Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.</p> <p>END OF TERMS AND CONDITIONS</p> <p>APPENDIX: How to apply the Apache License to your work. Distribution of Executable Form</p> <p>If You distribute Covered Software in Executable Form then:</p> <p style="padding-left: 40px;">such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and</p> <p style="padding-left: 40px;">You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients' rights in the Source Code Form under this License.</p> <p>3.3. Notices</p> <p>You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies.</p> <p>3.5. Application of Additional Terms</p> <p>You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.</p> <p>4. Inability to Comply Due to Statute or Regulation</p> <p>If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the non-compliance by some reasonable means prior to 60 days after You have come back into compliance. Moreover, Your grants from a particular Contributor are reinstated on an ongoing basis if such Contributor notifies You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice.</p> <p>5.2. If You initiate litigation against any entity by asserting a patent infringement claim (excluding declaratory judgment actions, counter-claims, and cross-claims) alleging that a Contributor Version directly or indirectly infringes any patent, then the rights granted to You by any and all Contributors for the Covered Software under Section 2.1 of this License shall terminate.</p> <p>5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your distributors under this License prior to termination shall survive termination.</p> <p>6. This limitation of liability shall not apply to liability for death or personal injury resulting from such party's negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You.</p> <p>8. Litigation</p> <p>Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this Section shall prevent a party's ability to bring cross-claims or counter-claims.</p> <p>9. 		<p>of this license document, but changing it is not allowed.</p> <p style="text-align: center;">Preamble</p> <p>The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.</p> <p>When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it</p>

Provider	Component(s)	Licensing Information
		<p>in new free programs; and that you know you can do these things.</p> <p>To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights.</p> <p>These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.</p> <p>For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.</p> <p>We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.</p> <p>Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we</p>

Provider	Component(s)	Licensing Information
		<p>want its recipients to know that what they have is not the original, so</p> <p>that any problems introduced by others will not reflect on the original</p> <p>authors' reputations.</p> <p>Finally, any free program is threatened constantly by software</p> <p>patents. We wish to avoid the danger that redistributors of a free</p> <p>program will individually obtain patent licenses, in effect making the</p> <p>program proprietary. To prevent this, we have made it clear that any</p> <p>patent must be licensed for everyone's free use or not licensed at all.</p> <p>The precise terms and conditions for copying, distribution and</p> <p>modification follow.</p> <p style="text-align: center;">GNU GENERAL PUBLIC LICENSE</p> <p style="text-align: center;">TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION</p> <p>0. This License applies to any program or other work which contains</p> <p>a notice placed by the copyright holder saying it may be distributed</p> <p>under the terms of this General Public License. The "Program", below,</p> <p>refers to any such program or work, and a "work based on the Program"</p>

Provider	Component(s)	Licensing Information
		<p>means either the Program or any derivative work under copyright law:</p> <p>that is to say, a work containing the Program or a portion of it,</p> <p>either verbatim or with modifications and/or translated into another</p> <p>language. (Hereinafter, translation is included without limitation in</p> <p>the term "modification".) Each licensee is addressed as "you".</p> <p>Activities other than copying, distribution and modification are not</p> <p>covered by this License; they are outside its scope. The act of</p> <p>running the Program is not restricted, and the output from the Program</p> <p>is covered only if its contents constitute a work based on the</p> <p>Program (independent of having been made by running the Program).</p> <p>Whether that is true depends on what the Program does.</p> <p>1. You may copy and distribute verbatim copies of the Program's</p> <p>source code as you receive it, in any medium, provided that you</p> <p>conspicuously and appropriately publish on each copy an appropriate</p> <p>copyright notice and disclaimer of warranty; keep intact all the</p> <p>notices that refer to this License and to the absence of any warranty;</p> <p>and give any other recipients of the Program a copy of this License</p>

Provider	Component(s)	Licensing Information
		<p>along with the Program.</p> <p>You may charge a fee for the physical act of transferring a copy, and</p> <p>you may at your option offer warranty protection in exchange for a fee.</p> <p>2. You may modify your copy or copies of the Program or any portion</p> <p>of it, thus forming a work based on the Program, and copy and</p> <p>distribute such modifications or work under the terms of Section 1</p> <p>above, provided that you also meet all of these conditions:</p> <p>a) You must cause the modified files to carry prominent notices</p> <p>stating that you changed the files and the date of any change.</p> <p>b) You must cause any work that you distribute or publish, that in</p> <p>whole or in part contains or is derived from the Program or any</p> <p>part thereof, to be licensed as a whole at no charge to all third</p> <p>parties under the terms of this License.</p> <p>c) If the modified program normally reads commands interactively</p> <p>when run, you must cause it, when started running for such</p>

