## **Mixed Architecture RAC**

Gary Huffman  
Senior Development Manager

## What is MAR “Mixed Architecture RAC”

- Definition
  - Well, it is RAC on Alpha and Integrity
- Why
  - RAC is on Alpha
  - Rac is on Integrity
  - Customer ask us about it
  - Customers want it as a migration tool/environment
    - Migration flexibility to Integrity

## How do we determine that we can support it?

- Two tiers of QA
  - Standard QA regressions
    - Completed!
  - Destructive QA regressions
    - Vendor normally does this
      - We are doing it, and mastering the configuration requirements
    - In process today

## Release Plans

- Once approved
  - Limited availability for three months
  - General availability after that period
    - Verify that we have the process well documented
      - Someone other than our team can understand the installation instruction
- When
  - We hope soon, please watch for an Eblast to inform you of our progress
