EXPLORE AUSTRALIA

The Last 15 years

Origin

- Sheet maps → Book based maps
- Market leader

Technology changes

- Autodesk™ AutoCAD
- Reduced production times
- 900 DWG files

EXPLORE AUSTRALIA

Effect & Labour

Maintenance & storage

- Serviced needs for 10 years
- Quality products

Limitations

- Reliance on CAD environment
- Same edits 3 to 4 times over
- Limited feature intelligence & metadata

No longer cost or time effective

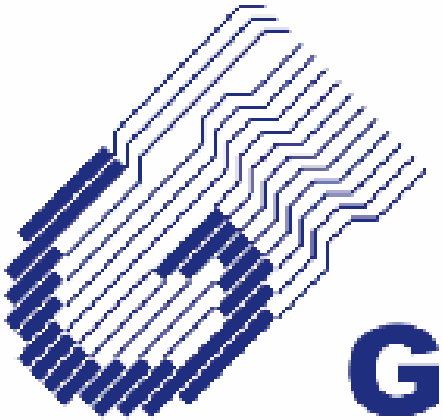
and



Geomatic Technologies

Key Requirements

- Leverage off existing skills
- Automation, flexibility & maintain high cartographic standards
- Reduce maintenance & map rework
- Geo-spatial data store / accept updates
- Streamline map production / GIS

EXPLORE AUSTRALIA

Map Production Solution

- No commercial GIS addressed our needs
- Process driven data model
- Autodesk™ Map & Oracle™ Locator
- Targeted custom development
  - Automation & flexibility
- Generating quality product

EXPLORE AUSTRALIA

Geo-spatial BASE Data

- 1:250K Topographic Data
- Nationally consistent feature attributes

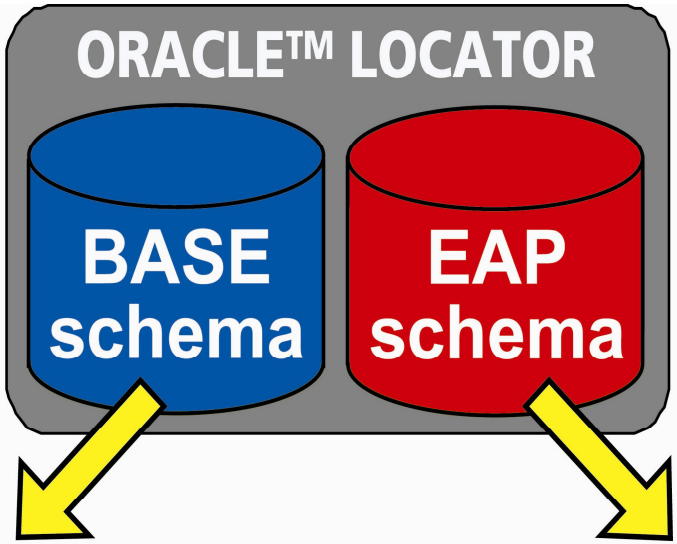
PSMA Australia LIMITED

- Topo Data at various scales
- Transport theme updated every 3 months
- One contact

EXPLORE AUSTRALIA

- Field-captured data
- GPS waypoints and track files

Geographic Feature Storage



* Original unformatted
* Intelligent data
* Third party
* Field captured
* Customized & flexible

* Cartographically formatted
* Publication specific info stored
* Data can be used to recreate a map

Data collection along the bitumen

EXPLORE AUSTRALIA

Data collection in the Outback

EXPLORE AUSTRALIA

Benefits to the Business

- Minimal CAD learning curve
- Expanded skill base
- Years of researched data migrated into new system
- Decrease in data maintenance / increase in value adding capabilities
- Reduced production times

EXPLORE AUSTRALIA

Opportunities

- Now able to make a wider variety of maps - faster
- Facilitates working with external parties
- Increase in revenue
