The Programs (which include both the software and documentation) contain proprietary information; they are provided under a license agreement containing restrictions on use and disclosure and are also protected by copyright, patent, and other intellectual and industrial property laws. Reverse engineering, disassembly, or decompilation of the Programs, except to the extent required to obtain interoperability with other independently created software or as specified by law, is prohibited.

The information contained in this document is subject to change without notice. If you find any problems in the documentation, please report them to us in writing. This document is not warranted to be error-free. Except as may be expressly permitted in your license agreement for these Programs, no part of these Programs may be reproduced or transmitted in any form or by any means, electronic or mechanical, for any purpose.

If the Programs are delivered to the United States Government or anyone licensing or using the Programs on behalf of the United States Government, the following notice is applicable:

U.S. GOVERNMENT RIGHTS Programs, software, databases, and related documentation and technical data delivered to U.S. Government customers are "commercial computer software" or "commercial technical data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the Programs, including documentation and technical data, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement, and, to the extent applicable, the additional rights set forth in FAR 52.227-19, Commercial Computer Software—Restricted Rights (June 1987). Oracle Corporation, 500 Oracle Parkway, Redwood City, CA 94065

The Programs are not intended for use in any nuclear, aviation, mass transit, medical, or other inherently dangerous applications. It shall be the licensee's responsibility to take all appropriate fail-safe, backup, redundancy and other measures to ensure the safe use of such applications if the Programs are used for such purposes, and we disclaim liability for any damages caused by such use of the Programs.

Oracle, JD Edwards, PeopleSoft, and Siebel are registered trademarks of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.

The Programs may provide links to Web sites and access to content, products, and services from third parties. Oracle is not responsible for the availability of, or any content provided on, third-party Web sites. You bear all risks associated with the use of such content. If you choose to purchase any products or services from a third party, the relationship is directly between you and the third party. Oracle is not responsible for: (a) the quality of third-party products or services; or (b) fulfilling any of the terms of the agreement with the third party, including delivery of products or services and warranty obligations related to purchased products or services. Oracle is not responsible for any loss or damage of any sort that you may incur from dealing with any third party.

Value-Added Reseller (VAR) Language

- (i) the software component known as **ACUMATE** developed and licensed by Lucent Technologies Inc. of Murray Hill, New Jersey, to Oracle and imbedded in the Oracle Retail Predictive Application Server – Enterprise Engine, Oracle Retail Category Management, Oracle Retail Item Planning, Oracle Retail Merchandise Financial Planning, Oracle Retail Advanced Inventory Planning and Oracle Retail Demand Forecasting applications.
- (ii) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (iii) the **SeeBeyond** component developed and licensed by Sun Microsystems, Inc. (Sun) of Santa Clara, California, to Oracle and imbedded in the Oracle Retail Integration Bus application.
- (iv) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Store Inventory Management.
- (v) the software component known as **Crystal Enterprise Professional and/or Crystal Reports Professional** licensed by Business Objects Software Limited (“Business Objects”) and imbedded in Oracle Retail Store Inventory Management.
- (vi) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (vii) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.
- (viii) the software component known as **Style Report™** developed and licensed by InetSoft Technology Corp. of Piscataway, New Jersey, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.
- (ix) the software component known as **i-net Crystal-Clear™** developed and licensed by I-NET Software Inc. of Berlin, Germany, to Oracle and imbedded in the Oracle Retail Central Office and Oracle Retail Back Office applications.
- (x) the software component known as **WebLogic™** developed and licensed by BEA Systems, Inc. of San Jose, California, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.
- (xi) the software component known as **DataBeacon™** developed and licensed by Cognos Incorporated of Ottawa, Ontario, Canada, to Oracle and imbedded in the Oracle Retail Value Chain Collaboration application.

Preface

The Oracle Retail Trade Management User Guide describes the application user interface and how to navigate through it.

Audience

This document is intended for the users and administrators of Oracle Retail Trade Management. This may include merchandisers, buyers, and business analysts.

Related Documents

For more information, see the following documents in the Oracle Retail Trade Management Release 13.0 documentation set:

- Oracle Retail Merchandising System Release Notes

Customer Support

<https://metalink.oracle.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to re-create
- Exact error message received
- Screen shots of each step you take

Review Patch Documentation

For a base release (".0" release, such as 13.0), Oracle Retail strongly recommends that you read all patch documentation before you begin installation procedures. Patch documentation can contain critical information related to the base release, based on new information and code changes that have been made since the base release.

Oracle Retail Documentation on the Oracle Technology Network

In addition to being packaged with each product release (on the base or patch level), all Oracle Retail documentation is available on the following Web site:

http://www.oracle.com/technology/documentation/oracle_retail.html

Documentation should be available on this Web site within a month after a product release. Note that documentation is always available with the packaged code on the release date.

Conventions

Navigate: This is a navigate statement. It tells you how to get to the start of the procedure and ends with a screen shot of the starting point and the statement “the Window Name window opens.”

Note: This is a note. It is used to call out information that is important, but not necessarily part of the procedure.

This is a code sample
It is used to display examples of code

Harmonized tariff schedules

Maintain Harmonized Tariff Schedule

The harmonized tariff schedule for an import country can be stored and accessed online. It provides the tariff rates and statistical categories for imported merchandise. By means of an HTS batch program, the data can be updated as new tapes are released by the customs agencies. The data can also be maintained manually.

You can maintain the following information in the HTS module:

- HTS headings
- Heading restraints
- Quota categories
- HTS classifications

Generally, HTS classifications are updated from tapes received from the customs agency. These classifications can be updated manually.

You can associate the HTS classifications and assessments with items or items on purchase orders.

HTS Details Window [itemhts]

The HTS Details window allows you to view the details of an HTS classification that is associated with an item.

HTS Heading Maintenance Window [htshead]

The HTS Heading Maintenance window allows you to edit and view the headings of a harmonized tariff schedule.

Edit an HTS Heading

Navigate: From the main menu, select Control > Landed Cost > HTS Maintenance > HTS Heading Maintenance > Edit. The HTS Heading Maintenance window opens.

HTS Heading Maintenance Window

1. Edit the description as necessary.
2. To add an HTS heading:
 - a. Click **Add**. The next available line is enabled.
 - b. In the HTS Heading field, enter the number of the HTS heading.
 - c. In the Description field, enter the description of the HTS heading.
 - d. To enter additional comments, click the comments  button
3. To delete an HTS heading:
 - a. Select an HTS heading and click **Delete**.
 - b. When prompted to delete the record, click **Yes**.
4. Click **OK** to save your changes and close the window.

Harmonized Tariff Schedule Window [hts]

The Harmonized Tariff Schedule window allows you to create, edit, and view an HTS classification.

Delete an HTS Classification

Navigate: From the main menu, select Control > Landed Cost > HTS Maintenance > HTS. The HTS Selection window opens.

Search for and retrieve an HTS classification in Edit mode. The details appear in the Harmonized Tariff Schedule window.

Harmonized Tariff Schedule (hts)

Unit 3 UOM:

OK OK + Repeat Delete Cancel

Harmonized Tariff Schedule Window

1. Click **Delete**.
2. When prompted to delete the record, click **Yes**.
3. Click **OK** to save your changes and close the window.

