This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this software or related documentation is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, duplication, disclosure, modification, and adaptation shall be subject to the restrictions and license terms set forth in the applicable Government contract, and, to the extent applicable by the terms of the Government contract, the additional rights set forth in FAR 52.227-19, Commercial Computer Software License (December 2007). Oracle USA, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

This software is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications which may create a risk of personal injury. If you use this software in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure the safe use of this software. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software in dangerous applications.

Oracle is a registered trademark of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.

This software and documentation may provide access to or information on content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services.

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

- (i) the software component known as **ACUMATE** developed and licensed by Lucent Technologies Inc. of Murray Hill, New Jersey, to Oracle and imbedded in the Oracle Retail Predictive Application Server – Enterprise Engine, Oracle Retail Category Management, Oracle Retail Item Planning, Oracle Retail Merchandise Financial Planning, Oracle Retail Advanced Inventory Planning, Oracle Retail Demand Forecasting, Oracle Retail Regular Price Optimization, Oracle Retail Size Profile Optimization, Oracle Retail Replenishment Optimization applications.
- (ii) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (iii) the **SeeBeyond** component developed and licensed by Sun Microsystems, Inc. (Sun) of Santa Clara, California, to Oracle and imbedded in the Oracle Retail Integration Bus application.
- (iv) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
- (v) the software component known as **Crystal Enterprise Professional and/or Crystal Reports Professional** licensed by SAP and imbedded in Oracle Retail Store Inventory Management.
- (vi) the software component known as **Access Via**TM licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (vii) the software component known as **Adobe Flex**TM licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.
- (viii) the software component known as **Style Report**TM developed and licensed by InetSoft Technology Corp. of Piscataway, New Jersey, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.
- (ix) the software component known as **DataBeacon**TM developed and licensed by Cognos Incorporated of Ottawa, Ontario, Canada, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, “alteration” refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle’s licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.

Send Us Your Comments

Oracle Retail Sales Audit, User Guide, Release 12.0.11

Oracle welcomes customers' comments and suggestions on the quality and usefulness of this document.

Your feedback is important, and helps us to best meet your needs as a user of our products. For example:

- Are the implementation steps correct and complete?
- Did you understand the context of the procedures?
- Did you find any errors in the information?
- Does the structure of the information help you with your tasks?
- Do you need different information or graphics? If so, where, and in what format?
- Are the examples correct? Do you need more examples?

If you find any errors or have any other suggestions for improvement, then please tell us your name, the name of the company who has licensed our products, the title and part number of the documentation and the chapter, section, and page number (if available).

Note: Before sending us your comments, you might like to check that you have the latest version of the document and if any concerns are already addressed. To do this, access the new Applications Release Online Documentation CD available on My Oracle Support and www.oracle.com. It contains the most current Documentation Library plus all documents revised or released recently.

Send your comments to us using the electronic mail address: retail-doc_us@oracle.com

Please give your name, address, electronic mail address, and telephone number (optional).

If you need assistance with Oracle software, then please contact your support representative or Oracle Support Services.

If you require training or instruction in using Oracle software, then please contact your Oracle local office and inquire about our Oracle University offerings. A list of Oracle offices is available on our Web site at www.oracle.com.

Preface

The Oracle Retail Sales Audit User Guide describes the application user interface and how to navigate through it.

Audience

This document is intended for the users and administrators of Oracle Retail Sales Audit. This may include merchandisers, buyers, and business analysts.

Related Documents

For more information, see the following documents in the Oracle Retail Sales Audit Release 12.0.11 documentation set:

- Oracle Retail Merchandising System Release Notes
- Oracle Retail Merchandising System Installation Guide
- Oracle Retail Merchandising System Operations Guide – Volume 1
- Oracle Retail Merchandising System Operations Guide – Volume 2
- Oracle Retail Merchandising System Operations Guide – Volume 3

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL:
<https://support.oracle.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Review Patch Documentation

When you install the application for the first time, you install either a base release (for example, 12.0) or a later patch release (for example, 12.0.1). If you are installing the base release and additional patch and bundled hot fix releases, read the documentation for all releases that have occurred since the base release before you begin installation. Documentation for patch and bundled hot fix releases can contain critical information related to the base release, as well as information about code changes since the base release.

Oracle Retail Documentation on the Oracle Technology Network

Documentation is packaged with each Oracle Retail product release. Oracle Retail product documentation is also available on the following Web site:

http://www.oracle.com/technology/documentation/oracle_retail.html

(Data Model documents are not available through Oracle Technology Network. These documents are packaged with released code, or you can obtain them through My Oracle Support.)

Documentation should be available on this Web site within a month after a product release.

Conventions

Navigate: This is a navigate statement. It tells you how to get to the start of the procedure and ends with a screen shot of the starting point and the statement “the Window Name window opens.”

This is a code sample

It is used to display examples of code.

System Variables

System variables overview

Users gain the most value from software when the system is optimized to meet their needs. The system variables module provides a means of maintaining the relatively static information about a retailer's business.

Business process

After you have added the sales audit maintenance information, you can define the information above as appropriate for your company. The systems variable module allows to set up the following information for Sales Audit:

- **System options:** System validation methods, including escheatment, voucher options, and information related to the automated clearing house.
- **Error code definitions:** Error codes that will appear, and where in Sales Audit that you can fix them.
- **References:** References that you may attach to a transaction in order to better explain what occurred.
- **Field level access:** Allows you to define the fields a user may access.

Reports

There are no reports pertaining to system administration.

System administration

The topics discussed in this module pertain to system administration.

Add an error code

Navigate: From the main menu, select Action > Sales Audit > Control > System > Error Code Maintenance > Edit. The Error Definition window opens.

