

Oracle® Retail Analytic Parameter Calculator for Markdown Optimization Release 13.2.2

Release Notes

Release 13.2.2

April 2011

Welcome to Oracle® Retail Analytic Parameter Calculator for Markdown Optimization (APC-MDO) Release 13.2.2.

This document highlights the noteworthy defect fixes and known issues in this release. It includes the following sections:

- [Hardware and Software Requirements](#)
- [Upgrading to Analytic Parameter Calculator for Markdown Optimization](#)
- [Noteworthy Fixes in This Release](#)
- [Known Issues](#)
- [Related Documents](#)
- [Oracle Retail Documentation on the Oracle Technology Network](#)
- [Customer Support](#)
- [Review Patch Documentation](#)
- [Documentation Accessibility](#)

APC-MDO 13.2.2 Build IDs

Table 1 *Package Matrix Build IDs*

Component Name	Version Number
APC-MDO	APC_MDO-13.2.2-269-201104080200-261837
Installer	Installer-3.3.2-397-201104142030-262097
MDO	Price-13.2.2-392-201104150700-262101
COE	Coe-13.2.2-342-201104150530-262101

Hardware and Software Requirements

For more information on the hardware and software requirements, see the *Oracle Retail Analytic Parameter Calculator for Markdown Optimization Installation Guide*.

Upgrading to Analytic Parameter Calculator for Markdown Optimization

For more information on upgrading to APC-MDO Release 13.2.2, see the *Oracle Retail Analytic Parameter Calculator for Markdown Optimization Installation Guide*.

Noteworthy Fixes in This Release

The following bugs have been fixed in this release:

- **Bug 11694199** – The Propagation stage performance has been significantly improved.
- **Bug 11694558** – APC-MDO now uses an external properties file to control all the default values and validation ranges within the user interface. For more information, refer to the *Oracle Retail Analytic Parameter Calculator for Markdown Optimization Configuration Guide*.
- **Bug 11695007** – The APC-MDO backend process now uses Oracle Wallets. If you followed instructions from the Installation Guide to set up the application, you no longer need to perform any manual configurations to start the process.

Known Issues

The following known issue has been identified in this release:

- **Bug 11700481** – The user interface validation on the Season Code Setup End Bucket fields does not allow users to enter zero as a value when a previous bucket value contains a number greater than zero. This is because the validation requires all the bucket values to be entered in the increasing order.

Related Documents

For more information about APC-MDO, see the following documents in the Oracle Retail Analytic Parameter Calculator for Markdown Optimization documentation set:

- *Oracle Retail Analytic Parameter Calculator for Markdown Optimization Configuration Guide*
- *Oracle Retail Analytic Parameter Calculator for Markdown Optimization Installation Guide*

Oracle Retail Documentation on the Oracle Technology Network

In addition to being packaged with each product release (on the base or patch level), all Oracle Retail documentation is available on the following Web site (with the exception of the Data Model which is only available with the release packaged code):

http://www.oracle.com/technology/documentation/oracle_retail.html

Documentation should be available on this Web site within a month after a product release. Note that documentation is always available with the packaged code on the release date.

Customer Support

To contact Oracle Customer Support, access My Oracle Support at the following URL:

<https://support.oracle.com>

When contacting Customer Support, please provide the following:

- Product version and program/module name
- Functional and technical description of the problem (include business impact)
- Detailed step-by-step instructions to recreate
- Exact error message received
- Screen shots of each step you take

Review Patch Documentation

If you are installing the application for the first time, you install either a base release (for example, 13.1) or a later patch release (for example, 13.1.2). If you are installing a software version other than the base release, be sure to read the documentation for each patch release (since the base release) before you begin installation. Patch documentation can contain critical information related to the base release and code changes that have been made since the base release.

Documentation Accessibility

Our goal is to make Oracle products, services, and supporting documentation accessible to all users, including users that are disabled. To that end, our documentation includes features that make information available to users of assistive technology. This documentation is available in HTML format, and contains markup to facilitate access by the disabled community. Accessibility standards will continue to evolve over time, and Oracle is actively engaged with other market-leading technology vendors to address technical obstacles so that our documentation can be accessible to all of our customers. For more information, visit the Oracle Accessibility Program Web site at <http://www.oracle.com/accessibility/>.

Accessibility of Code Examples in Documentation

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/support/contact.html> or visit <http://www.oracle.com/accessibility/support.html> if you are hearing impaired.

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

- (i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
- (iii) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (iv) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