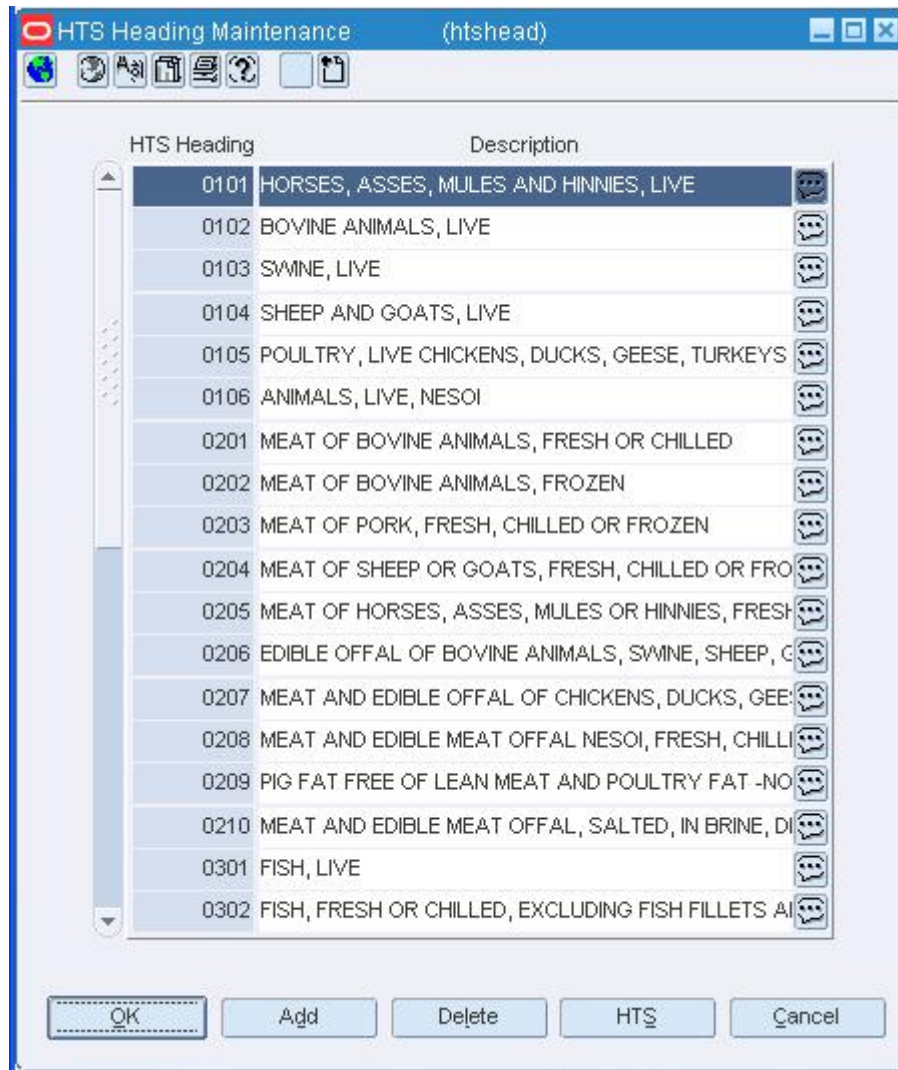

Edit a Restraint for an HTS Heading

Navigate: From the main menu, select Control > Landed Cost > HTS Maintenance > HTS Heading Maintenance > Edit. The HTS Heading Maintenance window opens.

Select an HTS heading. From the Options menu, select HTS Heading Restraints. The HTS Heading Restraints window opens.

[illegible]

HTS Heading Restraints Window

HTS Heading Maintenance window

1. In the Importing Country field, enter the code for the import country, or click the LOV  button and select the import country. The current restraints for the selected country appear.
2. Select a restraint.
3. In the Apply area, edit the enabled fields as necessary.
4. Click **Apply** to complete the edit.
5. To add a restraint:
 - a. Click **Add**. The fields in the Apply area are cleared.
 - b. Enter the details in the Apply area.
 - c. Click **Apply**. The restraint is added to the table.
6. To delete a restraint:
 - a. Select a restraint and click **Delete**.
 - b. When prompted to delete the record, click **Yes**.
7. Click **OK** to save your changes and close the window.

HTS Anti-Dumping Duties Window [htsad]

The HTS Anti-Dumping Duties window allows you to add and maintain the anti-dumping duties that are associated with an HTS classification.

HTS Heading Restraints Window [htscres]

The HTS Heading Restraints window allows you to edit and view the restraints applied at the heading level of the harmonized tariff schedule. The most common restraints are quota levels.

HTS Countervailing Duties Window [htscvd]

The HTS Countervailing Duties window allows you to add and maintain the countervailing duties that are associated with an HTS classification.

- Edit an HTS classification
- View an HTS classification

HTS Fee Window [htsfee]

The HTS Fee window allows you to add and maintain the fees that are associated with an HTS classification.

HTS Selection Window [htsfind]

The HTS Selection window allows you to enter criteria in order to search for harmonized tariff schedule (HTS) classifications and view the results of the search. It is also the starting point for creating, editing, or viewing an HTS classification.

Functional Views

The default view for the HTS Selection window opens when you open the window for the first time. You can also create a custom view.

HTS Other Government Agencies Window [htsoga]

The HTS Other Government Agencies window allows you to add and maintain the requirements from other government agencies that have jurisdiction over an HTS classification.

HTS Reference Window [htsref]

The HTS Reference window allows you to add and maintain user-defined references that are associated with an HTS classification.

HTS Tariff Treatment Window [htstar]

The HTS Tariff Treatment window allows you to add and maintain the tariff treatments that are associated with an HTS classification. In addition to maintaining the tariff treatment, you can indicate which origin countries are excluded from the tariff treatment.

Add a Tariff Treatment at the Item Level

Navigate: From the main menu, select Items > Items. The Item Search window is displayed.

Search for and retrieve an item in Edit mode. The Item Maintenance window opens.

Click on the Eligible Tariff Treatments option. The current tariff treatments appear in the Item Eligible Tariff Treatment window.

Item Eligible Tariff Treatment Window

1. Click **Add**. The next available line is enabled.
2. In the Tariff Treatment field, click the LOV  button and select the appropriate tariff treatment.
3. Click **OK** to save your changes and close the window.

Edit a Tariff Treatment at the Country Level

Navigate: From the main menu, select Control > Setup > Country > Edit. The Country Maintenance window opens. Select a country.

From the Options menu, select Tariff Treatments. The Country Tariff Treatment window opens.

[illegible]

Country Tariff Treatment Window

1. Edit the Effective To Date field as necessary.
2. To add a tariff treatment:
 - a. Click **Add**. The next available line is enabled.
 - b. In the Tariff Treatment field, enter the code the tariff treatment, or click the LOV  button and select the tariff.
 - c. In the Effective From Date field, enter the date on which the tariff treatment becomes effective, or click the calendar  button and select the date.
 - d. In the Effective To Date field, enter the date on which the tariff treatment is no longer effective, or click the calendar  button and select the date.
3. To delete a tariff treatment:
 - a. Select a tariff treatment and click **Delete**.
 - b. When prompted to delete the record, click **Yes**.
4. Click **OK** to save your changes and close the window.

HTS Tax Window [htstax]

The HTS Tax window allows you to add and maintain the taxes that are associated with an HTS classification.

- e. In the Nomination Flag fields, select the status of the assessment in relation to the other components:
 - f. Select N/A if the assessment is not included in the calculation of total assessments and estimated landed costs.
 - g. Select + (plus sign) to add the assessment to the total.
 - h. Select - (minus sign) to subtract the assessment from the total.
 - i. Click **Recalculate** to update the estimated values.
3. To delete an assessment:
 - a. Select an assessment and click **Delete**.
 - b. When prompted to delete the record, click **Yes**.
 4. Click **OK** to save your changes and close the window.

Edit an Assessment for an Item on a Purchase Order

Navigate: From the main menu, select Ordering > Orders. The Order Selection window opens.

Search for and retrieve a purchase order in Edit mode. Restrict the search to import orders in Worksheet status. The PO Header Maintenance window opens.

Click **Items**. The PO Header Maintenance window opens. Select an item.

From the Options menu, select HTS. The Order Item HTS Maintenance window opens.

Select an HTS classification in the HTS Information table. The Assessment Details table opens.

Order Item HTS Maintenance Window

1. Edit the assessments as necessary.

2. To add an assessment:
 - a. Select an HTS classification. The current assessments appear in the Assessment Details table.
 - b. Click **Add Comp Details**. The next available line is enabled.
 - c. In the Component field, enter the code for the cost component, or click the LOV  button and select the cost component.
 - d. Enter additional information in the enabled fields.
 - e. From the View menu, select Nomination Flag. The Nomination Flag fields appear in the Assessment Details table.
 - f. In the Nomination Flag fields, select the status of the expense in relation to the other components.
 - Select N/A if the assessment is not included in the calculation of total assessments and estimated landed costs.
 - Select + (plus sign) to add the assessment to the total.
 - Select - (minus sign) to subtract the assessment from the total.
 - g. Click **Recalculate** in order to update the values.
3. To delete an assessment:
 - a. Select an HTS classification. The current assessments appear in the Assessment Details table.
 - b. Select an assessment and click **Delete Comp Details**.
 - c. When prompted to delete the record, click **Yes**.
4. Click **OK** to save your changes and close the window.