Error Definition (saerrcd)

☒ Escheat to Governmental Authorities

Retailer Details for Income Adjustment

Partner Type:

Partner:

Sales Audit System Options Window

1. In the Escheatment Indicator area, select the Escheat to Governmental Authorities check box.
2. In the Retailer Details for Income Adjustment area:
 - a. In the Partner Type field, enter the ID of the partner type that escheats the money to the state or country, or click the LOV  button and select a partner.
 - b. In the Partner field, enter the ID of the partner, or click the LOV  button and select a partner.
 - c. Click **Escheatment**. The Escheatment window opens.

Escheatment Window

- d. Click **Add**. The apply area is enabled.
3. Select Country or State in the Escheat To field.
 - If you selected country, in the Country field, enter the country code, or click the LOV  buttons to select the country.
 - If you selected state, in the Country and State fields, enter the country and state codes, or click the LOV  buttons to select them.
4. Select the appropriate escheatment check boxes.
5. Click **OK** to save your changes and close the window.

Add field level access by role

Navigate: From the main menu, select Action > Sales Audit > Control > System > Field Level Access > Edit. The Field Level Access window opens.

The screenshot shows the 'Field Level Access' window for the 'safldacs' system. It contains a table with columns: Role, Field, Description, Display, Enable, and System Required. The first row is highlighted in blue, showing 'CASHIER' for Role, 'BOS' for Field, and 'Balance Level Over/Short Value' for Description. Below the table, there are input fields for Role (CASHIER) and Field (BOS), and a text field for the Description (Balance Level Over/Short Value). To the right of these fields are three checkboxes: Display (checked), Enable (unchecked), and System Required (unchecked). At the bottom right are buttons for Apply, Delete Role, and Delete Field. At the bottom center are buttons for OK, Add Role, Add Field, and Cancel.

Role	Field	Description	Display	Enable	System Required
CASHIER	BOS	Balance Level Over/Short Value	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
CASHIER	EHO	Error List HQ Override	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
CASHIER	ESO	Error List Store Override	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
CASHIER	MH	Misc. HQ Reported	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
CASHIER	MS	Misc. Store Reported	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
CASHIER	OSA	O/S Actual O/S Value	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
CASHIER	OSH	O/S HQ Reported	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
CASHIER	OSS	O/S Store Reported	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
CASHIER	OST	O/S Trial O/S Value	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Role: CASHIER
Field: BOS
Description: Balance Level Over/Short Value

☒ Display
☐ Enable
☐ System Required

Buttons: OK, Add Role, Add Field, Cancel, Apply, Delete Role, Delete Field

Field Level Access Window

Add a role to the system

1. Click **Add Role** to enable the apply block.
2. In the Role field, enter a role ID, or click the LOV  button and select a role.
3. To display the role, select the Display check box.
4. To enable the role, select the Enable check box.
5. Click **Apply**.
6. Click **OK** to save your changes and close the window.

Add a field to the role

1. Select the role from the table.
2. Click **Add Field**.
3. In the Field field, enter a field name, or click the LOV  button and select the field.
4. To display the field, select the Display check box.
5. To enable the field, select the Enable check box.
6. Click **Apply**.
7. Click **OK** to save your changes and close the window.

Add reference codes

Navigate: From the main menu, select Action > Sales Audit > Control > System > Reference Maintenance > Edit. The Reference Maintenance window opens.

The screenshot shows the 'Reference Maintenance' window with the following table:

Tran. Type	Sub-Tran. Type	Reason Code	Ref. No.	Ref. Label Description
Daily Store Conditions			1	Weather
Daily Store Conditions			2	Temperature
Daily Store Conditions			3	Traffic
Daily Store Conditions			4	Construction
Even Exchange	Employee		3	Employee No.
Even Exchange			1	Receipt Indicator
Meter Reading for Fuel			1	Reading Type
Meter Reading for Fuel			5	Open Meter Reading
Meter Reading for Fuel			6	Close Meter Reading
Meter Reading for Fuel			7	Open Meter Value
Meter Reading for Fuel			8	Close Meter Value

Below the table are input fields for adding a new reference:

- Tran. Type:
- Sub-Tran. Type:
- Reason Code:
- Ref. No.:
- Ref. Label:  Weather

Buttons at the bottom:

Reference Maintenance Window

1. Click **Add** to enable the apply area.
2. In the Type field, select a transaction type.
3. In the Sub-Tran Type field, select a sub-transaction type.
4. In the Reason Code field, select a reason code.
5. In the No field, select a reference number.
6. In the Ref Label field, enter a reference label, or click the LOV  button and select a reference label.
7. Click **Apply**. The reference information is added to the table.
8. Click **OK** to save your changes and close the window.

Add voucher options

Navigate: From the main menu, select Action > Sales Audit > Control > System > System Options. The Sales Audit System Options window opens.

Click **Vouch Opts**. The Voucher Options window opens.

The screenshot shows a window titled "Voucher Options" with a subtitle "(sasysopt)". It contains a table with four columns: "Tender Type", "Tender Type Desc", "Escheat No. Days", and "Purge No. Days". The first four rows are populated with data, and the rest are empty. Below the table are four buttons: "OK", "Add", "Delete", and "Cancel".

Tender Type	Tender Type Desc	Escheat No. Days	Purge No. Days
4000	Credit Voucher		30
4010	Manual Credit		30
4020	Manual Imprint		30
4030	Gift Certificate		30

Voucher Options Window

1. Click **Add**.
2. On the highlighted line, enter the tender type ID number, or click the LOV  button and select the tender type.
3. In the Escheat No Days field, enter the desired number of escheatment days.
4. In the Purge No Days field, enter the number of days a voucher will be valid before it is purged from RMS.
5. Click **OK** to save your changes and close the window.

View error codes

Navigate: From the main menu, select Action > Sales Audit > Control > System > Error Code Maintenance > View. The Error Definition window opens.

