

## **Oracle on OpenVMS, A Platform Update**

Gary Huffman  
Development Manager  
Oracle OpenVMS Engineering Group

# Agenda

## An Oracle Database on OpenVMS Update

- You have heard from Kevin
- Discuss how we are going to deliver 10.2.0.5.0
  - OpenVMS Porting Environment (VPE)
  - OpenVMS 8.4
    - Provides the latest OS available
    - Provides Soft Link support
    - Is this a problem?
      - Note: 10.2.0.2.0 & 10.2.0.4.0 is certified on OpenVMS 8.4
- Currently Supported Products
- Products in the Imminent Future

# OpenVMS Porting Environment (VPE)

- We are using OpenVMS sym-links to do our labeling and build
  - First time
- Long file names used natively
- NFS support sym-links and long file names
- A label and completed build
  - For 10.2.0.4.0 near 30 days
  - For 10.2.0.5.0 near 4 day

# Oracle OpenVMS Current Releases

- 10.1.0.5 Alpha
  - CPU patches continuing upon request
  - Targeted for Indefinite Support early 2012
- 10.2.0.4 Alpha and Integrity
  - Alpha & Integrity shipped together
  - New features
    - AUDIT\_FILE\_DESTINATION support
    - Improved Stat Pack Information
    - Multiple Database Write Processes (DBWR)
    - Database Vault
  - Will be in extended support though minimum of 1 CPU/PSU cycle after 10.2.0.5 is release on OpenVMS