Provider	Component(s)	Licensing Information
		<p>interactive use in the most ordinary way, to print or display an</p> <p>announcement including an appropriate copyright notice and a</p> <p>notice that there is no warranty (or else, saying that you provide</p> <p>a warranty) and that users may redistribute the program under</p> <p>these conditions, and telling the user how to view a copy of this</p> <p>License. (Exception: if the Program itself is interactive but</p> <p>does not normally print such an announcement, your work based on</p> <p>the Program is not required to print an announcement.)</p> <p>These requirements apply to the modified work as a whole. If</p> <p>identifiable sections of that work are not derived from the Program,</p> <p>and can be reasonably considered independent and separate works in</p> <p>themselves, then this License, and its terms, do not apply to those</p> <p>sections when you distribute them as separate works. But when you</p> <p>distribute the same sections as part of a whole which is a work based</p> <p>on the Program, the distribution of the whole must be on the terms of</p> <p>this License, whose permissions for other licensees extend to the</p> <p>entire whole, and thus to each and every part regardless of who wrote it.</p>

Provider	Component(s)	Licensing Information
		<p>Thus, it is not the intent of this section to claim rights or contest</p> <p>your rights to work written entirely by you; rather, the intent is to</p> <p>exercise the right to control the distribution of derivative or</p> <p>collective works based on the Program.</p> <p>In addition, mere aggregation of another work not based on the Program</p> <p>with the Program (or with a work based on the Program) on a volume of</p> <p>a storage or distribution medium does not bring the other work under</p> <p>the scope of this License.</p> <p>3. You may copy and distribute the Program (or a work based on it,</p> <p>under Section 2) in object code or executable form under the terms of</p> <p>Sections 1 and 2 above provided that you also do one of the following:</p> <p>a) Accompany it with the complete corresponding machine-readable</p> <p>source code, which must be distributed under the terms of Sections</p> <p>1 and 2 above on a medium customarily used for software interchange; or,</p> <p>b) Accompany it with a written offer, valid for at least three</p> <p>years, to give any third party, for a charge no more than your</p>

Provider	Component(s)	Licensing Information
		<p>cost of physically performing source distribution, a complete</p> <p>machine-readable copy of the corresponding source code, to be</p> <p>distributed under the terms of Sections 1 and 2 above on a medium</p> <p>customarily used for software interchange; or,</p> <p>c) Accompany it with the information you received as to the offer</p> <p>to distribute corresponding source code. (This alternative is</p> <p>allowed only for noncommercial distribution and only if you</p> <p>received the program in object code or executable form with such</p> <p>an offer, in accord with Subsection b above.)</p> <p>The source code for a work means the preferred form of the work for</p> <p>making modifications to it. For an executable work, complete source</p> <p>code means all the source code for all modules it contains, plus any</p> <p>associated interface definition files, plus the scripts used to</p> <p>control compilation and installation of the executable. However, as a</p> <p>special exception, the source code distributed need not include</p> <p>anything that is normally distributed (in either source or binary</p> <p>form) with the major components (compiler, kernel, and so on) of the</p>

Provider	Component(s)	Licensing Information
		<p>operating system on which the executable runs, unless that component itself accompanies the executable.</p> <p>If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.</p> <p>4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.</p> <p>5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or</p>

Provider	Component(s)	Licensing Information
		<p>distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.</p> <p>6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.</p> <p>7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not</p>

Provider	Component(s)	Licensing Information
		<p>excuse you from the conditions of this License. If you cannot</p> <p>distribute so as to satisfy simultaneously your obligations under this</p> <p>License and any other pertinent obligations, then as a consequence you</p> <p>may not distribute the Program at all. For example, if a patent</p> <p>license would not permit royalty-free redistribution of the Program by</p> <p>all those who receive copies directly or indirectly through you, then</p> <p>the only way you could satisfy both it and this License would be to</p> <p>refrain entirely from distribution of the Program.</p> <p>If any portion of this section is held invalid or unenforceable under</p> <p>any particular circumstance, the balance of the section is intended to</p> <p>apply and the section as a whole is intended to apply in other</p> <p>circumstances.</p> <p>It is not the purpose of this section to induce you to infringe any</p> <p>patents or other property right claims or to contest validity of any</p> <p>such claims; this section has the sole purpose of protecting the</p> <p>integrity of the free software distribution system, which is</p> <p>implemented by public license practices. Many people have made</p>