The screenshot shows the 'Error Definition' window with the following data:

Error	Description	Recommended Solution	Form	Tab	Override		System Required

CLOSE_NO_TAX	Close Transactions should not have Ta	Delete the Tax record from this trans	Transaction Detail	Tax	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Below the table, there is a section for editing an error. It includes fields for Error (ADS_TEMP_RULE_ERROR1), Rec. Solution, Form (Transaction Detail), and Tab (Item). There are checkboxes for Store Override and HQ Override, and buttons for Apply, Delete, OK, Add, System Impact, and Cancel.

Error Definition Window

- Select an error code from the table.
- Click the **System Impact** button. The System Impact window opens.

System Impact Window

Note: If an error has no system impact, a message opens which states that there is no system impact to view for this error.

3. Click **OK** to close the window.

Sales Audit Maintenance

Sales audit maintenance overview

The sales audit maintenance module allows you to define the following information for Sales Audit:

- **Employee information:** Identify who the user is and what permissions they have in Sales Audit.
- **Company closings:** Indicate when the company is closed and create exceptions at the store level to the closing.
- **General ledger account maintenance:** Create accounts to which ReSA will report the results of the store day.

Business process

1. Add users to the system so that they may use ReSA. You may create two types of users store employees or headquarter (HQ) employees.
2. Indicate which dates the company is closed and why.
3. Select the stores that remain open when the company is closed and what functions for which the store is open.
4. Select the store and general ledger accounts associated with the store.
5. Define the levels that the accounts roll up to.

Reports

There are no reports pertaining sales audit maintenance.

System administration

There are no system administration functions pertaining to system administration.

Add a closing date for a company

Navigate: From the main menu, select Action > Sales Audit > Control > Setup > Company Closings > Edit. The Company Close window opens.

The screenshot shows a window titled "Company Close (cmpcls)". It contains a table with two columns: "Close Date" and "Close Description". The table has several rows, with the first three rows populated with data. The first row is highlighted in blue. Below the table are five buttons: "OK", "Add", "Delete", "Exceptions", and "Cancel".

Close Date	Close Description
04-JUL-01	Fourth of July
22-NOV-01	Thanksgiving
23-NOV-01	Friday After Thanksgiving

Company Close Window

1. Click **Add**. A blank row is highlighted.
2. In the Close Date field, enter a date, or click the calendar  button and select a date.
3. In the Close Description field, enter a reason for the close.

Add exceptions to a company close

1. Click **Exceptions**. The Location Exceptions window opens.

Location Exceptions (cmclexcp)

Close Date: 04-JUL-2001 Reason: Fourth of July

Location Exceptions Window

2. Click **Add** to enable the apply area.
3. In the Group Type field, select the type of group for which you are creating exceptions.
4. In the Type field, enter the ID of the group for which you are creating exceptions, or click the LOV button and select a group.
5. In the Open For area, select the types of activities the store is open for.
6. Click **Apply**. The information is added to the table.

Complete the company closing

1. Click **OK** to save the changes and close the windows.
2. You are prompted to confirm the new closing date and warned of any impact this change will have.
3. Click **Yes** to save the new close date.

Add a store employee record

Navigate: From the main menu, select Action > Sales Audit > Control > Setup > Employee Maintenance > New. The Employee Maintenance window opens.

A screenshot of the 'Employee Maintenance' window. The window has a title bar with the text 'Employee Maintenance (saempmnt)' and standard window controls. Below the title bar is a toolbar with icons for file operations and help. The main area contains several input fields: 'Employee' (a text box with a list icon), 'Employee Type' (a dropdown menu), three checkboxes for 'Manager', 'Cashier', and 'Salesperson', 'Name' (a text box), 'Phone' (a text box), 'E-mail' (a text box with a speech bubble icon), and 'Oracle User-id' (a text box). At the bottom, there are four buttons: 'Store Emp. Detail', 'HQ Emp. Detail', 'OK', and 'Cancel'. The 'OK' button is highlighted with a blue border.

Employee Maintenance Window

1. In the Employee field, enter the employee's ID number and press the Enter key.
2. In the Employee Type field, select Store.
3. Select the Manager check box, or the Cashier and/or Salesperson check boxes.
4. In the Name field, enter the employee's name.
5. Enter a phone number and email address.
6. In the Oracle User ID field, enter the Oracle user ID of the employee.
7. Click **Store Emp Detail**. The Store Employee Details window opens.

Store	Store Name	POS ID	Home Store
1000000014	Baltimore	12345	<input type="checkbox"/>
1000000024	Denver	12345	<input type="checkbox"/>
			<input type="checkbox"/>
			<input type="checkbox"/>
			<input type="checkbox"/>

Store Employee Details Window

- a. In the Store field, enter the store ID, or click the LOV  button and select the store.
 - b. In the POS ID field, enter the employee's point of sale ID.
 - c. Select the Home Store check box, to indicate the store is the employee's home store.
8. Click **OK** to save your changes and close the window.

Add a headquarters employee record

Navigate: From the main menu, select Action > Sales Audit > Control > Setup > Employee Maintenance > New. The Employee Maintenance window opens.

A screenshot of the 'Employee Maintenance' window. The title bar shows 'Employee Maintenance (saempmnt)'. The window contains several input fields: 'Employee' (text), 'Employee Type' (dropdown), 'Name' (text), 'Phone' (text), 'E-mail' (text), and 'Oracle User-id' (text). Below the 'Employee Type' dropdown are three checkboxes: 'Manager', 'Cashier', and 'Salesperson'. At the bottom are four buttons: 'Store Emp. Detail', 'HQ Emp. Detail', 'OK', and 'Cancel'. There are also 'OK+Repeat' and 'Delete' buttons between 'OK' and 'Cancel'.

Employee Maintenance Window

1. In the Employee field, enter the employee's ID number or name and press the Enter key.
2. In the Employee Type field, select Headquarters.
3. In the Name field, enter the employee's name.
4. Enter a phone number and email address.
5. In the Oracle User ID field, enter the employee's user ID.
6. Click **HQ Emp Detail**. The HQ Employee Details window opens.

