Oracle Insurance Insbridge Enterprise Rating Release Notes Version 5.1

The purpose of this document is to:

Describe the new features and resolved issues offered in the Insbridge Enterprise Rating system Release 5.1. This document also provides a history of enhancements and bug fixes from past releases.

ANNOUNCEMENTS for RELEASE 5.1

ORACLE #	Product	Description
21896366	SoftRater	<p>Impacted Area: Oracle 10G</p> <p>Update: With release 5.1, support for Oracle 10G is no longer available.</p>

NEW FEATURES for RELEASE 5.1

ORACLE Feature #	Product	Description
22183037	System	<p>Impacted Area: System</p> <p>Enhancement: Microsoft Windows Server 2012 R2 is now supported.</p>
18559527	RateManager	<p>Impacted Area: Table Export to Microsoft Excel</p> <p>Enhancement: Bulk table exports allows for table variables to be exported in to a Microsoft Excel workbook. Various options are presented that allow for one or more tables to be exported either immediately or to be saved and the job run at a later time.</p> <p>For JBoss users, please see Known Issues.</p>
20464053	RateManager	<p>Impacted Area: Program Version Report Hyperlinks</p> <p>Enhancement: Program Version Reports now have hyperlinks to variables listed at the front of the report. Users can now jump to a variable using the links instead of scrolling through the report.</p>
22180826	RateManager	<p>Impacted Area: Reporting Data Model</p> <p>Enhancement: The Reporting Data Model reports now show the active revision of the table variable being used. Records for each Universal, Global and Local Table Variable appear in the appropriate view when a program using the current Active Revision is packaged. These records from that time on are set to the latest selected active Table Variable revision. Once a Table Variable is packaged, the record changes to reflect the Active Revision set by the user in Rate Manager. To see the updates, a new report must be generated.</p>

<p>20482533 20482519 20482495 20482403 20482376 20482436</p>	<p>RateManager</p>	<p>Impacted Area: ESI Enhancements</p> <p>Enhancement: ESI functionality has been expanded and now includes:</p> <ul style="list-style-type: none"> • Add/update notes to a program version. (Retrieve all, Add, Update, Delete) • Add the ability to export tables in the tab-delimited tab format. • Add/update program version name. • Add/update notes to a table revision (Retrieve all, Add, Update, Delete) • Add the ability to define a new table revision. • Add/update program versioning data. (Delete, Update, Insert with multiple rows)
<p>20319595</p>	<p>SoftRater</p>	<p>Impacted Area: Security</p> <p>Enhancement: Application security to help protect against a cross site request forgery (CSRF) attack has been added to IBSS.</p>
<p>22085931</p>	<p>RateManager</p>	<p>Impacted Area: Table Variables Data Import</p> <p>Enhancement: Previously auto mapping of column headers when importing table data was only available if you did not preview your data. With this release, auto mapping of columns when importing table data has been added to the option when previewing the data. This allows users to preview data prior to being imported with column headers matched up.</p>

ISSUE RESOLUTION for RELEASE 5.1

The following issues have been resolved.

ORACLE Issue #	Product	Description
21645203	IBFA	Impacted Area: Releases Issue Impact: Users were unable to unload a release after it was deployed and loaded in IBFA.
21509908	RateManager	Impacted Area: Local Definitions Issue Impact: When a comma was being used as a decimal symbol, system level constants, and variables were not allowing for those elements to be created or utilized in mathematical functions.
19597210	RateManager	Impacted Area: Packaging Issue Impact: When a calculated variable was used in a driver assignment algorithm, an error was returned when the program was being packaged that the system was unable to locate the category for the calculated variable.

KNOWN ISSUES for RELEASE 5.1

ORACLE Bug #	Product	Description
22305581	SoftRater	Impacted Area: SoftRater for JBoss Table Exports Issue: Table Exports are not functioning as expected in SoftRater for JBoss. We apologize for any inconvenience this may cause.
