Document: Security Functional Specification

Reviewer: Binod
Review Date: 25/10/2007

Reference	Location	Review Comments	Author's response	Status
Medium-1	Section 2 of the doc.	It is not clear, what we are planning to do in R1 and what we are not.		
Minor-2	Section 3.1.1	Would the client create a new SipServletRequest or will it just add the auth header to the existing sipservlet request and resend it?		
Medium-3	Section 3.2.3	Wont JDBCDigestLogin Module be present by default in the login.conf		
Medium-4	Section 3.3	Do you really have to use WebPrincipal in sailfin code?		
Medium-5	Section 3.3	Cant DigestCredentials also be in "api" package?		
Minor-6	Section 3.4	I am assuming this section will be enhanced as per the latest discussions?		
Minor-7	Section 3.4.2	Can we explain TrustHandler a bit more?		
Medium-8	General	Are there CLI commands planned for trust configuration? Where will it be		

		documented?		
Minor-9	Editorial	Can you give a special font or something for distinguishing the java apis from the other parts?		

How to attach your review comments to the site:

1. Save your review document in doc format and append your name to the file.For ex, LB_smith
2. Click on the attachments link and upload this document
3. Once the doc is attached, edit the WIKI page to include this link by modifying the "Reviewer" column as follows: [LB_smith|LB_smith]