Provider	Component(s)	Licensing Information
		<p>generous contributions to the wide range of software distributed</p> <p>through that system in reliance on consistent application of that</p> <p>system; it is up to the author/donor to decide if he or she is willing</p> <p>to distribute software through any other system and a licensee cannot</p> <p>impose that choice.</p> <p>This section is intended to make thoroughly clear what is believed to</p> <p>be a consequence of the rest of this License.</p> <p>8. If the distribution and/or use of the Program is restricted in</p> <p>certain countries either by patents or by copyrighted interfaces, the</p> <p>original copyright holder who places the Program under this License</p> <p>may add an explicit geographical distribution limitation excluding</p> <p>those countries, so that distribution is permitted only in or among</p> <p>countries not thus excluded. In such case, this License incorporates</p> <p>the limitation as if written in the body of this License.</p> <p>9. The Free Software Foundation may publish revised and/or new versions</p> <p>of the General Public License from time to time. Such new versions will</p>

Provider	Component(s)	Licensing Information
		<p>be similar in spirit to the present version, but may differ in detail to</p> <p>address new problems or concerns.</p> <p>Each version is given a distinguishing version number. If the Program</p> <p>specifies a version number of this License which applies to it and "any</p> <p>later version", you have the option of following the terms and conditions</p> <p>either of that version or of any later version published by the Free</p> <p>Software Foundation. If the Program does not specify a version number of</p> <p>this License, you may choose any version ever published by the Free Software</p> <p>Foundation.</p> <p>10. If you wish to incorporate parts of the Program into other free</p> <p>programs whose distribution conditions are different, write to the author</p> <p>to ask for permission. For software which is copyrighted by the Free</p> <p>Software Foundation, write to the Free Software Foundation; we sometimes</p> <p>make exceptions for this. Our decision will be guided by the two goals</p> <p>of preserving the free status of all derivatives of our free software and</p> <p>of promoting the sharing and reuse of software generally.</p> <p style="text-align: center;">NO WARRANTY</p>

		<p>Free Software Foundation and other authors who decide to use it. You</p> <p>can use it too, but we suggest you first think carefully about whether</p> <p>this license or the ordinary General Public License is the better</p> <p>strategy to use in any particular case, based on the explanations below.</p> <p>When we speak of free software, we are referring to freedom of use,</p> <p>not price. Our General Public Licenses are designed to make sure that</p> <p>you have the freedom to distribute copies of free software (and charge</p> <p>for this service if you wish); that you receive source code or can get</p> <p>it if you want it; that you can change the software and use pieces of</p> <p>it in new free programs; and that you are informed that you can do</p> <p>these things.</p> <p>To protect your rights, we need to make restrictions that forbid</p> <p>distributors to deny you these rights or to ask you to surrender these</p> <p>rights. These restrictions translate to certain responsibilities for</p> <p>you if you distribute copies of the library or if you modify it.</p> <p>For example, if you distribute copies of the library, whether gratis</p>

Provider	Component(s)	Licensing Information
		<p>or for a fee, you must give the recipients all the rights that we gave</p> <p>you. You must make sure that they, too, receive or can get the source</p> <p>code. If you link other code with the library, you must provide</p> <p>complete object files to the recipients, so that they can relink them</p> <p>with the library after making changes to the library and recompiling</p> <p>it. And you must show them these terms so they know their rights.</p> <p>We protect your rights with a two-step method: (1) we copyright the</p> <p>library, and (2) we offer you this license, which gives you legal</p> <p>permission to copy, distribute and/or modify the library.</p> <p>To protect each distributor, we want to make it very clear that</p> <p>there is no warranty for the free library. Also, if the library is</p> <p>modified by someone else and passed on, the recipients should know</p> <p>that what they have is not the original version, so that the original</p> <p>author's reputation will not be affected by problems that might be</p> <p>introduced by others.</p>

Provider	Component(s)	Licensing Information
		<p>Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.</p> <p>Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.</p> <p>When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General</p>