Quota Categories Window [quotacat]

The Quota Categories window allows you to edit and view quota categories by import country. Customs agencies group items with related characteristics into quota categories. Restrictions can then be placed on the category rather than on individual items.

Add a Quota Category

Navigate: From the main menu, select Control > Landed Cost > HTS Maintenance > Quota Category > Edit. The Quota Categories window opens.

The screenshot shows a software window titled "Quota Categories (quotacat)". The window has a standard Windows-style title bar with minimize, maximize, and close buttons. Below the title bar is a toolbar containing icons for file operations (new, open, save, print) and help. The main area of the window features a form with a label "Importing Country" followed by a text input field and a small icon button. Below this is a section labeled "Quota" which contains a table. The table has two columns: "Category" and "Description". The table body consists of approximately 18 empty rows. To the left of the table is a vertical scrollbar. At the bottom of the window, there are five buttons: "OK", "OK + Repeat", "Add", "Delete", and "Cancel".

Quota Categories Window

1. In the Importing Country field, enter the code for the import country, or click the LOV  button and select the import country.
2. Click **Add**. The next available line becomes enabled.
3. In the Quota Category field, enter the ID of the quota category.
4. In the Description field, enter the description of the quota category.
5. Click **OK** to save your changes and close the window.

Delete a Required Document from an HTS Heading

Navigate: From the main menu, select Control > Landed Cost > HTS Maintenance > HTS Heading Maintenance > Edit. The HTS Heading Maintenance window opens.

Select an HTS heading.

From the Options menu, select HTS Heading Documents. The Required Documents window opens.

The screenshot shows a software window titled "Required Documents (reqdoc)". At the top, there are standard Windows window controls (minimize, maximize, close) and a toolbar with icons for file operations. Below the title bar, there are two input fields: "Supplier Site" containing the value "5678900000" and "Description" containing "The Furniture Company P/L". The main area of the window contains a table with three columns: "Document", "Document Description", and "Document Text". The first row of the table has a dark blue header with a document icon in the "Document" column. Subsequent rows have light blue headers with document icons. To the right of each row, there is a vertical stack of small icons representing different document types or actions. At the bottom of the window, there are four buttons: "OK", "Add", "Delete", and "Cancel".

Required Documents Window

1. Select a document and click **Delete**.
2. When prompted to delete the document, click **Yes**.
3. Click OK to save your changes and close the window.

Create harmonized tariff schedule classifications

Create Harmonized Tariff Schedule Classifications

The harmonized tariff schedule for an import country can be stored and accessed online. It provides the tariff rates and statistical categories for imported merchandise. By means of an HTS batch program, the data can be updated as new tapes are released by the customs agencies. The data can also be maintained manually.

You can maintain the following information in the HTS module:

- HTS headings
- Heading restraints
- Quota categories
- HTS classifications

Generally, HTS classifications are updated from tapes received from the customs agency. These classifications can be updated manually.

Create an HTS Classification

Navigate: From the main menu, select Control > Landed Cost > HTS Maintenance > HTS. The HTS Selection window opens.

HTS Selection Window

1. In the Action field, select New.
2. In the Importing Country field, enter the code for the import country, or click the LOV button and select the import country.
3. Click OK. The Harmonized Tariff Schedule window opens.

Harmonized Tariff Schedule Window

4. In the HTS field, enter the number of the classification.
5. In the HTS Description field, enter the description of the HTS classification. For extensive descriptions, click the comments button and enter the description.
6. In the Effect From and Effect To fields, enter the effective dates, or click the calendar buttons and select the dates.
7. In the Duty Comp Code field, enter the code for the duty calculation, or click the LOV button and select the duty calculation.
8. In the Units field, enter the number of units of measure that you want to define for the HTS classification.
9. In the Unit 1 UOM, Unit 2 UOM, and Unit 3 UOM fields, enter the codes for the applicable units of measure, or click the LOV buttons and select the units of measure.
10. Enter any additional information as necessary.
11. Click **OK** to save your changes and close the window.

Edit an HTS Classification

Navigate: From the main menu, select Control > Landed Cost > HTS Maintenance > HTS. The HTS Selection window opens.

Search for and retrieve an HTS classification in Edit mode. The Harmonized Tariff Schedule window opens.

Harmonized Tariff Schedule (hts)

Importing Country: US United States

Edit countervailing duty details

1. From the Options menu, select Countervailing Duties. The current countervailing duties appear in the HTS Countervailing Duties window.

The screenshot shows the 'HTS Countervailing Duties' window. At the top, there are input fields for 'HTS' (6210.12.1234), 'MSOB Hts2', 'Importing Country' (US), and 'United States'. Below these are 'Effect From' (29-NOV-2007) and 'Effect To' (27-NOV-2008). The main part of the window is a table with the following columns: Origin Country, Case No., Mfg. ID, Shipper ID, Supplier Site, Rate, Related Case No., and Effective Export Date. The first row contains the following data: US, 1, 12, 1, 1111111112, 10.0, 12, and 29-NOV-2007. At the bottom of the window are buttons for 'OK', 'Add', 'Delete', and 'Cancel'.

Origin Country	Case No.	Mfg. ID	Shipper ID	Supplier Site	Rate	Related Case No.	Effective Export Date
US	1	12	1	1111111112	10.0	12	29-NOV-2007

HTS Countervailing Duties Window

2. Edit the enabled fields as necessary.
3. To add a countervailing duty:
 - a. Click **Add**.
 - b. Enter the details on the next available line.
4. To delete a countervailing duty:
 - a. Select a countervailing duty and click **Delete**.
 - b. When prompted to delete the record, click **Yes**.
5. Click **OK** to exit the HTS Countervailing Duties window.

Edit the current fee details

1. From the Options menu, select Fees. The current fees appear in the HTS Fee window.

[illegible]

HTS Fee Window

2. Edit the enabled fields as necessary.
3. To add a fee:
 - a. Click **Add**.
 - b. Enter the details on the next available line.
4. To delete a fee:
 - a. Select a fee and click **Delete**.
 - b. When prompted to delete the record, click **Yes**.
5. Click **OK** to exit the HTS Fee window.

Edit the reference details

1. From the Options menu, select References. The current references appear in the HTS Reference window.

The screenshot shows the "HTS Reference" application window. The title bar includes standard Windows icons and the text "(htsref)". Below the title bar is a toolbar with icons for file operations and help. The main interface contains several input fields: "HTS" with a value of "6210.12.1234", "MSOB Hts2", "Importing Country" set to "US" and "United States", "Effect From" set to "29-NOV-2007", and "Effect To" set to "27-NOV-2008". A central table has two columns, "Reference ID" and "Reference", with ten rows below the header. Each row has a small icon on its right side. At the bottom are four buttons: "OK", "Add", "Delete", and "Cancel".

HTS Reference Window

2. Edit the Reference field as necessary.
3. To add a reference:
 - a. Click **Add**.
 - b. Enter the information on the next available line.
4. To delete a reference:
 - a. Select a reference and click **Delete**.
 - b. When prompted to delete the record, click **Yes**.
5. Click **OK** to exit the HTS Reference window.

Edit the tariff treatment details

1. From the Options menu, select Tariff Treatments. The current tariff treatments appear in the HTS Tariff Treatment window.

HTS Tariff Treatment (htstar)

HTS: 6210.12.1234 MSOB Hts2

Excluded Country Description

Add Exclusion Delete Exclusion

OK Cancel

HTS Tariff Treatment Window

2. Edit the enabled fields as necessary.
3. To add a tariff treatment:
 - a. Click **Add Treatment**.
 - b. Enter the details on the next available line.
4. To exclude an origin country from the tariff treatment:
 - a. Select a tariff treatment.
 - b. Click **Add Exclusion**.
5. In the Excluded Country field, enter the code for the country, or click the LOV  button and select the country.
6. To delete an excluded country from the tariff treatment:
 - a. Select a tariff treatment.
 - b. Select an excluded country and click **Delete Exclusion**.
 - c. When prompted to delete the record, click **Yes**.
7. To delete a tariff treatment:
 - a. Select a tariff treatment and click **Delete Treatment**.
 - b. When prompted to delete the record, click **Yes**.
8. Click **OK** to save your changes and close the window.

