Overview 1

Getting Started with the RODOD Reference Solution 1

New Features 1

Overview

The Oracle Communications Rapid Offer Design and Order Delivery (RODOD) Reference Solution is a set of concept-to-cash reference and sample materials. The RODOD Reference solution configures the licensed applications and validates key concept-to-cash business processes. The RODOD Reference solution is intended to speed up first-time installation and time-to-market for new projects. By defining a standard solution, the up-front configuration, cost, complexity, risk and overall time-to-market are reduced.

Getting Started with the RODOD Reference Solution

To prepare for and install the RODOD Reference Solution, follow the installation steps in the *RODOD Reference Solution Installation Guide*.

Also see the *RODOD Reference Solution User Guide*.

New Features

The following list provides high-level descriptions of features available with the RODOD Reference Solution:

- RODOD Application certification line-up:

Application	Version	Unattended Install
Siebel for Communications (Siebel CRM)	IP 19.11+	No
Oracle Communications Billing and Revenue Management (BRM)	12.0.0.2.0	No
Oracle Communications Pricing Design Center (PDC)	12.0.0.2.0	No
Oracle Application Integration Architecture (AIA) pre-built integrations on Oracle Fusion Middleware 12.2.1.4	12.2.1.0.0	No
Oracle Communications Order and Service Management (OSM) on Oracle Fusion Middleware 12.2.1.4	7.4.0.0.0	No
OSM Order-to-Activate Cartridges	2.1.2	No

- Links to Oracle University training and recordings to learn about RODOD solution, including recordings that demonstrate RODOD features and scenarios that can be exercised in your RODOD environment.

Note: Unattended installation is no longer supported. RODOD applications need to be separately installed. Refer to *RODOD Reference Solution Installation Guide* for post install configurations.