Provider	Component(s)	Licensing Information
		<p>Public License permits more lax criteria for linking other code with the library.</p> <p>We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.</p> <p>For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.</p>

Provider	Component(s)	Licensing Information
		<p>In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.</p> <p>Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.</p> <p>The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.</p> <p style="text-align: right;">GNU LESSER GENERAL PUBLIC LICENSE</p>

		<p>TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION</p> <p>0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License").</p> <p>Each licensee is addressed as "you".</p> <p>A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.</p> <p>The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)</p>

Provider	Component(s)	Licensing Information
		<p>"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.</p> <p>Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.</p> <p>1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact</p>

You may modify your copy or copies of the Library or any portion</p> <p>of it, thus forming a work based on the Library, and copy and</p> <p>distribute such modifications or work under the terms of Section 1</p> <p>above, provided that you also meet all of these conditions:</p> <p>a) The modified work must itself be a software library.</p> <p>b) You must cause the files modified to carry prominent notices</p> <p>stating that you changed the files and the date of any change.</p> <p>c) You must cause the whole of the work to be licensed at no</p>

Therefore, Subsection 2d requires that any</p> <p>application-supplied function or table used by this function must</p> <p>be optional: if the application does not supply it, the square</p> <p>root function must still compute square roots.)</p> <p>These requirements apply to the modified work as a whole. If</p> <p>identifiable sections of that work are not derived from the Library,</p>

		<p>and can be reasonably considered independent and separate works in</p> <p>themselves, then this License, and its terms, do not apply to those</p> <p>sections when you distribute them as separate works. But when you</p> <p>distribute the same sections as part of a whole which is a work based</p> <p>on the Library, the distribution of the whole must be on the terms of</p> <p>this License, whose permissions for other licensees extend to the</p> <p>entire whole, and thus to each and every part regardless of who wrote</p> <p>it.</p> <p>Thus, it is not the intent of this section to claim rights or contest</p> <p>your rights to work written entirely by you; rather, the intent is to</p> <p>exercise the right to control the distribution of derivative or</p> <p>collective works based on the Library.</p> <p>In addition, mere aggregation of another work not based on the Library</p> <p>with the Library (or with a work based on the Library) on a volume of</p> <p>a storage or distribution medium does not bring the other work under</p> <p>the scope of this License.</p> <p>3. You may opt to apply the terms of the ordinary GNU General Public</p>

		<p>License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.</p> <p>Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.</p> <p>This option is useful when you wish to copy part of the code of the Library into a program that is not a library.</p> <p>4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which</p>

Provider	Component(s)	Licensing Information
		<p>must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.</p> <p>If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.</p> <p>5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.</p> <p>However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License.</p>

Provider	Component(s)	Licensing Information
		<p>Section 6 states terms for distribution of such executables.</p> <p>When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not.</p> <p>Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.</p> <p>If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)</p> <p>Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6.</p> <p>Any executables containing that work also fall under Section 6,</p>

		<p>whether or not they are linked directly with the Library itself.</p> <p>6. As an exception to the Sections above, you may also combine or</p> <p>link a "work that uses the Library" with the Library to produce a</p> <p>work containing portions of the Library, and distribute that work</p> <p>under terms of your choice, provided that the terms permit</p> <p>modification of the work for the customer's own use and reverse</p> <p>engineering for debugging such modifications.</p> <p>You must give prominent notice with each copy of the work that the</p> <p>Library is used in it and that the Library and its use are covered by</p> <p>this License. You must supply a copy of this License. If the work</p> <p>during execution displays copyright notices, you must include the</p> <p>copyright notice for the Library among them, as well as a reference</p> <p>directing the user to the copy of this License. Also, you must do one</p> <p>of these things:</p> <p>a) Accompany the work with the complete corresponding</p> <p>machine-readable source code for the Library including whatever</p>

		<p>changes were used in the work (which must be distributed under</p> <p>Sections 1 and 2 above); and, if the work is an executable linked</p> <p>with the Library, with the complete machine-readable "work that</p> <p>uses the Library", as object code and/or source code, so that the</p> <p>user can modify the Library and then relink to produce a modified</p> <p>executable containing the modified Library. (It is understood</p> <p>that the user who changes the contents of definitions files in the</p> <p>Library will not necessarily be able to recompile the application</p> <p>to use the modified definitions.)</p> <p>b) Use a suitable shared library mechanism for linking with the</p> <p>Library. A suitable mechanism is one that (1) uses at run time a</p> <p>copy of the library already present on the user's computer system,</p> <p>rather than copying library functions into the executable, and (2)</p> <p>will operate properly with a modified version of the library, if</p> <p>the user installs one, as long as the modified version is</p> <p>interface-compatible with the version that the work was made with.</p> <p>c) Accompany the work with a written offer, valid for at</p>