Edit the anti-dumping duty details

1. From the Options menu, select Anti-Dumping Duties. The current anti-dumping duties appear in the HTS Anti-Dumping Duties window.

The screenshot shows the 'HTS Anti-Dumping Duties' window. At the top, there are fields for HTS (6210.12.1234), MSOB Hts2, Importing Country (US), and United States. Below these are fields for Effect From (29-NOV-2007) and Effect To (27-NOV-2008). The main area is a table with the following columns: Origin Country, Mfg. ID, Case No., Shipper ID, Supplier Site, Rate, Related Case No., and Effective Export Date. The first row contains the following data: US, 12, 1, 12, 1111111112, 10.0, 10, and 29-NOV-2007. Below the table are buttons for OK, Add, Delete, and Cancel.

Origin Country	Mfg. ID	Case No.	Shipper ID	Supplier Site	Rate	Related Case No.	Effective Export Date
US	12	1	12	1111111112	10.0	10	29-NOV-2007

HTS Anti-Dumping Duties Window

2. Edit the enabled fields as necessary.
3. To add an anti-dumping duty:
 - a. Click **Add**.
 - b. Enter the details on the next available line.
4. To delete an anti-dumping duty:
 - a. Select an anti-dumping duty and click **Delete**.
 - b. When prompted to delete the record, click **Yes**.
5. Click **OK** to save your changes and close the window.

Edit the other government agencies details

1. From the Options menu, select Other Government Agencies. The current requirements appear in the HTS Other Government Agencies window.

HTS Other Government Agencies Window

2. Edit the enabled fields as necessary.
3. To add a requirement:
 - a. Click **Add**.
 - b. Enter the details on the next available line.
4. To delete a requirement:
 - a. Select a requirement and click **Delete**.
 - b. When prompted to delete the record, click **Yes**.
5. Click **OK** to save your changes and close the window.

1. From the Options menu, select Taxes. The current taxes appear in the HTS Tax window.

[illegible]

HTS Tax Window

2. Edit the enabled fields as necessary.
3. To add a tax:

Letter of credit

Create Letters of Credit

Letters of credit are a widely used form of payment when dealing with imported goods. They provide importers with a secure method to pay for merchandise and vendors with a secure method to receive payment for merchandise. Letters of credit can be created and applied to purchase orders. Activity against the letter of credit can also be tracked.

The following types of letters of credit can be created:

- **Normal:** The letter of credit is applied to one purchase order.
- **Master:** The letter of credit is applied to multiple purchase orders.
- **Revolving:** Multiple purchase orders may be added to the letter of credit until the letter of credit is closed.
- **Open:** A letter of credit is created with no purchase orders. The purchase orders can be added at a later date.

You can choose from two letter of credit formats. The long form includes details at the purchase order and item level. The short form includes details at the purchase order level.

Completed applications and amendments can be transmitted to bank partners. Confirmations, drawdowns, and charges can also be received from bank partners.

Letter of Credit Order Apply Window [lcardapp]

The Letter of Credit Order Apply window allows you to select one or more approved purchase orders and attach them to letters of credit. You can attach a purchase order to an existing letter of credit or you can create a letter of credit. If the purchase orders share the same applicant, issuing bank, beneficiary, purchase type, and title pass location, you can apply more than one to the same letter of credit.

To display information specific to errors or letters of credit, or to create a customized view, select the appropriate option from the View menu.

To display monetary amounts in the primary currency of the company or the local currency of the issuing bank, select the appropriate option from the Options > Currency menu.

Create an Open Letter of Credit

Navigate: From the main menu, select Finance > Payments > Letter of Credit. The Letter of Credit Find window opens.

The screenshot shows the 'Letter of Credit Find' window. It features a search form with fields for LC Ref. Number, Bank LC ID, Status, LC Type, Form Type, Origin Country, and Currency. Below these are fields for Applicant, Beneficiary, Issuing Bank, and Advising Bank. At the bottom, there are five pairs of 'After' and 'Before' date fields. The window includes standard navigation buttons like OK, Search, Send, Back, Refresh, and Close.

Letter of Credit Find Window

Note: An open letter of credit does not require the existence of a purchase order. It can be opened to a beneficiary for a monetary amount. You can amend the open letter of credit when it is applied to a purchase order.

1. In the Action field, select New.
2. Click **OK**. The Letter of Credit Application Header window opens. The LC Ref ID is filled in automatically.

The screenshot shows the 'Letter of Credit Application Header' window. It contains detailed information for a specific LC, including LC Ref. ID (10002300), Bank LC ID (1234), LC Type (Open), Form Type (Long), Currency (USD), Origin Country (US), Exchange Rate (1), and Status (Confirmed). The 'Partners' section lists Applicant (1001, test lc amend applicant) and Beneficiary (234567000, David Fashion Creations). The 'Banks' section lists Issuing, Advising, Confirming, Transferring, and Negotiating banks, all as Bank of America (ID 1003), along with a Drawee (ID 1003). The 'Dates' section includes Application Date (23-MAR-2002), Confirmation Date (23-MAR-2002), Earliest Ship Date (23-MAR-2002), Latest Ship Date (23-APR-2002), and Expiration Date (23-MAY-2002). The 'LC Amounts' section shows Amount Type (Exact), Variance Pct (0.00%), Specification (Maximum), Amount (10,000.00), and Amount Word (ten thousand and 0/100 USD). The window has buttons for OK, Comments, Details, Print, and Cancel.

Letter of Credit Application Header Window

3. In the LC Type field, select Open.
4. In the Form Type field, select the type of form.
5. In the Currency field, enter the code for the currency of the letter of credit, or click the LOV  button and select the currency.
6. In the Origin Country field, enter the code for the origin country, or click the LOV  button and select the origin country.
7. In the Partners area, select the applicant and beneficiary.
8. In the Banks area, select the banks that are involved with the letter of credit transaction.
9. In the Conditions area, select the conditions that apply to the letter of credit.
10. In the Dates area, enter the various dates if known.
11. In the Amount Type field, select the type of amount.
12. Enter any additional information as necessary.
13. To enter the terms of the letter of credit:
 - a. From the Options menu, select Terms. The Letter of Credit Terms window opens.

Letter of Credit Terms Window

1. Enter and select the terms as necessary.
2. Click **OK** to save your changes and close the window.

Generate an Amendment to a Letter of Credit

Navigate: From the main menu, select Finance > Payments > Letter of Credit. The Letter of Credit Find window opens.

Search for and retrieve a letter of credit in Edit mode. Restrict the search to letters of credit in Confirmed status. The Letter of Credit Application Header window is displayed.

From the Options menu, select Amendments. The Letter of Credit Amendments window opens.

Letter of Credit Amendments Window

1. Click **Add Amend**. The Letter of Credit Amendments - Fixed Format Application window opens.
2. Add a fixed-format amendment to a letter of credit.
3. Click **OK** to save any changes and close the window.

Change the status of a letter of credit

1. Select the amendment that you want to approve.
2. In the Status field, select the appropriate status.
3. Click **Generate**. An amendment number is filled in automatically in the Amend No field for each newly-accepted amendment.
4. Click **OK** to save your changes and close the window.

Letter of Credit Activity Window [lactive]

The Letter of Credit Activity window allows you to edit and view activities against a letter of credit. You can add the bank charges and drawdowns. A letter of credit activity is added automatically when the issuing bank confirms the letter of credit. An amendment activity is added automatically when a monetary amendment is approved for the letter of credit.

You can edit or view activities for confirmed letters of credit. You can view activities for closed letters of credit.

To display the monetary amounts of an activity in the primary currency of the company, the currency of the letter of credit, or the currency of the activity, select the appropriate option from the Options > Currency menu. You can add or delete an activity only when the currency option is Activity.

Letter of Credit Amendments - Fixed Format Application Window [lcamend]

The Letter of Credit Amendments - Fixed Format Application window allows you change the current values for various parts of a confirmed letter of credit application. These are for amendments that are initiated by the letter of credit group.

Letter of Credit Amendments Window [Icamend]

The Letter of Credit Amendments window allows you to modify a confirmed letter of credit by adding amendments to the letter of credit.