HQ Employee Details Window

- a. In the Location Trait field, enter the location trait ID for the employee, or click the LOV  button and select the trait.
 - b. Click **Add** to assign additional location traits to this employee.
7. Click **OK** to save your changes and close the window.

Search for a general ledger total

Navigate: From the main menu, select Action > Sales Audit > Control > Setup > GL Account Maintenance. The General Ledger Search Form window opens.

General Ledger Search Form Window

1. In the Action menu, select either Edit or View.
2. Enter additional criteria as desired to make the search more restrictive.
3. Click **Search**. The window displays the totals that match the search criteria in a table.

Note: To view the GL Account Maintenance window, select a total and click **OK**.

4. Click **OK** to close the window.

View an employee record

Navigate: From the main menu, select Action > Sales Audit > Control > Setup > Employee Maintenance > View. The Employee Maintenance window opens.

Employee Maintenance Window

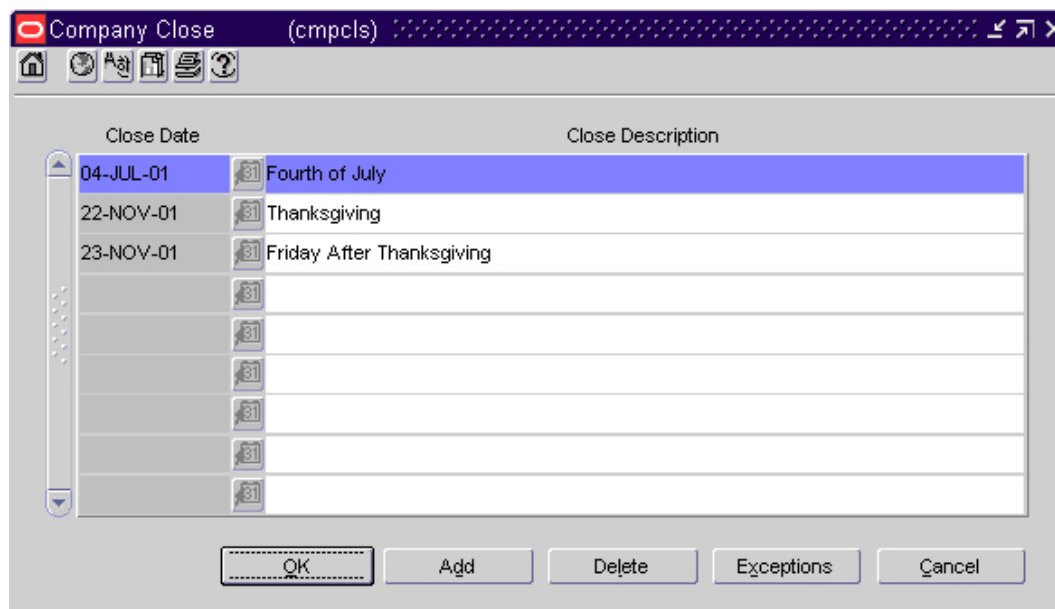

1. Click the Employee LOV  button and select the employee.
2. The selected employee information opens.

Note: Depending on the Employee Type, you can click either **Store Emp Detail**, or **HQ Emp Detail** to see the stores and location traits associated with the employee.

3. Click **OK** to close the window.

View closing dates for a company

Navigate: From the main menu, select Action > Sales Audit > Control > Setup > Company Closings > View. The Company Close window opens.

**Company Close Window**

1. Click the scroll arrows to see all of the company closing dates.
2. Click **OK** to close the window.

View the location exceptions to a company closing

1. Select a close date. Click the **Exceptions** button. The Location Exceptions window opens.

Rule Wizards

Create a totals calculation definition

Navigate: From the main menu, select Action > Sales Audit > Control > Totals Definition Maintenance. The Total Search window opens.

The screenshot shows a window titled "Total Search Window (satlfnd)". It contains several search criteria fields:

- Action: A dropdown menu.
- Total: A text field with a list icon and a help icon.
- Revision Number: A text field with a list icon.
- Status: A dropdown menu.
- Update ID: A text field with a list icon.
- Effective from: A date field with a calendar icon.
- Through: A date field with a calendar icon.
- Total Category: A dropdown menu.
- Total Type: A dropdown menu.
- Data Source: A dropdown menu.

At the bottom of the window are five buttons: OK, Search, Refresh, Back, and Close.

Total Search Window

4. In the Action menu, select New.
5. Click **OK**. The Total Calculation Definition Wizard window opens.

Total Calculation Definition Wizard Window

Define the totals calculation

6. In the Total field, enter the ID and description of the total definition.
7. In the Start Date and End Date fields, enter the dates the total definition is effective, or click the calendar  button and select dates.

Note: If you leave the End Date field blank, the total is calculated indefinitely.

8. Click **Next** to navigate through the wizard. Help for selected fields and buttons is displayed in the section on the right side of the screen.

Note: Select Raw Data or Existing Total on the Total Overview panel to indicate how the total will be defined. If you select Raw Data, you are creating a completely new rule. You need a thorough knowledge of the tables and columns in the database. If you select Existing Data, you are creating a sum of existing totals.

Review the totals calculation

1. If you need to make any changes to the definition, click **Back** to return to the appropriate area.
2. Click **Finish**. The Totals Definition is saved.

Submit a totals calculation definition for approval

Navigate: From the main menu, select Action > Sales Audit > Control > Totals Definition Maintenance. The Total Search window opens.

Search for and retrieve a totals definition in Edit mode. Restrict the search to total definitions in Worksheet status. The Total Calculation Definition Wizard window opens.

Total Calculation Definition Wizard Window

1. From the Options menu, select Status > Submit. You are prompted to confirm the submission.
2. Click **Yes**. The status is changed to Submitted.
3. Click **OK** to save your changes and close the window.

Approve a totals calculation definition

Navigate: From the main menu, select Action > Sales Audit > Control > Totals Definition Maintenance. The Total Search window opens.