		<p>least three years, to give the same user the materials</p> <p>specified in Subsection 6a, above, for a charge no more</p> <p>than the cost of performing this distribution.</p> <p>d) If distribution of the work is made by offering access to copy</p> <p>from a designated place, offer equivalent access to copy the above</p> <p>specified materials from the same place.</p> <p>e) Verify that the user has already received a copy of these</p> <p>materials or that you have already sent this user a copy.</p> <p>For an executable, the required form of the "work that uses the</p> <p>Library" must include any data and utility programs needed for</p> <p>reproducing the executable from it. However, as a special exception,</p> <p>the materials to be distributed need not include anything that is</p> <p>normally distributed (in either source or binary form) with the major</p> <p>components (compiler, kernel, and so on) of the operating system on</p> <p>which the executable runs, unless that component itself accompanies</p> <p>the executable.</p>

Provider	Component(s)	Licensing Information
		<p>It may happen that this requirement contradicts the license</p> <p>restrictions of other proprietary libraries that do not normally</p> <p>accompany the operating system. Such a contradiction means you cannot</p> <p>use both them and the Library together in an executable that you</p> <p>distribute.</p> <p>7. You may place library facilities that are a work based on the</p> <p>Library side-by-side in a single library together with other library</p> <p>facilities not covered by this License, and distribute such a combined</p> <p>library, provided that the separate distribution of the work based on</p> <p>the Library and of the other library facilities is otherwise</p> <p>permitted, and provided that you do these two things:</p> <p>a) Accompany the combined library with a copy of the same work</p> <p>based on the Library, uncombined with any other library</p> <p>facilities. This must be distributed under the terms of the</p> <p>Sections above.</p> <p>b) Give prominent notice with the combined library of the fact</p>

Any</p> <p>attempt otherwise to copy, modify, sublicense, link with, or</p> <p>distribute the Library is void, and will automatically terminate your</p> <p>rights under this License. Therefore, by</p> <p>modifying or distributing the Library (or any work based on the</p> <p>Library), you indicate your acceptance of this License to do so, and</p> <p>all its terms and conditions for copying, distributing or modifying</p> <p>the Library or works based on it.</p>

The particular version of the Library with which the Combined Work was made is also called the "Linked Version".</p> <p>The "Minimal Corresponding Source" for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.</p> <p>The "Corresponding Application Code" for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.</p> <p>1. 		<p>51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA</p> <p>Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.</p> <p style="text-align: center;">Preamble</p> <p>The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.</p> <p>When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for</p>

		<p>this service if you wish), that you receive source code or can get it</p> <p>if you want it, that you can change the software or use pieces of it</p> <p>in new free programs; and that you know you can do these things.</p> <p>To protect your rights, we need to make restrictions that forbid</p> <p>anyone to deny you these rights or to ask you to surrender the rights.</p> <p>These restrictions translate to certain responsibilities for you if you</p> <p>distribute copies of the software, or if you modify it.</p> <p>For example, if you distribute copies of such a program, whether</p> <p>gratis or for a fee, you must give the recipients all the rights that</p> <p>you have. You must make sure that they, too, receive or can get the</p> <p>source code. And you must show them these terms so they know their</p> <p>rights.</p> <p>We protect your rights with two steps: (1) copyright the software, and</p> <p>(2) offer you this license which gives you legal permission to copy,</p> <p>distribute and/or modify the software.</p> <p>Also, for each author's protection and ours, we want to make certain</p>