Amendments are created automatically when certain values are changed on a purchase order. Amendments to the purchase order can be written once the letter of credit for that purchase order is in Submit status.

If you are using Trade Management to import costs, it is assumed that all locations must have the same cost value for an item. However, if the cost of items that are being imported DO vary by location, Trade Management will convert the cost values to an identical weighted average cost. If a cost is changed on an order at only one location, an amendment is written with the average cost for all locations.

You can also create amendments to the letter of credit itself. For all new amendments, you can choose which amendments to accept for the letter of credit. After an amendment is changed to Accepted status, it can be transmitted to the bank.

The following changes to a purchase order automatically generate an amendment to the letter of credit:

- Earliest and latest ship dates
- Purchase order cancelled
- Transshipment or partial shipment options
- Unit cost and order quantity
- Required documents (You cannot change the content of the document, only whether it is included.)

Changes to the face of the letter of credit can be made on the Letter of Credit Amendment Fixed Format window. To access the window, click **Add Amend**.

To display monetary amounts in the primary currency of the company or the currency of the letter of credit, select the appropriate option from the Options > Currency menu.

Letter of Credit Amendments - Net Effect Window [Icamend]

The Letter of Credit Amendments - Net Effect window allows you to view the net effect that a selected amendment, or all amendments that share the same amendment number, has on the letter of credit.

Letter of Credit Application Details Window [Icapptl]

The Letter of Credit Application Details window allows you to view which purchase orders (short form) or PO/items (long form) are attached to a letter of credit.

To display monetary amounts in the primary currency of the company or the currency of the letter of credit, select the appropriate option from the Options > Currency menu.

Letter of Credit Application Header Window [Icapphdr]

The Letter of Credit Application Header window allows you to create, edit, and view letters of credit.

Letter of Credit Terms Window [Icapphdr]

The Letter of Credit Terms window allows you to edit and view the terms of a letter of credit.

Letter of Credit Find Window [lcfind]

The Letter of Credit Find window allows you to enter search criteria in order to search for letters of credit and view the results.

Functional views

The default view for the Letter of Credit Find window opens when you open the window for the first time. You can also create a custom view.

Print Amendments to a Letter of Credit

Navigate: From the main menu, select Finance > Payments > Letter of Credit. The Letter of Credit Find window opens.

Search for and retrieve a letter of credit in Edit mode. Restrict the search to letters of credit in Confirmed or Closed status. The Letter of Credit Application Header window opens.

From the Options menu, select Amendments. The Letter of Credit Amendments window opens.

2. In the Destination field, select where you want the finished report to be sent. Select Preview to view the report online.
3. From the File menu, select Run Report. The report is generated and sent to the destination that you selected.

Send Letter of Credit Amendments

Navigate: From the main menu, select Finance > Payments > Letter of Credit. The Letter of Credit Find window opens.

Letter of Credit Find Window

1. In the Action field, select Download Amendment.
2. Enter additional criteria as desired to make the search more restrictive.
3. Click **Search**. The confirmed letters of credit that match the search criteria appear.
4. Click **Send**.
5. When prompted to transmit the letter of credit amendments, click **Yes**. The amendments will be converted to the SWIFT format and transmitted by a regularly scheduled batch program.

Send Letter of Credit Applications

Navigate: From the main menu, select Finance > Payments > Letter of Credit. The Letter of Credit Find window opens.

Letter of Credit Find Window

1. In the Action field, select Download Application.
2. Enter additional criteria as desired to make the search more restrictive.
3. Click **Search**. The approved letters of credit that match the search criteria appear.
4. Click **Send**.
5. When prompted to transmit the letter of credit applications, click **Yes**. The applications will be converted to the SWIFT format and transmitted by a regularly scheduled batch program.

Letters of credit approval process

Letters of Credit Approval Process

When a letter of credit is added to the system, it must go through a series of checks before it is accessible in the system. Depending on your user role, you may not be able to move the letter of credit to the next status. A letter of credit may be in any of the following statuses:

Status	Definition
Worksheet	The letter of credit has been started, but not completed.
Submitted	The letter of credit has been completed and is pending review.
Approved	The letter of credit has been reviewed and has been approved.
Extracted	The details of the letter of credit were sent to the external entity affected by the letter of credit.
Confirmed	The letter of credit has been confirmed by the bank and a reference number has been assigned to the letter of credit.
Closed	The letter of credit is complete.

Submit a Letter of Credit for Approval

Navigate: From the main menu, select Finance > Payments > Letter of Credit. The Letter of Credit Find window opens.

Search for and retrieve a letter of credit in Edit mode. Restrict the search to letters of credit in Worksheet status. The Letter of Credit Application Header window opens.

Transportation

Set Up Transportation Overview

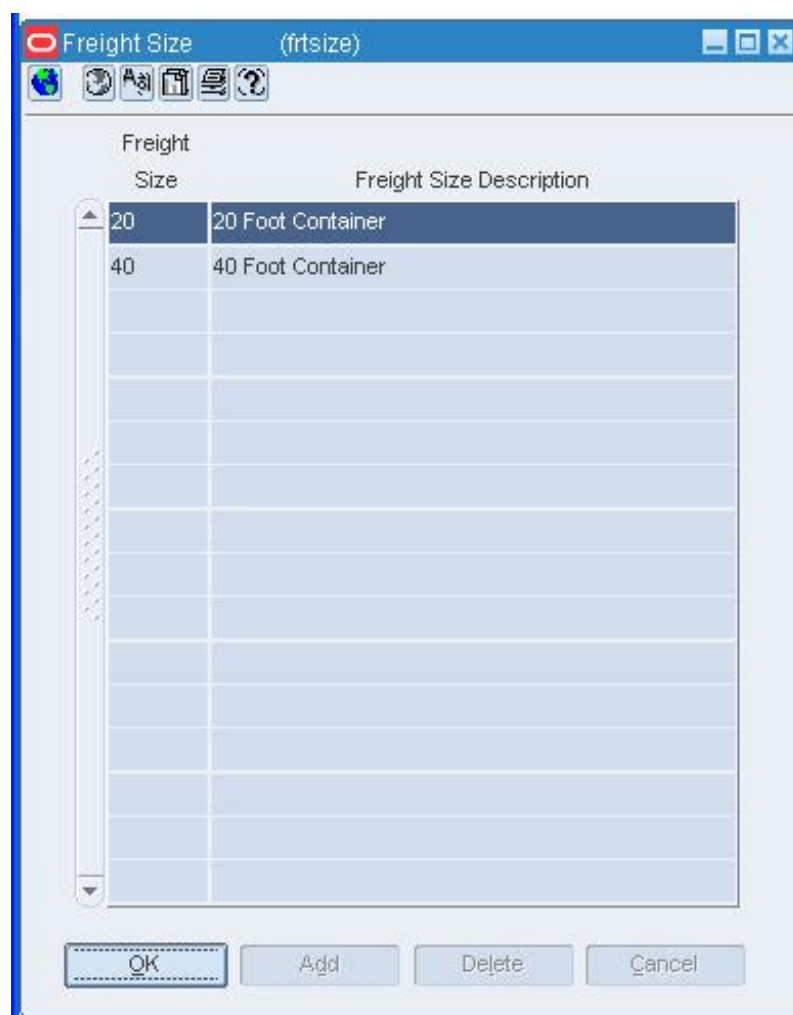

The movement of goods from origin country to final destination can be tracked through the transportation module.

The following information must be set up for the transportation module:

- Freight types
- Freight sizes
- Standard carrier alpha codes

Add a Freight Size

Navigate: From the main menu, select Control > Setup > Freight Size Maintenance > Edit. The Freight Size window opens.

Freight Size Window

1. Click **Add**. The next available line is enabled.
2. In the Freight Size field, enter the ID of the freight size.
3. In the Freight Size Description field, enter a description of the freight size.
4. Click **OK** to save your changes and close the window.

Add a Freight Type

Navigate: From the main menu, select Control > Setup > Freight Type Maintenance > Edit. The Freight Type window opens.

The screenshot shows a window titled "Freight Type (ftrtype)". It contains a table with two columns: "Freight Type" and "Description". The table has multiple empty rows. Below the table are four buttons: "OK", "Add", "Delete", and "Cancel". The "OK" button is highlighted with a dashed border.

