

**Oracle<sup>®</sup> Integrated Store Operations  
Installation Guide  
Release 11.0.2  
January 2006**

Copyright © 2006, Oracle. All rights reserved.

The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software—Restricted Rights (June 1987). Oracle Corporation, 500 Oracle Parkway, Redwood City, CA 94065

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

Oracle, JD Edwards, PeopleSoft, ProfitLogic and Retek are registered trademarks of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.

### Customer Support

- <https://metalink.oracle.com>

When contacting Customer Support, please provide:

- Product version and program/module name.
- Functional and technical description of the problem (include business impact).
- Detailed step-by-step instructions to recreate.
- Exact error message received.
- Screen shots of each step you take.

---

# Begin Installation

## Server Installation Instructions

Before you install the ISO 11.0.2 patch software:

1. Make a complete backup of your entire database and source code.
2. Read through this entire document and the associated documentation. Many of the scripts referenced will require that you make modifications to be compatible with your environment.
3. Note whether any customizations have been made to the module. If there are any, the customizations must be reapplied over the new version of the module or the fix may need to be applied to the custom version of the code.
4. ISO 11.0.2 is a cumulative patch that should be applied on top of the ISO 11.0.1 release.
5. There are two components to installing this patch, each detailed below:
  - Client Install
  - Server Install
6. To install this ISO patch:  
Shut down your server and any clients that might be connected to it.

## Review All Documentation

Before installing, review the following key documents that are included with this patch:

- ISO 11.0.2 Patch Release Notes: iso-1102-rn.doc.

## Unpack Compressed Files

1. Log in to the ISO UNIX server as retek.
2. Create a staging directory on your server:  
`%mkdir <ISO_STAGING_AREA>`
3. In binary mode, FTP the file iso1102\_install.zip to <ISO\_STAGING\_AREA>
4. Change directory to the <ISO\_STAGING\_AREA>.
5. Uncompress and extract the iso1102\_install.zip file in the staging area by typing:  
`%unzip iso1102_install.zip`  
The following directory structure(s) will exist under the <ISO\_STAGING\_AREA>:  
`<ISO_STAGING_AREA> /serverUnix.zip`  
`/clientWindows.zip`  
`/developer.zip`

---

## ISO Modification Instructions

### Update ISO Client

1. Copy the clientWindows.zip to ISO\_INSTALL\_DIR/client<Platform>
2. Unzip clientWindows.zip in this directory - the patch will update the necessary files by overwriting them with newer versions.
3. Review any files in the /classes/retek folder. 'Hot fixes' released as individual class files by support that are included in the current patch should be removed.

### Update ISO Server

1. Copy the serverUnix.zip to ISO\_INSTALL\_DIR/server<Platform>
2. Unzip serverUnix.zip in this directory - the patch will update the necessary files by overwriting them with newer versions.
3. The following two files, located at ISO\_INSTALL\_DIR/server<Platform>/retек/sim/files/prod/config, will need to be updated
  - dao.cfg
  - jdbc.cfg
4. Change directories to ISO\_INSTALL\_DIR/1102/dbcs. Open a SQLPlus session as the ISO database user. Run the following script:
  - patch1102dbcs.sql
5. Change directories to ISO\_INSTALL\_DIR/server<Platform>/1102/db\_objects.
6. Open a SQLPlus session as the ISO database user. Run the following script:
  - patch1102iso.sql
7. Change directories to ISO\_INSTALL\_DIR/server<Platform>/1102/utility.
8. Open a SQLPlus session as the ISO database user. Run the following script:
  - inv\_obj\_comp.sql
9. Review any previously applied 'Hot fixes' in the /classes/retek folder. 'Hot fixes' are released as individual class files by support. If these are included in the current patch, these class files should now be removed.
10. To upgrade help files pick the correct zip file from <ISO\_STAGING\_AREA> and unzip in  
ISO\_INSTALL\_DIR/server<Platform>/retек/sim/prod/OnlineHelp/WebHelp or  
ISO\_INSTALL\_DIR/server<Platform>/retек/sim/prod/OnlineHelp/WebHelp-FR
11. After all components of the patch have been installed, restart the ISO application server.