# Oracle OpenVMS Current Releases(cont)

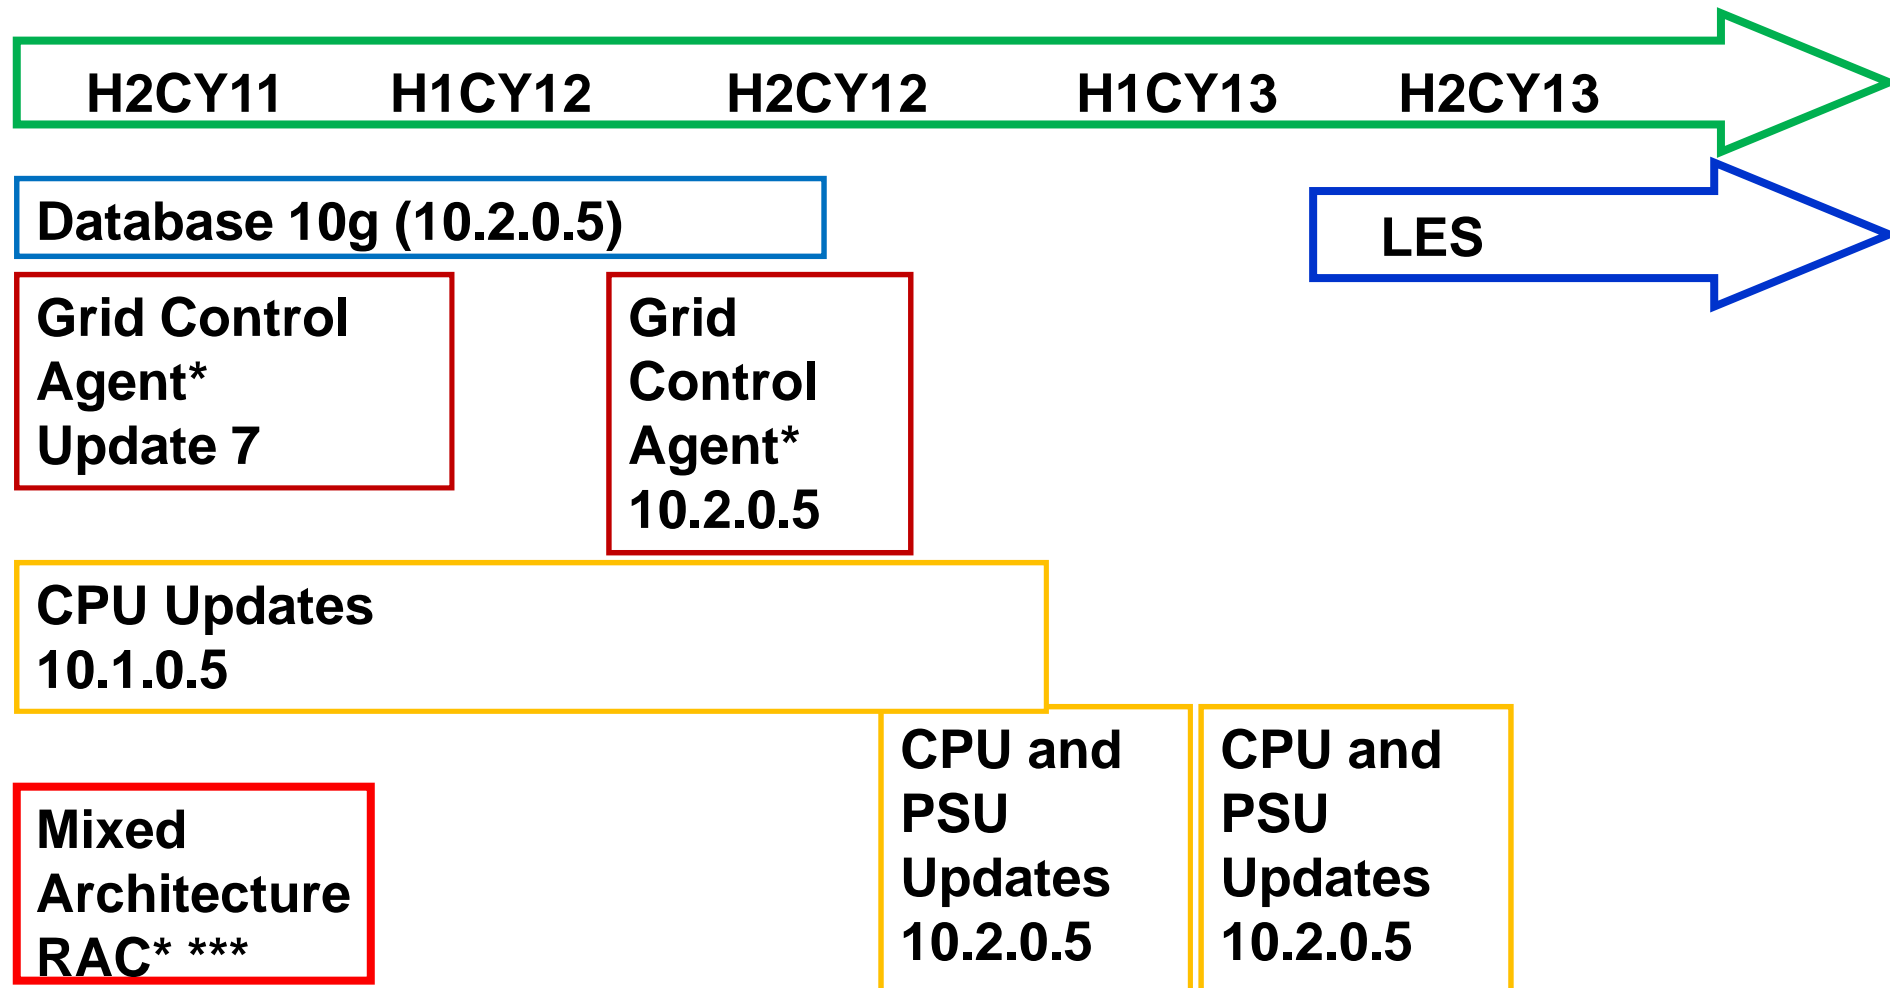

- Grid Control Agent
  - 10.2.0.2 GC Agent for Integrity and Alpha shipping
    - Patch kit 6 is the latest version
- Audit Vault Agent
  - 10.2.0.3.2 Audit Vault Agent for Integrity and Alpha
    - OpenVMS Oracle Database 10.2.0.4

# Projects in Development

- MAR (Mixed Architecture RAC)
  - Only available for 10.2 Alpha/Integrity
  - Contact [Kevin.Duffy@oracle.com](mailto:Kevin.Duffy@oracle.com) if interested
- Audit Vault Agent (10.2.3.2)
  - AV PSU in planning
- Grid Control Agent (10.2.0.2)
  - VMS Patch Kit 7 undergoing integration
- Grid Control Agent (10.2.0.5)
  - Terminal version for GC 10g
  - Will release shortly after 10.2.0.5.0 Database

# Oracle Database on OpenVMS Roadmap

## 10.2.0.5.0 in Planning

- Real Application Cluster
  - Addressing install issues
  - Provide Multi Architecture Support with release.
- Evaluating the option of supplying DB Console
  - Do you think this would be useful?
- Updated Data Vault
- Any features you wish to inquire about?
