JCC Consulting, Inc.

JCC Consulting, Inc.

For the redefined Forum, let us introduce ourselves.

- JCC has been doing consulting, training, research, and software development since 1984.
- JCC has often worked with Oracle, HP, and others to provide services.
- Rdb Engineering has often recommended JCC for customers with particularly challenging issues.
- Oracle recognizes JCC for training for Rdb.

Training Style

- We find it natural to couple technology transfer with everything that we do.
- We are also employing many other technologies and like to place Rdb within the complex context for complete system architectures that are impacting most shops, today.
- JCC labs provide immediate experience while information is fresh and guidance is present.
- JCC seminars invite questions and discussion. We can, and do, tailor seminars to meet specific needs.

What We Offer – Topics

- General database expertise
- Oracle Rdb
 - Database administration
 - Query Tuning
 - Physical DB Design
 - Internals
- Open VMS
- Workshops on our own tools
- Related products

and more...

What We Offer – Styles

- Prepared courses
 - Continually updated
 - <http://www.jcc.com/SeminarListings.htm>
- Complete immersion
 - By special request
 - Generally for experienced DBAs new to Rdb and VMS
- Tailored courses
 - Generally beginning with prepared materials
 - Sometimes using client's own test DBs and issues for labs
- Mentoring
 - Generally while addressing a consulting challenge

What We Offer – Venues

- Our training facility in Granville, Ohio
 - When enough interest is expressed, we choose a date.
 - Granville is a delightful, low-cost village.
- On sites
 - Client supplies the venue and lab space.
 - Provides opportunity for tailoring.
- At Forums
 - This year, the schedule permits very little.
- At sponsored events
 - Similar to on-sites
 - Additional participants beyond the client's personnel

Enrollment

- JCC will require the minimum number necessary to ensure a good seminar. The minimum required will depend upon the background of the participants and could be as low as three.
- JCC prefers to limit maximum enrollment to seven to ten to ensure beneficial interaction and discussion.

What We Do Not Do

- JCC does not offer a glossy brochure of offerings.
- JCC does not cancel seminars due to what others consider low enrollment.
- JCC does not expect you to share equipment.
- JCC does not cram seminars so full that you cannot have your questions answered.
- JCC does not have someone lead a seminar who does not have *extensive* experience with the issues discussed.

We ask YOU to work with us to provide the training that YOU need.

Your Input Needed

- On demand seminars
 - When sufficient interest is expressed, we schedule a special seminar and invite additional participation.
 - The DBA seminar in February is one.
- On-site seminars
 - JCC works with you to set time, place, and topic.
 - Can be combined with consulting and problem solving.

Specific Schedule

■ At Forums

- LogMiner Loader Workshop – one day – no fee
 - Sydney – Wednesday, September 16, 2009
 - Nashua – October 21, 2009
 - Europe, Spring 2010?
- Full length seminars – four to five days – usual fees
 - Rdb DBA Sydney – September 7-11, 2009

■ In Granville

- DBA – February 22 – 26, 2010
- Others as requested

■ On Sites – as requested

Schedule Summary

- That covers
 - September
 - October
 - February
- Planning now for the spring

JCC Seminar Facility

- Public offering seminars are, generally, held in Granville, Ohio, USA.
 - Easy air access attracts students from outside the US
 - Low cost hotels and diverse eating establishments
 - Excellent computing/lab facilities
 - Pleasant surroundings
 - However, seldom viewed as a “boondoggle.” ☺
- Public offering seminars have the advantage of including people with other backgrounds and questions.

On Sites

- If you have five people to train, an on-site is cost effective.
- On-sites can be tailored to your specific needs.
 - Want to train an Oracle DBA in Rdb?
 - Want to train a new hire in everything?
 - Want a refresher for an experienced team?
 - Having particular sorts of locking difficulties?
- On-sites are often coupled with other JCC support.
- On-sites can use (a copy of) YOUR database for labs in tuning and database administration.
- On-sites can provide an effective forum for discussion and resolution of YOUR specific issues.
- On-sites can meet YOUR schedule.

JCC Instructors

- JCC instructors
 - Are Rdb Practitioners.
 - Have Rdb experience since *before* Version 1.
 - Have practical experience doing Rdb *AND* teaching Rdb.
- Tuning and DBA course instructors
 - Have “hands on” experience at diverse sites with both “big” and “little” databases and, possibly, every blend of issues.
 - Have tuned databases to some of the most demanding criteria on the planet.
 - Are OpenVMS savvy.

What do we need from you?

- Two-stage registration
 - Tell us the topics you need.
 - Register when we get enough interest to offer an on-demand seminar.
 - Register **NOW** for the DBA seminar, Feb 22 – 26.
- Travel
- Assemble a group with similar needs
- Ideas

JCC Offices and a Seminar Group

Granville, Ohio