		<p>that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.</p> <p>Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.</p> <p>The precise terms and conditions for copying, distribution and modification follow.</p> <p style="text-align: center;">GNU GENERAL PUBLIC LICENSE</p> <p style="text-align: center;">TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION</p> <p>0. The "Program", below,</p> <p>refers to any such program or work, and a "work based on the Program"</p> <p>means either the Program or any derivative work under copyright law:</p> <p>that is to say, a work containing the Program or a portion of it,</p> <p>either verbatim or with modifications and/or translated into another</p> <p>language. (Hereinafter, translation is included without limitation in</p> <p>the term "modification".) Each licensee is addressed as "you".</p> <p>Activities other than copying, distribution and modification are not</p> <p>covered by this License; they are outside its scope. The act of</p> <p>running the Program is not restricted, and the output from the Program</p> <p>is covered only if its contents constitute a work based on the</p> <p>Program (independent of having been made by running the Program).</p> <p>Whether that is true depends on what the Program does.</p> <p>1. You may copy and distribute verbatim copies of the Program's</p> <p>source code as you receive it, in any medium, provided that you</p> <p>conspicuously and appropriately publish on each copy an appropriate</p> <p>copyright notice and disclaimer of warranty; keep intact all the</p>

You may modify your copy or copies of the Program or any portion</p> <p>of it, thus forming a work based on the Program, and copy and</p> <p>distribute such modifications or work under the terms of Section 1</p> <p>above, provided that you also meet all of these conditions:</p> <p>a) You must cause the modified files to carry prominent notices</p> <p>stating that you changed the files and the date of any change.</p> <p>b) You must cause any work that you distribute or publish, that in</p> <p>whole or in part contains or is derived from the Program or any</p> <p>part thereof, to be licensed as a whole at no charge to all third</p> <p>parties under the terms of this License.</p>

But when you</p> <p>distribute the same sections as part of a whole which is a work based</p> <p>on the Program, the distribution of the whole must be on the terms of</p>

Provider	Component(s)	Licensing Information
		<p>this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.</p> <p>Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.</p> <p>In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.</p> <p>3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:</p> <p>a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,</p>

Provider	Component(s)	Licensing Information
		<p>b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,</p> <p>c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)</p> <p>The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a</p>

Provider	Component(s)	Licensing Information
		<p>special exception, the source code distributed need not include</p> <p>anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.</p> <p>If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.</p> <p>4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License.</p> <p>However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.</p>

		<p>5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.</p> <p>6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.</p> <p>7. If, as a consequence of a court judgment or allegation of patent</p>

Provider	Component(s)	Licensing Information
		<p>infringement or for any other reason (not limited to patent issues),</p> <p>conditions are imposed on you (whether by court order, agreement or</p> <p>otherwise) that contradict the conditions of this License, they do not</p> <p>excuse you from the conditions of this License. If you cannot</p> <p>distribute so as to satisfy simultaneously your obligations under this</p> <p>License and any other pertinent obligations, then as a consequence you</p> <p>may not distribute the Program at all. For example, if a patent</p> <p>license would not permit royalty-free redistribution of the Program by</p> <p>all those who receive copies directly or indirectly through you, then</p> <p>the only way you could satisfy both it and this License would be to</p> <p>refrain entirely from distribution of the Program.</p> <p>If any portion of this section is held invalid or unenforceable under</p> <p>any particular circumstance, the balance of the section is intended to</p> <p>apply and the section as a whole is intended to apply in other</p> <p>circumstances.</p> <p>It is not the purpose of this section to induce you to infringe any</p> <p>patents or other property right claims or to contest validity of any</p>

		<p>such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.</p> <p>This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.</p> <p>8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.</p>

Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.</p> <p>Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.</p> <p>10. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.</p> <p>"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.</p> <p>"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.</p> <p>"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.</p>

You may obtain a copy of the License at <http://www.apache.org/licenses/LICENSE-2.0>. A copy of the license is also reproduced below.

Apache License

Version 2.0, January 2004

<http://www.apache.org/licenses/TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION>

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

1. You must give any other recipients of the Work or Derivative Works a copy of this License; and
2. You must cause any modified files to carry prominent notices stating that You changed the files; and
3. You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
4. If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

Mobile Application Archive

ORACLE TRANSPORTATION MANAGEMENT

MOBILE ARCHIVE RESTRICTED USE

The Oracle Transportation Management Program and Oracle Transportation Management Cloud Service include a mobile application archive or library ("Mobile Archive") based on Oracle Mobile Application Framework Foundation. Your use of the Mobile Archive is limited to the following:

1. Insert your brand or logo where indicated (removing Oracle's brands, logos, and trademarks, if any, but not removing or modifying any Oracle copyright statements) in the Mobile Archive (except if you modify the Mobile Archive as set forth herein, append the word "Portions" before any Oracle copyright statement (as an example, "Portions Copyright © 2015, Oracle and/or its affiliates. All rights reserved.");
2. Modify the Mobile Archive as permitted by the "Oracle Mobile Application Framework Foundation" section below;
3. Compile, complete, and sign the Mobile Archive with your own mobile operating system-specific certificate(s), thereby creating a mobile application ("Mobile Application"); and
4. Distribute the Mobile Application only within your enterprise or entity to your internal users and/or to your third party end users ("End Users"). You may not distribute the Mobile Archive to your internal end users except to the extent necessary for the creation of the Mobile Application. You may not distribute the Mobile Archive to End Users.