Search for and retrieve a totals definition in Edit mode. Restrict the search to total definitions in Submitted status. The Totals Calculation Definition Maintenance window opens.

Totals Calculation Definition Maintenance Window

1. From the Options menu, select Status > Approve. You are prompted to confirm the approval.
2. Click **Yes**. The status is changed to Approved.
3. Click **OK** to save your changes and close the window.

Search for a totals calculation definition

Navigate: From the main menu, select Action > Sales Audit > Control > Totals Definition Maintenance. The Total Search window opens.

Total Search Window

1. In the Action menu, select either Edit or View.
2. Enter additional criteria as desired to make the search more restrictive.
3. Click **Search**. The totals that match the search criteria appear.
4. Click **OK** to close the window.

Enter total levels into a general ledger account

Navigate: From the main menu, select Action > Sales Audit > Control > Setup > GL Account Maintenance. The General Ledger Search Form window opens.

Search for and retrieve a general ledger total in New mode. The GL Account Maintenance window opens.

GL Account Maintenance Window

1. In the Total field, enter a total ID, or click the LOV  button and select a total.
2. In the Store field, enter a store ID, or click the LOV  button and select a store.
3. In the Roll-Up Level fields, enter rollup levels 1, 2 and 3.
4. In the Debit CCID field, enter a debit code, or click the LOV  button and select the code.
5. In the Credit CCID field, enter a credit code, or click the LOV  button and select the code.
6. Click **OK** to save your changes and close the window.

View location trait details for a totals definition

Navigate: From the main menu, select Action > Sales Audit > Control > Totals Definition Maintenance. The Total Search window opens.

Search for and retrieve the totals calculation definition in Edit mode. The Total Calculation Definition Wizard window opens.

OK

Display Group Details Window

3. Click **OK** to close the window.

Create an audit rule calculation definition

Navigate: From the main menu, select Action > Sales Audit > Control > Audit Rule Maintenance. The Audit Rule Search window opens.

Audit Rule Search Window

1. From the Action menu, select New to set up a new audit rule definition in the wizard.
2. Click **OK**. The Rules Calculation Definition Wizard window opens.

Rules Calculation Definition Wizard Window

Define the audit rules

1. In the Rule field, enter the ID and description of the total definition.
2. In the Start Date and End Date fields, enter the dates the total definition is effective, or click the calendar  button and select dates.

Note: If you leave the End Date field blank, the total is calculated indefinitely.

3. Click **Next** to navigate through the wizard. Help for selected fields and buttons is displayed in the section on the right side of the screen.

Review the audit rules

1. If you need to make any changes to the definition, click **Back** to return to the appropriate area.
2. Click **Finish**. The Totals Definition is saved.

Submit an audit rule calculation definition for approval

Navigate: From the main menu, select Action > Sales Audit > Control > Audit Rule Maintenance. The Audit Rule Search window opens.

Search for and retrieve an audit rule definition in Edit mode. Restrict the search to audit rule definitions in Worksheet status. The Rules Calculation Definition Wizard window opens.

Store/day Close Audit

Store day close audit overview

The store / day close audit module allows you access to all the stores that you must audit. The information opens at the store day level.

Business process

You can access the following windows, which allow you to audit the results of the sales audit processing.

- **Cashier Summary window:** Indicates which cashier processed a transaction, how many transactions were processed, the number of errors per cashier, and the amount the cashier was over or short by.
- **Error List window:** Displays all errors that ReSA has associated with the store / day.
- **Over / Short window:** Displays the stores that are bringing in more or less money than reported. This audit can be used to monitor theft, fraud or poor management in a store.

Reports

There are no reports pertaining to store / day close audits.

System Administration

There are no system administration functions pertaining to store / day close audits.

Search for a store/day

Navigate: From the main menu, select Action > Sales Audit > Store Close/Audit. The Store Day Find window opens.

Store Day Find Window

1. In the Action field, select either Edit or View.
2. The stores associated with your user ID appear.
3. To search for other locations, click **Refresh**.
4. Enter additional criteria as desired to make the search more restrictive.
5. Click **Search**. A list of selected stores opens by business date.
6. Click **Close** to close the window.

Create store/day reports

Navigate: From the main menu, select Action > Sales Audit > Store/Close Audit. The Store Day Find window opens.

Search for and retrieve a store in Edit mode. Select a store/day.

From the Options menu, select Store Day Summary. The Store Day Summary window opens.

Create a Flash Totals report

1. From the Options menu, select Reports > Flash Totals Report.
2. The Report Parameters web page opens.
3. In the Destination Type field, select where you want the finished report to be sent. Select Cache to view the report online.
4. If you are prompted for parameters to further define the report, enter the data in the appropriate fields.
5. Click **Submit Query**. The report is generated and sent to the destination that you selected.

Create a Flash Sales Prior Year Comparison report

1. From the Options menu, select Reports > Flash Sales Prior Year Comparison Report.
2. The Report Parameters web page opens.
3. In the Destination Type field, select where you want the finished report to be sent. Select Cache to view the report online.
4. If you are prompted for parameters to further define the report, enter the data in the appropriate fields.
5. Click **Submit Query**. The report is generated and sent to the destination that you selected.

Maintain a store/day

Navigate: From the main menu, select Action > Sales Audit > Store/Close Audit. The Store Day Find window opens.

Search for and retrieve a store in Edit mode. Select a store/day.

From the Options menu, select Store Day Summary. The Store Day Summary window opens.

Delete a store day

1. From the Options menu, select Delete Store Day.
2. You are prompted to confirm the deletion. Click **Yes**.

Change the data status

1. From the Options menu, select Manually Update Data Status > Set Partially Loaded. You may begin updating information related to the store/day.

OR

From the Options menu, select Manually Update Data Status > Set Fully Loaded. No additional transactions may be imported for the store/day.

