

Oracle® Retail Invoice Matching

Release Notes

Release 12.0.9.1

January 2009

This document contains information on issues that have been addressed and resolved in Oracle Retail Invoice Matching (ReIM) since ReIM 12.0.9. Oracle is making this hot fix patch available because some customers do not want to wait for the quarterly patch to apply and test individual defect fixes. Because this release falls outside of the regular patchset cycle, code fixes may be released, but separate documentation and translation files may be delayed.

Please note that, while this release has been through testing appropriate for a hot fix, it has not been subjected to the regression testing requirements which are part of a general patch set release. These fixes will be included and regression-tested as part of the next general patch set release.

Note: This hot fix also includes a replacement Data Model document; see "[Documentation Correction](#)."

Contents of the .ZIP File

The .ZIP file contains the following:

- This Release Notes document
- *Oracle Retail Invoice Matching Data Model* for Release 12.0.9.1 (see "[Documentation Correction](#)")
- Defect reports for all of the defects summarized in "[Defect Fixes in this Hot Fix](#)"
- DEFECT MODULE XREF ReIM12.0.9.1.XLS, which lists the fixed defects and associated source files and versions
- Source code modified in this hot fix patch

Applying Source Code

Before applying the ReIM 12.0.9.1 hot fix, be sure that ReIM 12.0 and all patches through ReIM 12.0.9 have been applied.

Before applying the patch source files over your code:

- Note whether any modules have been customized. If so, the customizations must be reapplied to the new version of the module, or the fix may need to be applied to the custom version of the code.
- Copy the original files to a different directory before you copy over them, in case you need to refer to them at a later date.

Defect Fixes and Documentation

A defect fix is a modification to the base Oracle Retail code (for example, a bug fix, a performance enhancement, or a functional enhancement). Each defect fix that is included in this patch has a corresponding defect report titled *<defect-number>.PDF* (for example, 1234567.PDF).

In the same folder, the file named DEFECT MODULE XREF ReIM12.0.9.1.XLS lists every defect number and the modules and scripts that are included in the patch. Review each defect report carefully before this patch is implemented. Please note that scripts do not preserve data. Make sure that all data is backed up before you run any script.

Defect Fixes in this Hot Fix

The following defect fixes and enhancements are included in the ReIM 12.0.9.1 hot fix. See the cross-reference spreadsheet and defect reports for full details.

Defect Number	Summary
7362102	PARTNER OBLIGATION INVOICES ARE NOT GETTING LOADED BY REIMEDIINVUPLOAD.
7387629	ITEM LEVEL DETAILS ARE NOT DISPLAYED IN THE INVOICE MAINTENANCE DETAIL SCREEN.
7388560	Deal invoices in REIM (same deals / different billing periods) is rejected in im_ap_stage.
7414575	When resolving an EDI invoice that has been rejected to the table for invalid location, the user cannot correct it using the carton location (warehouse or store) for cross-dock orders.
7438474	The Automatch service batch runs 5 hours into the process and has not completed.
7447861	The Automatch service fails with java.sql.SQLException: ORA-01795: maximum number of expressions in a list is 1000.
7449525	When there are three or more invoices in the purchase order group and only one invoice is a perfect match, Automatch updates the invoice that is perfect match to URMTCH status, instead of POSTED.
7449904	The staging tables IM_RECEIPT_ITEM_POSTING_STAGE and IM_RCPT_ITEM_POSTING_INV_STAGE are not purged even when IM_DOC_HEAD is purged.
7490831	When an attempt is made to resolve discrepancies for an unresolved invoice, ReIM presents a "Lock expired" error.
7496791	When a posted debit memo is reversed into a credit memo, its status is updated to Approved, and therefore the posting batch will repost the debit memo to financial staging tables.
7517238	THE AUTOMATCH SERVICE FAILS WITH THE ERROR "THE TERMS RANKING HAS NOT BEEN SET."
7524355	In the Cost Review Detail screen, the invoice item is listed but the Orig. Order Cost and Current Order Cost fields are blank, and the order field on the Cost Selection screen is blank.
7538003	UNABLE TO RESOLVE THE INVOICE.
7541115	AUTOMATCH BATCH HAS PERFORMANCE ISSUES AND IT DOES NOT FINISH.

Defect Number	Summary
7562069	RESOLUTION POSTING GIVES EXCEPTION MAXIMUM NUM OF EXPRESSIONS IN A LIST IS 1000.

Defect Number	Summary
7662031	RTV DOESNT GET POSTED CORRECTLY.
7662044	LOCATION LOV DOESN'T CONTAIN STORE FOR A X-DOC PO.
7668238	ALL LOCATION BELONGS TO A CROSS DOCK ARE NOT SHOWN IN THE SUMMARY MATCH SCREEN.

Documentation Correction

The ReIM 12.0.9.1 hot fix includes an updated Data Model document. Because of a serious error in the document published for ReIM Release 12.0.9, the *Oracle Retail Invoice Matching Data Model* for Release 12.0.9.1 completely replaces the version published with ReIM 12.0.9.

Related Documentation

For more information, see the following documents in the Oracle Retail Invoice Matching Release 12.0.9.1 documentation set:

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

(i) the software component known as **ACUMATE** developed and licensed by Lucent Technologies Inc. of Murray Hill, New Jersey, to Oracle and imbedded in the Oracle Retail Predictive Application Server - Enterprise Engine, Oracle Retail Category Management, Oracle Retail Item Planning, Oracle Retail Merchandise Financial Planning, Oracle Retail Advanced Inventory Planning, Oracle Retail Demand Forecasting, Oracle Retail Regular Price Optimization, Oracle Retail Size Profile Optimization, Oracle Retail Replenishment Optimization applications.

(ii) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.

(iii) the **SeeBeyond** component developed and licensed by Sun Microsystems, Inc. (Sun) of Santa Clara, California, to Oracle and imbedded in the Oracle Retail Integration Bus application.

(iv) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.

(v) the software component known as **Crystal Enterprise Professional and/or Crystal Reports Professional** licensed by SAP and imbedded in Oracle Retail Store Inventory Management.

(vi) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.

(vii) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

(viii) the software component known as **Style Report™** developed and licensed by InetSoft Technology Corp. of Piscataway, New Jersey, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.

(ix) the software component known as **DataBeacon™** developed and licensed by Cognos Incorporated of Ottawa, Ontario, Canada, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