Freight Type Window

1. Click **Add**. The next available line is enabled.
2. In the Freight Type field, enter the ID of the freight type.
3. In the Description field, enter a description of the freight type.
4. Click **OK** to save your changes and close the window.

- Freight sizes, SCAC codes, and freight types
- Measurements, weights, and quantities
- Deliveries to final destinations
- Packing methods
- Licenses and visas
- Claims against trading partners
- Missing documents
- Timelines
- Members of an item family

A transportation upload batch program converts data received from trading partners into a standard Oracle Retail file format. As additional information is acquired, it can be entered manually. When a transportation record is complete, you can finalize the record. Finalized transportation records are used to automatically create customs entries. The goods can then be tracked as they move through customs.

Create a Transportation Record

Navigate: From the main menu, select Inventory > Transportation > Maintenance. The Transportation Selection window opens.

In the Action field, select New. Click **OK**. The Transportation window opens.

Transportation Window

1. Provide as much information in the enabled fields as you have available.

Note: The Candidate Ind check box can only be selected for Items that have an approved HTS code.

2. Click **OK** to save your changes and close the window.

Add a Child or Diff to a Transportation Record

Navigate: From the main menu, select Inventory > Transportation > Maintenance. The Transportation Selection window opens.

Search for and retrieve a transportation record in Edit mode. The Transportation window opens.

From the Options menu, select Child/Diffs. The Transportation Item window opens.

Note: The Child/Diffs option is available when the item on a transportation record is an item parent.

1. Click **Add**.
2. In the Item field, enter the number of the item, or click the LOV  and select the item.
3. In the Quantity field, enter the number of units.
4. In the UOM field, enter the code for the unit of measure, or click the LOV  button and select the unit of measure.
5. Click **OK** to save your changes and close the window.

Add a Claim to a Transportation Record

Navigate: From the main menu, select Inventory > Transportation > Maintenance. The Transportation Selection window opens.

Search for and retrieve a transportation record in Edit mode. The Transportation window opens.

From the Options menu, select Claims. The Transportation Claims window opens.

Transportation Claims Window

1. Click **Add**.
2. In the Claim ID field, enter the number of the claim.
3. In the From Carton and To Carton fields, enter the ID of the first and last carton in the series of cartons.
4. In the Claim Date field, enter the date of the claim, or click the calendar  button and select the date.
5. In the Item Qty field, enter the number of units included on the claim.
6. In the Qty UOM field, enter the code for the unit of measure, or click the LOV  button and select the unit of measure.
7. In the Claim Against Type field, select the type of partner against whom the claim is made.
8. In the Claim Against ID field, enter the ID of the partner, or click the LOV  button and select the partner.
9. In the Claim Amount field, enter the monetary amount of the claim.
10. To enter the type of discrepancy or damage and any comments:
 - a. Select Custom from the View menu. The Customize toolbar opens.
 - b. Click the Add  button.

- c. Clear the check box next to a couple of fields and select the check boxes for the Discrepancy Type, Damage Code, and Comments fields.
 - d. Click **OK**. The selected fields appear.
 - e. Enter the information in the Discrepancy Type, Damage Code, and Comments fields as necessary.
11. Click **OK** to save your changes and close the window.

Add a Delivery to a Transportation Record

Navigate: From the main menu, select Inventory > Transportation > Maintenance. The Transportation Selection window opens.

Search for and retrieve a transportation record in Edit mode. The Transportation window opens.

From the Options menu, select Delivery. The Transportation Delivery window opens.

Transportation Delivery Window

1. Click **Add**.
2. In the Delivery Location Type field, select the type of location.
3. In the Location field, enter the ID of the location, or click the LOV  button and select the location.
4. In the Estimated Delivery Date field, enter the date, or click the calendar  button and select the date.
5. Enter as much additional information as you have available.
6. Click **OK** to save your changes and close the window.

Add a License or Visa to a Transportation Record

Navigate: From the main menu, select Inventory > Transportation > Maintenance. The Transportation Selection window opens.

Search for and retrieve a transportation record in Edit mode. The Transportation window opens.

From the Options menu, select License/Visa. The Transportation License/Visa window opens.

The screenshot shows the 'Transportation License/Visa' window with the following fields and values:

- Trans. ID: 314
- Vessel ID: 666
- Voyage ID: 666
- Est. Depart. Date: 17-JUL-0002
- Order No.: 133613
- Item: 100786194 buyer pack test
- BL/AWB ID:
- Container ID: 101
- Invoice ID: 56

The table below is part of the window:

Import Country	Country Description	Lic./Visa Type	License/Visa	License/Visa Quantity	Lic/Visa Qty UOM	Quota Category	Net/Net Wt.	UOM

Buttons at the bottom: OK, Add, Delete, Cancel.

Transportation License/Visa Window

1. Click **Add**.
2. In the Import Country field, enter the code for the import country, or click the LOV button and select the import country.
3. In the Lic/Visa Type field, select the type of document.
4. In the License/Visa field, enter the description of the license or visa.
5. In the Lic/Visa Qty field, enter the number of units affected by the license or visa.
6. In the Lic/Visa Qty UOM field, enter the code for the unit of measure, or click the LOV button and select the unit of measure.
7. Enter as much additional information as you have available.
8. To enter the ID of the license or visa holder and any comments:
 - a. Select Custom from the View menu. The Customize toolbar opens.
 - b. Click the add button.
 - c. In order to make room for the Holder ID and Comments fields, clear the check boxes next to fields that you don't need to display. Then select the check boxes next to the Holder ID and Comments fields.
 - d. Click **OK**. The selected fields appear.
 - e. Enter the information in the Holder ID and Comments fields as necessary.
9. Click **OK** to save your changes and close the window.

Add a Missing Document to a Transportation Record

Navigate: From the main menu, select Inventory > Transportation > Maintenance. The Transportation Selection window opens.

Search for and retrieve a transportation record in Edit mode. The Transportation window opens.

From the Options menu, select Missing Documents. The Missing Documents window opens.

Missing Documents Window

1. Click **Add**.
2. In the Document ID field, enter the ID of the document, or click the LOV  button and select the document.
3. In the Received Date field, enter the date received if applicable, or click the calendar  button and select the date.
4. In the Comments field, enter a comment as necessary, or click the comments  button and enter the comment.
5. Click **OK** to save your changes and close the window.

Add Packing Information to a Transportation Record

Navigate: From the main menu, select Inventory > Transportation > Maintenance. The Transportation Selection window opens.

Search for and retrieve a transportation record in Edit mode. The Transportation window opens.

From the Options menu, select Packing. The Transportation Packing window opens.

Transportation Packing Window

1. Click **Add**.
2. In the From Carton and To Carton fields, enter the ID of the first and last carton in a series of cartons.
3. In the Load Position field, select the position of the load in the series of containers.
4. Enter as much additional information as you have available, including the location of a sample carton.
5. To enter shipped quantities:
 - a. Select Quantity from the View menu. Several quantity and UOM fields appear.
 - b. Enter the information that you have available.
6. To enter received quantities:
 - a. Select Received Quantity from the View menu. Several received quantity and UOM fields appear.
 - b. Enter the information that you have available.
7. Click **OK** to save your changes and close the window.

Maintain customs entry

Maintain Customs Entry

The movement of goods through customs in the import country can be tracked through the customs entry module.

You can track the following information in the customs entry module:

- Forms
- Protests
- Timelines
- Shipments, orders, and items
- Departure, arrival, export, and import dates
- Missing documents
- Bills of lading and containers
- Charges and assessments
- Licenses and visas

A customs entry batch program transmits data to brokers so they can prepare the necessary documentation. When you finalize transportation records in the transportation module, the customs entries are created automatically. As additional information is acquired, it can be entered manually.

When the charges and assessments are complete, you can choose to allocate the costs to the actual landed cost module. When the customs entry is complete, you can confirm the record. If you have access to the Oracle Retail Invoice Matching product, non-merchandise invoices are created automatically from confirmed customs entries.

Create a Customs Entry

Navigate: From the main menu, select Inventory > Customs Entry. The Customs Entry Search window opens.

In the Action field, select New. Click **OK**. The Customs Entry Header window opens.