2. You are prompted to approve the change in data status. Click **Yes**.
3. Click **OK** to close the window.

Change the audit status

1. To reset the audit status, from the Options menu, select Reset Audit Status.
2. To audit the store day, click **Total/Audit**.

Close a store day

Note: All outstanding store/day issues must be resolved before you can close the store.

3. Click **Close/Store**. You are prompted to confirm the close.
4. Click **Yes**.

Maintain the balancing level

Navigate: From the main menu, select Action > Sales Audit > Store/Close Audit. The Store Day Find window opens.

Search for and retrieve a store in Edit mode. Select a store/day.

From the Options List, select Cashier/Register Summary. The Balancing Level Summary window opens.

Change the balancing level query

1. From the Options menu, select Status.
2. Select the method by which you would like to search for the balancing level.
3. The balancing levels are recalculated and displayed on the table.

Search for balancing levels by a cashier/register ID

1. In the Cashier/Register field, enter a full or partial ID.
2. Click the filter  button. Matching results appear in the table.
3. Click **OK** to close the window.

Maintain the error list

Navigate: From the main menu, select Action > Sales Audit > Store/Close Audit. The Store Day Find window opens.

Search for and retrieve a store in Edit mode. Select a store/day that contains errors.

From the Options menu, select Error List. The Error List window opens.

1. Select the error from the list.
2. Select Store Override or HQ Override check box to override the error. The definition of each error indicates whether it can be overridden at the store level or at the headquarter level.

Note: The check box that is enabled will depend on your employee setup.

Fix an error

1. Select an error from the list.
2. Click **Fix Error**. The Transaction Detail window opens.
3. Correct the error.
4. Click **OK** to save your changes and close the window.

Change the error list query

1. From the Options menu, select Status.
2. Select the method by which you would like to search for the errors.
3. The errors are requeried and displayed on the table.

View additional store/day summary information

Navigate: From the main menu, select Action > Sales Audit > Store/Close Audit. The Store Day Find window opens.

Search for and retrieve a store. Select a store/day.

From the Options menu, select Store Day Summary. The Store Day Summary window opens.

View missing transactions

1. From the Options menu, select Missing Transactions. The Missing Transactions Summary window opens.
2. Click **OK** to close the window.

View the import/export log

1. From the Options menu, select Import/Export Log. The Store Day Import and Export Log window opens.
2. Click on the Import Log tab. The Import Log opens.
3. Click on the Export Log tab. The Export Log opens.
4. Click **OK** to close the window.

View additional miscellaneous totals information

Navigate: From the main menu, select Action > Sales Audit > Store/Close Audit. The Store Day Find window opens.

Search for and retrieve a store/day in View mode.

From the Options menu, select Store Day Summary, Cashier/Register Summary, or Error List.

From the Options menu, select Miscellaneous Totals. The Miscellaneous Totals window opens.

View totals export information

1. From the Options menu, select Exports. The Totals Export window appears.
2. Click **OK** to close the window.

View the combined totals detail

1. Select a record.
2. Click **Comb Total Detail**. The Combined Total Detail window opens.
3. Click **OK** to close the window.

View audit trail information

1. From the Options menu, select Audit Trail. The Sales Audit Totals Audit Trail window appears.
2. Click **OK** to close the window.

View additional over/short totals information

Navigate: From the main menu, select Action > Sales Audit > Store/Close Audit. The Store Day Find window opens.

Search for and retrieve a store/day in View mode.

From the Options menu, select Store Day Summary, Cashier/Register Summary, or Error List.

From the Options menu, select Over/Short Totals. The Over/Short window opens.

View totals export information

1. From the Options menu, select Exports.
 - **Select Accounted For:** The Totals Export window appears.
 - **Select Accountable For:** The Totals Export window appears.
2. Click **OK** to close the window.

View audit trail information

1. From the Options menu, select Audit Trail.
 - **Select Accounted For:** The Sales Audit Totals Audit Trail window appears.
 - **Select Accountable For:** The Sales Audit Totals Audit Trail window appears.
2. Click **OK** to close the window.

View the details of the totals

1. Select a record.
2. Click **Details**. The Combined Total Detail window opens.
3. Click **OK** to close the window.

Audit Trail

Audit trail overview

The Audit Trail module allows you to view changes made to the store/day and gives you an overview of item and tender transactions that occurred for a store/day.

Audit trails allow you to view the revisions made to a transaction or a total. Summaries allow you to view the transactions that occurred on a store/day.

Business process

After modifying the information for a store/day, you may view the information through audit trails or summaries. After you view the summaries, you may return to the Transaction Maintenance area to update any outstanding issues you may have found while reviewing the store/day.

Reports

There are no reports directly associated with transaction audit trail or sales audit totals functionality in Sales Audit.

System administration

There are no system administrative functions directly related to transaction audit trail or sales audit totals functionality in Sales Audit.