With respect to your distribution of the Mobile Archive as included in a Mobile Application (a) you must abide by the terms and conditions in the Programs license agreement pertaining to separately licensed third party technology and the separate terms applying to such technology, and (b) these terms constitute your order under which you are permitted to distribute the Mobile Archive portion of the Programs. With respect to creating a Mobile Application, you acknowledge that you must separately agree to and abide by license terms with the applicable mobile operating system provider and possibly other third parties. For example, for iOS applications, you agree that the Mobile Application, in whole or in part, may not be installed on a mobile device or executed except as incorporated into an iOS application that has been signed using an appropriate Apple-issued certificate that you obtained directly from Apple and that is deployed in full compliance with your agreement with Oracle (including these terms) and license terms set forth in a separate agreement between you and Apple.

End User License Terms

Any Mobile Application distribution to End Users must be subject to a legally binding end user license agreement (the "EULA") between you and each End User pertaining to the Mobile Application that must, at a minimum, contain the following terms:

- (a) Include acknowledgements by you and the End User that the EULA is concluded between you and the End User only and that the following apply:
 - (i) you are solely responsible for each Mobile Application's content, maintenance, and support; and
 - (ii) you are solely responsible for addressing, settling, and discharging any claims of the End User or any third party relating to the Mobile Application or the End User's possession and/or use of that Mobile Application, including, but not limited to product liability claims; any claim that the Mobile

Application fails to conform to any applicable legal or regulatory requirement; any claims arising under consumer protection or similar legislation; and any claims that the End User's possession and use of that Mobile Application infringes a third party's intellectual property rights;

(b) Provide only a non-transferable, terminable license to the End User that prohibits (i) modifying or creating derivative works or (ii) decrypting, decompiling, reverse engineering, disassembling or attempting to derive the Mobile Application source code (unless such actions are expressly permitted by applicable law);

(c) Notify the End User that the Mobile Application is subject to a restricted license and can be used only in conjunction with the specific Oracle-based solution(s) for which it is designed;

(d) Provide no limitation of your liability to the End User beyond what is permitted by applicable law;

(e) Require the End User to comply fully with all relevant export laws and regulations of the U.S. and other applicable export and import laws to assure that the Mobile Application, nor any direct products thereof, is exported, directly or indirectly, in violation of applicable laws;

(f) State in the EULA your name and address to which any End User questions, complaints or claims with respect to the Mobile Application can be directed;

(g) State in the EULA that the End User must comply with applicable third-party terms when using the Mobile Application and that third-party components that may be appropriate or necessary for use with the Mobile Application are specified in the documentation for that program (or as otherwise notified by you) and that those third party components are licensed to the End User only for use with the Mobile Application under the terms of the third party license agreement specified in the documentation for that program (or as otherwise notified by you) and not under the terms of the EULA;

(h) State that the licenses provided in the EULA automatically terminate upon breach of the EULA terms and in addition that the licenses provided in the EULA may be terminated upon notice;

(i) State that upon termination of the EULA the End User must discontinue all use of the Mobile Application and to delete all copies of the Mobile Application;

(j) Disclaim in the EULA, to the extent permitted by applicable law, a third party's liability for (a) any damages, whether direct, indirect, incidental, special, punitive or consequential, and (b) any loss of profits, revenue, data or data use, arising from use of the Mobile Application;

(k) Designate Oracle as a third party beneficiary. Oracle will have the right to enforce the EULA against the End Users; and

(l) State that your licensors retain all ownership and intellectual property rights in the Mobile Application.

You agree to inform Oracle promptly if you are aware of any breach of the EULA. You agree to be financially responsible to Oracle for all damages or losses caused by your failure to include the required contractual terms set forth above in each EULA between you and an End User.