The screenshot shows the 'Customs Entry Header' window with the following fields and values:

- CE Ref. ID: 802
- Entry No.: (empty)
- Entry Date: (empty)
- CE Ref. Status: Worksheet
- Import Country: US (United States)
- Currency: USD
- Exch. Rt.: 1.0
- Entry Status: (empty)
- Summary Date: (empty)
- ALC Status: Pending
- Entry Port: (empty)
- Release Date: (empty)
- Entry Type: (empty)
- Importer: (empty)
- Consignee: (empty)

- Total Other: (empty)
- Total VFD: (empty)
- Total Est. Assess.: (empty)
- Total Act. Assess.: (empty)
- Comments: (empty)

Buttons at the bottom: OK, OK+Repeat, Allocate ALC, Recalculate, Shipment, Delete, Cancel.

Customs Entry Header Window

Note: When transportation records are finalized in the transportation module, the customs entries are created automatically. However, an entry can also be created manually.

1. Provide any available information in the enabled fields.
2. Click **OK** to save your changes and close the window.

Add a Form to a Customs Entry

Navigate: From the main menu, select Inventory > Customs Entry. The Customs Entry Search window opens.

Search for and retrieve a customs entry in Edit mode. The Customs Entry Header window opens.

From the Options menu, select Forms. The Customs Entry Forms window opens.

Customs Entry Forms Window

3. Click **Add**. The next available line is enabled.
4. In the Form Type field, select the type of form.
5. In the OGA field, enter the ID of the other government agency, or click the LOV  button and select the other government agency.
6. In the Form Issue field, enter the issue raised by the government agency, or click the comment  button and enter the issue in the Form Issue window.
7. In the Notice Date, Due Date, and Responded Date fields, enter the appropriate dates, or click the calendar  buttons and select the dates.
8. Click **OK** to save your changes and close the window.

Add a License or Visa to a Customs Entry

Navigate: From the main menu, select Inventory > Customs Entry. The Customs Entry Search window opens.

Search for and retrieve a customs entry in Edit mode. The Customs Entry Header window opens.

Click **Shipment**. The Customs Entry Shipment window opens.

Select a shipment and click **Order/Item**. The Customs Entry Items window opens.

Select an order/item combination and click **License/Visa**. The Customs Entry License/Visa window opens.

Customs Entry License/Visa Window

9. Click **Add**. The next available line is enabled.
10. In the License/Visa Type field, select the type of document.
11. In the License/Visa field, enter the ID of the license or visa.
12. In the Holder ID field, enter the ID of the person or organization that holds the license or visa.
13. In the Quota Category field, enter the ID of the quota category, or click the LOV  button and select the quota category.
14. In the License/Visa Qty field, enter the number of units included on the license or visa.
15. In the next field, enter the code for the unit of measure, or click the LOV  button and select the unit of measure.
16. In the Net Wt field, enter the net weight.
17. In the next field, enter the code for the unit of measure, or click the LOV  button and select the unit of measure.
18. In the Comments field, enter a comment as necessary, or click the comments  button and enter the comment in the Comments window.
19. Click **Apply**. The license or visa is added to the customs entry details.
20. Click **OK** to save your changes and close the window.

Add a Missing Document to a Customs Entry

Navigate: From the main menu, select Inventory > Customs Entry. The Customs Entry Search window opens.

Search for and retrieve a customs entry in Edit mode. The Customs Entry Header window opens.

Click **Shipment**. The Customs Entry Shipment window opens.

Select a shipment and click **Order/Item**. The Customs Entry Items window opens.

Select an order/item combination, then select Missing Documents from the Options menu. The Missing Documents window opens.

Missing Documents Window

1. Click **Add**. The next available line is enabled.
2. In the Document ID field, enter the ID of the missing document, or click the LOV  button and select the document.
3. In the Received Date field, enter the date received if applicable, or click the LOV  button and select the date.
4. In the Comments field, enter a comment as necessary, or click the comments  button and enter the comment.
5. Click **OK** to save your changes and close the window.

Add a Protest to a Customs Entry

Navigate: From the main menu, select Inventory > Customs Entry. The Customs Entry Search window opens.

Search for and retrieve a customs entry in Edit mode. The Customs Entry Header window opens.

From the Options menu, select Protests. The Customs Entry Protest window opens.

Customs Entry Protest Window

1. Click **Add**. The next available line is enabled.
2. In the Protest No field, enter the number of the protest.
3. In the Protest Code field, enter the code for the protest, or click the LOV  button and select the protest.
4. In the Protest Date field, enter the date of the protest, or click the calendar  button and select the date.
5. In the Comments field, enter a comment as necessary. For an extended comment, click the comments  button and enter the comment in the Comments window.
6. Click **OK** to save your changes and close the window.

Add a Shipment to a Customs Entry

Navigate: From the main menu, select Inventory > Customs Entry. The Customs Entry Search window opens.

Search for and retrieve a customs entry in Edit mode. The Customs Entry Header window opens.

Click **Shipment**. The Customs Entry Shipment window opens.

Customs Entry Shipment Window

1. Click **Add**. The next available line is enabled.
2. In the Vessel field, enter the ID of the vessel, or click the LOV  button and select the vessel.
3. In the Voyage/Fit field, enter the voyage or flight number, or click the LOV  button and select the voyage or flight.
4. In the Est Depart Date field, enter the estimated departure date of the shipment, or click the LOV  button and select the estimated departure date.
5. Enter any additional information that is available.
6. Click **Apply**. The shipment details are added to the table.
7. Click **OK** to save your changes and close the window.

Add an Item to a Customs Entry

Navigate: From the main menu, select Inventory > Customs Entry. The Customs Entry Search window opens.

Search for and retrieve a customs entry in Edit mode. The Customs Entry Header window opens.

Click **Shipment**. The Customs Entry Shipment window opens.

Select a shipment and click **Order/Item**. The Customs Entry Items window opens.

The screenshot shows the 'Customs Entry - Items' window. At the top, there are fields for CE Ref. ID (8273), Entry No. (8237), Import Country (US), Vessel (SS RETEK), Voyage/Frt. (VESS21), and Est. Depart. Date (09-MAR-2001). Below this is a table with columns: Order No., Item, Item Description, Invoice ID, Invoice Amt., Currency Code, Manifest Qty., Manifest Qty. UOM, Cleared Qty., and Cleared Qty. UOM. The first row contains: 69890, 101237470, T.J.W Item 1, 7461, 20,000.00, USD, 100.00, EA, and blank for the last two columns. Below the table is the 'Apply Order/Item Details' section with various input fields: Order No. (69890), Item (101237470), Invoice ID (7461), Invc. Date (09-MAR-2001), Invc. Amt. (20,000.00), Currency (USD), Exch. Rt. (1.0), Manifest Qty. (100.00), EA, Carton Qty., Gross Vt., Net Vt., Cubic, In Transit No., In Transit Date, DO. No., DO. Date, Tariff Treatment (C1), Ruling No., Comments, and a checkbox for Multiple BL/AWBs. At the bottom are buttons for OK, Add, BL/Container, Charges, License/Visa, and Cancel.

Customs Entry Items Window

1. Click **Add**. The next available line is enabled.
2. In the Order No field, enter the number of the purchase order, or click the LOV  button and select the purchase order.
3. In the Item field, enter the item number of the item, or enter a partial description and click the LOV  button to select an item.
4. In the Invoice ID field, enter the number of the invoice, or click the LOV  button and select the invoice.
5. In the Tariff Treatment field, enter the code for the tariff treatment, or click the LOV  button and select the tariff treatment.
6. Provide any available information in the enabled fields.
7. Click **Apply**. The purchase order and item information is added to the details.
8. Click **OK** to save your changes and close the window.

Add Charges to a Customs Entry

Navigate: From the main menu, select Inventory > Customs Entry. The Customs Entry Search window opens.

Search for and retrieve a customs entry in Edit mode. The Customs Entry Header window opens.

Click **Shipment**. The Customs Entry Shipment window opens.

Select a shipment and click **Order/Item**. The Customs Entry Items window opens.

Select an order/item combination and click **Charges**. The Customs Entry Charges window opens.

