

Oracle® Retail Labels and Tags

Release Notes

Release 13.3

E17868-01

January 2011

This document highlights the major changes for Release 13.3 of Oracle Retail Labels and Tags.

Overview

Oracle Retail Labels and Tags is a module of Oracle Retail Back Office that provides the ability to print tags and labels at individual stores, using templates provided by the corporate headquarters. The list of items that require a tag or label can come from either corporate headquarters or from the individual store. Lists from corporate headquarters can be sent at any time and can also be triggered by an event such as the addition of new items or price promotions.

Oracle Retail Labels and Tags uses AccessVia to facilitate the creation of templates.

This document also pertains to Oracle customers who have licensed Oracle Retail Signs in conjunction with Oracle Retail Labels and Tags. The Oracle Retail Labels and Tags product restricts printing not to exceed six square inches. To print a size greater than six square inches, the customer must license Oracle Retail Signs.

Hardware and Software Requirements

See the *Oracle Retail Back Office Installation Guide* for information about the following:

- Hardware and software requirements
- Oracle Retail application software compatibility

Integration Enhancements

The following integration enhancement is included in this release.

Integration with Oracle Retail Merchandising

The integration between Oracle Retail Merchandising and Oracle Retail POS Suite has been tested for this release. Oracle Retail Point-of-Service, Oracle Retail Back Office, and Oracle Retail Central Office are integrated with the following Oracle Retail Merchandising products:

- Oracle Retail Merchandising System
- Oracle Retail Price Management
- Oracle Retail Sales Audit

For information on the integration, see the *Oracle Retail POS Suite/Merchandising Operations Management Implementation Guide*.

Functional Enhancements

The following functional enhancements are included in this release:

- Batch expiration date is added to the corporate batch screens.
- Corporate batches can be removed on the Pending Batches and Printed Batches screens.
- The template type for an item can be changed on the Mobile Labels and Tags Add Item Detail screen.

Technical Enhancements

The following technical enhancements are included in this release.

Language Enablement

New translations are added to Oracle Retail Labels and Tags.

New Translations

For Release 13.3, Oracle Retail Labels and Tags is translated into the following languages, in addition to the language translations supported in Release 13.2:

- Croatian
- Dutch
- Greek
- Hungarian
- Polish
- Swedish
- Turkish

Supported Translations

Oracle Retail Labels and Tags is now translated into all of the following languages:

- Chinese (Simplified)
- Chinese (Traditional)
- Croatian
- Dutch
- English
- French
- German
- Greek
- Hungarian

- Italian
- Japanese
- Korean
- Polish
- Portuguese (Brazilian)
- Russian
- Spanish
- Swedish
- Turkish

Oracle Retail Back Office Reports

The reports available through Oracle Retail Back Office are translated into the supported languages.

Oracle WebLogic Server 11g (Java 6)

For Release 13.3, Oracle Retail Labels and Tags uses Oracle WebLogic Server 11g, which replaces Oracle Application Server used in previous releases. Oracle WebLogic Server 11g is the industry's most comprehensive, standards-based platform for developing, deploying, and integrating enterprise applications. It provides the foundation for an application grid, an architecture that enables enterprises to pool and share resources with dynamic adjustment across multiple applications, to lower operational costs.

Oracle WebLogic is the application server supported for the Oracle stack. See the *Oracle Retail Back Office Installation Guide, Volume 1 - Oracle Stack* for more information.

IBM WebSphere Application Server

IBM WebSphere is the application server supported for the IBM stack. See the *Oracle Retail Back Office Installation Guide, Volume 2 - IBM Stack* for more information.

Mozilla Firefox

Mozilla Firefox is a supported Web browser for this release.

Known Issues

The following issue occurs in this release.

Oracle Configuration Manager Not Available on the IBM Stack

Oracle Configuration Manager (OCM) does not install correctly because IBM JRE is used on the IBM stack. You may see a *No Connection to the Internet* error message even if you do have a connection. In this case, select Cancel. Oracle Retail Labels and Tags will install correctly, but OCM will not be available.

Related Documentation

For more information, see the following documents in the Oracle Retail Labels and Tags Release 13.3 documentation set, Oracle Retail Back Office Release 13.3 documentation set, Oracle Retail POS Suite Release 13.3 documentation set, or Oracle Retail Release 13.3 documentation set:

Supplemental Documentation

The following documents are available through My Oracle Support. Access My Oracle Support at the following URL:

<https://support.oracle.com>

Oracle Retail POS Suite Implementation Guide, Volume 2 - Security (Doc ID 1277445.1)

This implementation guide volume describes specific security features and implementation guidelines for the POS Suite products.

Oracle Retail POS Suite Implementation Guide, Volume 3 - Base Product Extension Support (Doc ID 127455.1)

This implementation guide volume describes the procedures to create modified installers which can be used to build and extend the POS Suite applications.

Oracle Retail Upgrade Guide (Doc ID 1073414.1)

Because the upgrade process varies among Oracle Retail applications, the *Oracle Retail Upgrade Guide* describes the approach that each Oracle Retail application takes for the upgrading, or uptaking, process, as well as product-specific upgrade assumptions and considerations. Actual procedures for the upgrade may be included in the application's Installation Guide.

Documentation Accessibility

Our goal is to make Oracle products, services, and supporting documentation accessible to all users, including users that are disabled. To that end, our documentation includes features that make information available to users of assistive technology. This documentation is available in HTML format, and contains markup to facilitate access by the disabled community. Accessibility standards will continue to evolve over time, and Oracle is actively engaged with other market-leading technology vendors to address technical obstacles so that our documentation can be accessible to all of our customers. For more information, visit the Oracle Accessibility Program Web site at <http://www.oracle.com/accessibility/>.

Accessibility of Code Examples in Documentation

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/support/contact.html> or visit <http://www.oracle.com/accessibility/support.html> if you are hearing impaired.

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

- (i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
- (iii) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (iv) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