Oracle Mobile Application Framework Foundation

Oracle Mobile Application Framework Foundation ("MAF Foundation") is included as a restricted use component. The following tables describe the applicable MAF Foundation usage rights and restrictions. Table 2-1 below lists the MAF Foundation capabilities that may be used and what, if any, restrictions apply. Table 2-2 lists the MAF Foundation capabilities that may be not used. Any use of the capabilities described in Table 2 requires an appropriate quantity of full use licenses for (a) Oracle Mobile Application Framework, or (b) Oracle Mobile Suite and Oracle Mobile Suite Client Runtime.

MAF Foundation is the version of Oracle Mobile Application Framework that is restricted for use as described in this document. When MAF Foundation is included as a component within another Oracle product (the "Primary Product") then, depending on the particular Primary Product, MAF Foundation may be included in the Primary Product, may be separately downloaded from Oracle Software Delivery Cloud, or may be downloaded as an extension to Oracle JDeveloper. JDeveloper is a prerequisite to using MAF Foundation and must be downloaded from Oracle Technology Network ("OTN"); see <http://www.oracle.com/technetwork/developer-tools/jdev/downloads/index.html>). Notwithstanding any other terms, use of JDeveloper is subject to the OTN license agreement associated with JDeveloper; view the license agreement at <http://www.oracle.com/technetwork/licenses/jdev-license-152012.html>.

Definitions

"Application Archive" refers to the MAF Foundation mobile application archive, which is an Oracle proprietary mobile application deployment format that can only be used with Oracle supported development tools. It is not related to or based on any non-Oracle application archive format, including iOS application archives.

"Application Executable" refers to a mobile application executable installation file, such as an apk or ipa file.

"Application Workspace" refers to a series of files making up the source code of a mobile application developed using MAF Foundation.

"Data Control" refers to MAF Foundation mobile application artifacts that provides standard metadata interfaces to business services (such as web services) accessed by the mobile application.

"Feature" refers to specific MAF Foundation mobile application artifacts that are the building blocks of a mobile application, where each Feature integrated into the mobile application performs a specific set of tasks.

Table 2-1: Capabilities that may be used when MAF Foundation is included as a component within another Oracle product.

Capability	Description
Sign and deploy Application Archive or Application Workspace into an Application Executable	Sign the mobile application with the appropriate certificates, and deploy the Application Archive or Workspace into an Application Executable.
Make modifications to an Application Archive as specified, except as listed in Table 2 below	<p>The following modifications to Application Archives are allowed. For details of how to work with MAF Foundation Application Archives, consult the Mobile Application Framework Developer Guide.</p> <ul style="list-style-type: none"> • Deploy a browser-based Oracle mobile application into MAF Foundation to run as Remote URL Feature(s) • Access device-native services such as the notification framework or camera • Change branding details such as mobile application/navigation bar icons and skins • Modify business logic components and the user interface of the mobile application to align with your implemented business processes and configurations in the associated Oracle non-mobile application(s)

Capability	Description
Distribute Application Executable generated from Application Archive or Application Workspace	Distribute the Application Executable generated from an Application Archive to the extent permitted by, and in full compliance with, (a) the Oracle license terms associated with the Primary Product, and (b) any applicable third-party distribution terms and conditions required either by the mobile operating system provider or the application distribution platform provider (e.g., Apple Inc., Google, Inc.).
Manage the mobile application using mobile application management (MAM) solutions	Use MAM solutions with mobile applications generated from an Application Archive; for example, wrapping the mobile application binaries with the containers provided by the MAM solution.

Table 2-2: Capabilities that may not be used when MAF Foundation is included as a component within another Oracle product.

Capability	Description
Add a new Mobile Application Framework Feature	Add a new MAF Feature such as AMX or Local HTML-based Features, except when embedding a web-based Oracle Application as a Remote URL Feature (as addressed in Table 1 above).
Add a Remote URL Feature to Applications outside of App License Agreement	Add a Remote URL Feature pointing to any application or features that are not part of the Primary Product. For example, for an Application Archive shipped as part of the Oracle PeopleSoft application, add a Remote URL Feature pointing to Oracle Siebel CRM application or to third party applications.
Add a new MAF Data Control	Add a new Data Control to the MAF-based mobile Application Archive or Application Workspace. For example, a Web Service Data Control that exposes backend data services or a Bean Data Control that exposes custom Java code to the application's user interface.