Maintain obligations

Maintain Obligations

As commercial invoices are received from trading partners and suppliers, they can be recorded in the obligations module. The expenses can be recorded at a variety of levels. The levels are:

- **Trans Container:** Applies to a unique shipment and container combination.
- **Trans Container PO/Item:** Applies to a unique shipment, container, purchase order, and item combination.
- **Trans BL/AWB:** Applies to a unique shipment and bill of lading or air waybill combination.
- **Trans BL/AWB PO/Item:** Applies to a unique shipment, bill of lading or air waybill, purchase order, and item combination.
- **Trans Vessel/Voyage/ETD:** Applies to a unique shipment.
- **Trans Vessel/Voyage/ETD PO/Item:** Applies to a unique shipment, purchase order, and item combination.
- **Purchase Order Header:** Applies to a unique purchase order.
- **Purchase Order/Item:** Applies to a unique purchase order and item combination.
- **Customs Entry Header:** Applies to a unique customs entry.

Each shipment is designated by a unique combination of vessel, voyage, and estimated departure date. For obligations at the purchase order header and purchase order/item level, you can allocate costs to one or more locations.

When the obligation is complete, you can approve the costs. The costs are transmitted to the actual landed cost module. If you have access to the Oracle Retail Invoice Matching product, non-merchandise invoices are created automatically from approved obligations.

Create an Obligation

Navigate: From the main menu, select Finance > Obligation Maintenance. The Obligation Search window opens.

Obligation Search Window

1. In the Action field, select New.
2. In the Obligation Level field, select the appropriate level.
3. Click OK. The Obligation Maintenance window opens.

Obligation Maintenance Window

4. In the variable fields, enter the appropriate ID, or click the LOV  button and select the variable.

Note: Depending on the obligation level, the following fields are enabled: BL/AWB, Container, Entry No, Order No, Item, Vessel, Voyage/Flight, Est Depart Date.

Enter vendor information

1. Select either the Partner or Supplier option.
2. If you select Partner, select the type of partner in the Partner Type field.
3. In the Partner or Supplier field, enter the ID of the vendor, or click the LOV  button and select the vendor.
4. To enter basic invoice information, enter the invoice number, invoice date, method of payment, amount paid, payment date, check authorization number, currency code, exchange rate, and comments in the appropriate fields.

Enter the cost components

1. Click **Add Details**.
2. In the Component field, enter the code for the component, or click the LOV  button and select the component.
3. In the Allocation Type field, select the appropriate option.
4. If you select Amount in the Allocation Type field, enter the quantity, unit of measure, and amount in the appropriate fields.

If you select Unit of Measure in the Allocation Type field, enter the allocation basis, rate, per count, unit of measure, quantity, and amount in the appropriate fields.

5. Select the In ALC check box next to each cost component that you want to include in actual landed cost calculations.

Allocate a cost component to a location

Note: Costs can be allocated to locations if the obligation is entered at the purchase order header or purchase order/item level.

1. Select a cost component and click **Locations**. The Locations Maintenance window opens.

Locations Maintenance Window

2. In the Location Type field, select the type of location.
3. In the Location field, enter the ID of the location, or click the LOV  button and select the location.
4. In the Quantity field, enter the number of units that were received at the location.
5. In the Amount field, enter the cost allocated to the location.
6. Click **OK** to save your changes and close the window.

Review and complete the obligation

Click **OK** to save your changes and close the window.

Approve an Obligation

Navigate: From the main menu, select Finance > Obligation Maintenance. The Obligation Search window opens.

Search for and retrieve an obligation in Edit mode. The details appear in the Obligation Maintenance window.

Obligation Maintenance Window

1. In the Obligation Status field, select Approved. The costs are allocated to the actual landed cost module.

Note: If you have access to Oracle Retail Invoice Matching, an invoice is written in approved status after you approve an obligation. Subsequently, the approved costs are posted to financials.

2. Click **OK** to close the window.

Search for an Obligation

Navigate: From the main menu, select Finance > Obligation Maintenance. The Obligation Search window opens.

Obligation Search Window

1. In the Action field, select either Edit or View.
2. In the Obligation Level field, select the appropriate level.

Note: Depending on the obligation level, the following fields are available: BL/AWB, Container, Entry No, Order No, Item, Vessel, Voyage/Flight, Est Depart Date.

3. Enter additional criteria as desired to make the search more restrictive.
4. Click **Search**. The Obligation Search window displays the obligations that match the search criteria.
5. Select a task:
 - To perform another search, click **Refresh**.
 - To display the details of an obligation, select a record and click **OK**. The Obligation Maintenance window opens.

Maintain actual landed cost

Actual Landed Costs Overview

The actual landed cost module provides a view of the expenses and assessments that are accumulated as goods move from origin country, through customs, to their final destination. Estimated and actual landed costs are summarized for analysis.

The amounts can be viewed at the entry, shipment, purchase order level or at the purchase order/item level. After analysis, you can finalize the actual landed costs. As a result the stock ledger and open to buy are updated. You also have the option to update weighted average costs.

Finalize Actual Landed Costs by Purchase Order

Navigate: From the main menu, select Finance > ALC Order Finalize. The ALC Order Find window opens.

Search for and retrieve an actual landed cost record in Edit mode. The ALC Order Finalize window opens.

The screenshot shows the 'ALC Order Finalize' window. It contains a table with the following columns: Order No., Order Status, Extended ELC, Extended ALC, Percent Variance, ALC Status, and Comments. The first row of data shows Order No. 20401, Order Status Approved, Extended ELC 777, Extended ALC 777, Percent Variance 0.00%, ALC Status Estimated, and Comments Tanya 4. Below the table is a form with fields for Order No. (20401), Order Status (Approved), Method of Finalization (a dropdown menu), Extended ELC (777), Extended ALC (777), Percent Variance (0.00%), ALC Status (Estimated), and Comments (Tanya 4). There are buttons for 'Apply', 'OK', 'ALC Detail', and 'Cancel'.

Order No.	Order Status	Extended ELC	Extended ALC	Percent Variance	ALC Status	Comments
20401	Approved	777	777	0.00%	Estimated	Tanya 4

Order No. Order Status Method of Finalization

Extended ELC Extended ALC Percent Variance

ALC Status Comments

ALC Order Finalize Window

1. Select the record that you want to finalize.
2. In the Method of Finalization field, select how you want to record the actual landed costs.
3. In the Comments field, enter a comment as necessary, or click the comments button and enter a comment.
4. Click **OK** to save your changes and close the window.

Search for Actual Landed Costs at the Purchase Order/Item Level

Navigate: From the main menu, select Finance > ALC Maintenance. The ALC Selection window opens.

The screenshot shows the 'ALC Selection' window with the title bar '(alcfind)'. The window contains a search form with the following fields and controls:

- Action:** A dropdown menu currently set to 'View'.
- Order No.:** A text input field with a magnifying glass icon.
- Obligation:** A text input field with a magnifying glass icon.
- Entry No.:** A text input field with a magnifying glass icon.
- Division:** A text input field with a magnifying glass icon.
- Group:** A text input field with a magnifying glass icon.
- Department:** A text input field with a magnifying glass icon.
- Class:** A text input field with a magnifying glass icon.
- Subclass:** A text input field with a magnifying glass icon.
- Item:** A text input field with a magnifying glass icon and a small icon to its right.
- Pack:** A text input field with a magnifying glass icon and a small icon to its right.
- Quantity:** A text input field.
- Status:** A dropdown menu.
- Error:** A dropdown menu.
- Vessel:** A text input field with a magnifying glass icon.
- Voyage/Flight:** A text input field with a magnifying glass icon.
- Est. Depart. Date:** A text input field with a magnifying glass icon.

At the bottom of the window, there are five buttons: 'OK', 'Search', 'Back', 'Refresh', and 'Close'.

ALC Selection Window

1. Enter criteria as desired to make the search more restrictive.
2. Click **Search**. The ALC Selection window displays the actual landed cost records that match the search criteria.

3. Select a task:

- To perform another search, click **Refresh**.
- To display the ALC details, select a record and click **OK**. The Actual Landed Cost Header window opens.

Actual Landed Cost Header Window

4. Click Close to close the window.

Search for Actual Landed Costs by Purchase Order

Navigate: From the main menu, select Finance > ALC Order Finalize. The ALC Order Find window opens.

ALC Order Find Window

1. In the Action field, select either Edit or View.
2. Enter additional criteria as desired to make the search more restrictive.
3. Click **Search**. The actual landed cost records that match the search criteria appear in the ALC Order Finalize window.