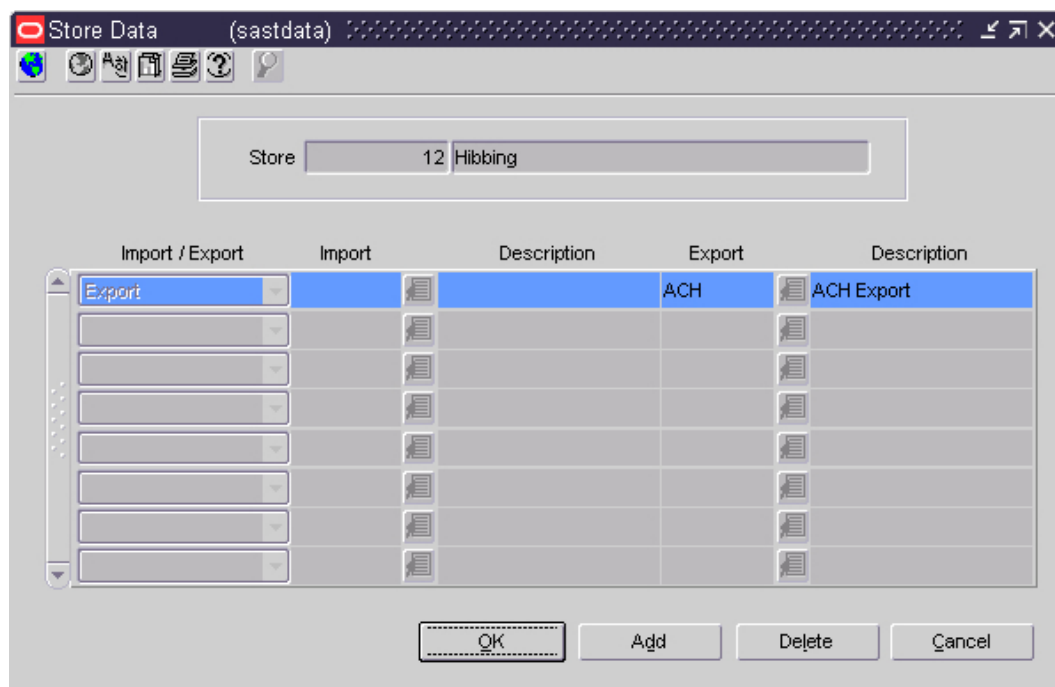

Maintain an import/export data file for a store

Navigate: From the main menu, select Action > Organizational Hierarchy. The Organizational Hierarchy main window opens.

Select Store on the tree structure. The stores appear in the table.

Select a store and click **Edit**. The Store Maintenance window opens.

From the Options menu, select Store Data. The Store Data window opens.

Store Data Window

Add an import/export data file for a store

1. Click **Add**.
2. From the Import/Export field, select either Import or Export.
 - **If you selected Import:** In the Import field, enter an import ID, or click the LOV  button and select an import.
 - **If you selected Export:** In the Export field, enter an export ID, or click the LOV  button and select an export.
3. Click **OK** to save your changes and close the window.

Delete an import/export data file for a store

1. Select the data to be deleted.
2. Click **Delete**. You are prompted to delete the record.
3. Click **Yes**.
4. Click **OK** to save your changes and close the window.

Search for a totals audit trail

Navigate: From the main menu, select Action > Sales Audit > Additional Operations > Audit Trail > Totals Audit Trail. The Totals Audit Trail Find window opens.

Totals Audit Trail Find Window

1. In the Chain field, enter the chain number, or click the LOV  button and select a chain.

Note: If a default chain was specified in the System Options window, a default chain will be displayed in the Chain field.

2. Enter additional criteria to make the search more restrictive.
3. Click **Search**. The Totals Audit Trail Find window opens.
4. Select a total.
5. Click **OK** to close the window.

Note: You can also access the Sales Audit Totals Audit Trail window via the Options menu on the Over/Short and Miscellaneous Totals window.

Search for a transaction audit trail

Navigate: From the main menu, select Action > Sales Audit > Additional Operations > Audit Trail > Transaction Audit Trail. The Transaction Audit Trail Find window opens.

Transaction Audit Trail Find Window

1. In the Chain field, enter the ID of the chain, or click the LOV  button and select the chain.

Note: If a default chain was specified in the System Options window, a default chain will be displayed in the Chain field.

2. Enter additional search criteria as desired to make the search more restrictive.
3. Click **Search**. The Transaction Audit Trail Find window displays the transaction records that match the search criteria in a table.

Note: You can sort the transactions by transaction number or by transaction date and time by clicking the sort buttons.

4. Select a transaction.
5. Click **OK** to close the window.

Search for an item summary

Navigate: From the RMS main menu, select Action > Sales Audit > Additional Operations > Summary > Item Summary > Edit. The Sales Audit Item Summary window opens.

ACH Maintenance

Automated clearing house maintenance overview

The automated clearing house (ACH) maintenance modules allows you to declare and manage how much money has been deposited in local bank accounts. ACH maintenance allows HQ users to manage how money moves from local bank accounts to centralized bank accounts.

Business process

In the ACH maintenance module you can:

- Enter the estimated deposit for store/day
- Find the rolling average of the last 4 weeks
- Change the current day's total and the previous day's adjustments.

Reports

There are no reports pertaining to automated clearing house.

System administration

There are no system administration functions pertaining to automated clearing house.

Create a bank/store relationship

Navigate: From the main menu, select Control > Partner. The Partner Find window is displayed.

Search for and retrieve a bank partner in Edit mode. The Partner Maintenance window opens.

From the Options menu, select Stores. The Bank/Store Relationship window opens.

Bank Store Relationship (sabnkstr)

Edit a store ACH transaction amount

Navigate: From the main menu, select Action > Sales Audit > Additional Operations > ACH Maintenance > Store ACH Maintenance > Edit. The Store ACH Maintenance window opens.

The screenshot shows the 'Store ACH Maintenance' window with the following data in the table:

Store	Name	Business Day	Bank	Description	Next Day Manual Deposit Adjustment	Next Day Estimated Deposit	Today Estimated Deposit Adjustment	Currency (Local)
1000000014	Baltimore	09-MAR-2001	1	TJR Bank	1.00			USD

Below the table, the input fields are populated with the data from the first row:

- Store: 1000000014, Name: Baltimore
- Bank: 1, Description: TJR Bank
- Currency (Local): USD
- Business Day: 09-MAR-2001
- Next Day Manual Deposit Adjustment: 1.00
- Next Day Estimated Deposit: (empty)
- Today Estimated Deposit Adjustment: (empty)

Buttons at the bottom include OK, Add, Bank Details, and Cancel.

Store ACH Maintenance Window

Note: To change the sort order by store, business day, or bank, click **Store**, **Business Day**, or **Bank**.

1. In the Next Day Manual Deposit Adjustment field, enter a new amount.
2. Click **Apply**.
3. Click **OK** to save your changes and close the window.

