be an easy way to assign rights for markup or viewing only
13087587	3DEMPRO	Markup Save attribute description text not stored in A PLM system language GERMAN
13423310	INT_OPS	There should be a selection to the start he AutoVue Integration without a file
13706314	INT_OPS	Ii should be possible to assign AutoVue GUI files user-specific
13773125	3DEMPRO	Updating markup files under global view - ERROR: Unable to save markup
13782512	3DEMPRO	Unable to view markups with the files replicated in 2DFMS and 2 VIEW SERVER environments
13784123	INT_OPS	Ii should be possible to view more than 5 files at the same time per client.
13886539	3DEMPRO	JVM hangs on client while closing client window with undocked Viewer window
13925799	3DEMPRO	In Markup selection list name of creator of markup should be shown
13926303	3DEMPRO	3D model AutoVue 3D returns unique constraint (XX.I_T_PVM_FIL_DAT) violated
14486791	3DEMPRO	Viewing multiple files error: Could not initialize socket on local host 5099
17015596	INT_OPS	Integration still deletes entries in T_PVM_DMS_DAT, what is obsolete in previous release2
17229098	3DEMPRO	Viewer Plug-in reads configuration not only when first file is viewed

Documentation Bugs

Bug ID	Component	Subject
13834403	CLI	Userexit documentation for brw_sel_dtv missing
14562833	DOC	Fast load unable to load file from tmp table which was modified in the meantime
13921243	INSTALL	Add info about activating the dot license in the Admin manual
14000176	DOC	Documentation missing: how to define file drag and drop targets
13971452	DOC	File vault relations lost after creating new document version updating one file
14210241	DOC	Documentation incorrect: fileserver settings when multiple ip-adresses are used
12576354	WFL	wfl proc start userexit logiview system variables ep_wfl_prc_id
13402435	BAS	Missing documentation for quickload and eci
13395435	DOC	More detailed documentation is required for the property exchange during the pdf generate
13496604	BAS	No description for several bvb_uti-userexis in the online documentation
13515148	CLI	Result of 'refresh' directly after open is not correct in hyperlinked mask
13515315	CLI	Java client: iwf_del_lis in the internal browser is not working
9869056	DOC	Record locking during file checkout
10028005	CLI	Standard userexit names and lgv procedure names shall not be identical
16768267	BAS	Default edb-ver-prod-ask not documented
13826035	CLI	URL object access documentation is outdated
14723466	EXCH	Webservices manual misses some information
14570590	DOC	Create config para edb-jcl-lng-edt
13920370	ORG	MOA documentation misses adaption of stored procedure for tolerance correction
14296927	CLI	Activating icons on tabs under the general:masks - layout tab doesn't work
14214711	WFL	Mail template - business service error messenger - string index out of range: -8
14314316	CLI	It does not explain how exactly to switch the view to thumbnail
14126116	BAS	New selective bulk checkout/load function eci_upd_cax_fil missing in online help
14277155	BAS	Date format d-a y:h-m-s respectively 17-may 1994:12-20-31 not supported
14248298	BAS	Administrator function change password dialog not explained
17606503	3DEMPRO	Userexit documentation xpvm_cal_vie , xpvm_cre_dat parameter missing