View bank ACH transactions

Navigate: From the main menu, select Action > Sales Audit > Additional Operations > ACH Maintenance > Bank ACH Maintenance > View. The Bank ACH Maintenance window opens.

The screenshot shows a window titled "Bank ACH Maintenance (sabnkach)". At the top, there are input fields for "Bank", "Bank Acct. No.", and "Business Day", each followed by a filter icon. Below these is a table with the following columns: "Bank", "Bank Description", "Bank Acct. No.", "Business Day", "Next Day Manual ACH Adj.", "Next Day ACH Amount", and "Currency (Partner)". The table contains one row with the following data: "1", "TJR Bank", "234234", "09-MAR-01", "45.00", "", and "USD". Below the table, there are input fields for "Bank" (containing "1"), "Bank Acct. No." (containing "234234"), "Next Day Manual ACH Adj." (containing "45.00"), "Business Day" (containing "09-MAR-01"), and "Currency (Partner)" (containing "USD"). There are also buttons for "Apply", "Delete", "OK", "Add", "Store Details", and "Cancel".

Bank ACH Maintenance Window

Note: To change the sort order by store, business day, or bank, click **Store**, **Business Day**, or **Bank**.

2. Click **OK** to close the window.

Transaction Maintenance

Transaction maintenance overview

The transaction maintenance module allows you to investigate and correct errors in the POS transactions. You can review the transactions that were flagged by the Automated Audit process.

The corporate auditor must review any errors that were not correctable and were overridden by the store. The auditor can choose to correct or override each error. For errors that are overridden, Sales Audit will set the Store/Day Audit status to Audited. The Store/Day Audit is then available for export to external systems.

Transactions may have many types of errors, which are reviewed and corrected manually. In addition, it is also possible to review and edit the data from missing transactions or transactions that have passed the Automated Audit. Invalid or missing transactions may be deleted from the system. Corrected transactions are exported to external systems by a batch program.

Business process

You can use interactive audit to:

- Correct transaction errors and edit data of individual transactions.
- Investigate and correct missing transactions by store or balancing level.
- Delete transactions that meet certain criteria.

The usual process flow for auditing is as follows:

1. At the end of the day, transactions are transmitted from the store to the head office.
2. The transmitted transactions are loaded to the database, totaled, audited, and then reviewed.
3. Any errors that are generated as part of the validation process must be either corrected or overridden by both the store employee performing the review and by a corporate auditor.
4. Reviewed data can only be viewed by the corporate auditor, until it is closed.
5. When the store employee has completed the correction process, the store/day status to Closed.
6. Once the store/day status has been changed to Closed, the data is editable by the corporate auditor, but only viewable by the store employee.
7. The data is exported.

Reports

- **Sales Audit Voucher Details:** Displays voucher information for given business day and voucher type (credit voucher, manual credit, manual imprint, gift certificate).
- **Sales Audit Flash Sales:** Displays Flash sales information.
- **Sales Audit Credit Card Summary:** Displays credit card transaction information for given card type and business day. Store and date range are optional parameters that can limit the query further.

- **Sales Audit Flash Totals:** Overview of the sales totals for a given business day, at the store level.

System administration

There are no system administration functions specifically related to interactive auditing.

Search for a sales audit transaction

Navigate: From the main menu, select Action > Sales Audit > Additional Operations > Transaction Maintenance. The Transaction Find window opens.

Transaction Find Window

1. In the Action field, select View, Edit, or Post Void.
2. Enter additional search criteria as desired to make the search more restrictive.
3. Click **Search**. The transactions that match the search criteria appear.
4. Select a task:
5. To perform another search, click **Refresh**.
6. To view or edit transaction details, select a record and click **OK**. The Transaction Detail window opens.
7. Click **Close** to close the window.

Create a sales audit transaction

Navigate: From the RMS main menu select Action > Sales Audit > Additional Operation > Transaction Maintenance. The Transaction Find window opens.

Transaction Detail Window

3. In the Chain field, enter a chain number, or click the LOV button and select a chain.
4. In the Business Day field, enter a date, or click the calendar button and select a date.
5. In the Tran Date/Time field, enter the date and time the transaction occurred.
6. In the POS Tran Number field, enter the point of sale ID where the transaction occurred.
7. In the Tran Type field, enter the type of transaction you are creating.

Note: Depending on the type of transaction you select, additional fields may be enabled. Enter the appropriate information in the enabled fields.

8. Add any of the following details to the transaction as needed:
 - Add items to a transaction
 - Add a discount to the item on a transaction
 - Add tender records to a transaction
 - Add tax information to a transaction
 - Add customer information to a transaction
 - Edit employee information on a transaction
 - Add paid out details to a transaction
9. Click **OK** to save your changes and close the window.

Add additional information to an item on a transaction

Navigate: From the main menu, select Action > Sales Audit > Additional Operations > Transaction Maintenance. The Transaction Find window is displayed.

Search for and retrieve a transaction in Edit mode. The Transaction Detail window opens.

The screenshot shows the 'Transaction Detail' window with the following fields:

- ReSA Tran. No.: 16041018
- Chain: 1000 The Marketplace
- POS Tran. No.: 60
- Status: Present
- Business Day: 06-MAR-2001
- Tran. Type: Even Exchange
- Balance: 0.00
- Store: 1000000014 Baltimore
- Sub-Tran. Type:
- Value: 0.00
- Tran. Date/Time: 06-MAR-2001 14:30:00
- Reason Code:
- Transaction Uploaded from POS?: ☐
- Transaction Reference Info Exists: ☐
- Currency: USD

Below the fields is a tabbed interface with the following tabs: Items, Tender, Tax, Customer, Exported, Employees, Paid Out Details. The 'Items' tab is selected, showing a table of items:

Item Type	Item	Description	Unit Retail	Selling UOM	Qty.	Item Status	Total Discount	Total Retail	Price Override? Disc. Ref.
