

Oracle® Retail Micros Retail-J

Release Notes

Release 12.1_FP1_SP5

January 2018

This document highlights the major changes for Release 12.1_FP1_SP5 of Oracle Retail Micros Retail-J.

Note: The rebranding for the latest version of this documentation set is in development as part of post MICROS acquisition activities. References to former MICROS product names may exist throughout the existing 12.1.x documentation set.

Release Overview

This document contains the release notes for Oracle Retail MICROS Retail-J version 12.1_FP1_SP5 application and is regarded as a general maintenance release.

This release enables the retailer to process end-user requests for data access and deletion of individual data records stored in Oracle Retail MICROS Retail-J.

Retail-J now provides API to fetch customer data or employee data given the customer identifier or the employee identifier respectively. It also provides the API to delete the employee data or the customer data stored by Oracle Retail MICROS Retail-J.

Each and every afore-mentioned API calls are logged for auditing purposes.

Certified Platforms

The Oracle Retail MICROS Retail-J version 12.1_FP1_SP5 release is supported on the following platforms.

Type	Software and Version
Operating System	<ul style="list-style-type: none">Windows 7 Professional *64 bitWindows 8.1.Pro *64 bitWindows 8Linux
Database ¹	<ul style="list-style-type: none">Oracle 11gMicrosoft SQL Server 2008 SP3Microsoft SQL Server R2 SP1Microsoft SQL Server 2012Microsoft SQL Server 2014 *64 bitMySQL 5.6
Web Application Server	<ul style="list-style-type: none">Tomcat 7
Browsers	<ul style="list-style-type: none">Supported: Internet Explorer 9, Firefox

Retail-J Web Services

DataPrivacyServlet, a servlet with a set of API to read Employee data and Customer Data and to delete the same, has been added.

¹ All Oracle Retail MICROS Retail-J databases support unicode or double-byte data

The servlet provides four methods (namely, `getCustomerData`, `getEmployeeData`, `deleteCustomerData` and `deleteEmployeeData`), to fetch and delete the data for both employee and customer.

Access Customer Data:

`https://<hostname>:<port>/rjWebServices/DataPrivacyServlet?method=getCustomerData&deviceID=<deviceID> &uid=<userID>&pwd=<password> &id=<customerID>`

Deleting a Customer

```

https://<hostname>:<port>/rjWebServices/DataPrivacyServlet?method=deleteCustomerData&deviceID=<deviceID> &uid=<userID>&pwd=<password> &id=<customerID>
<Result>Processing delete.</Result>

```

Deleting Employee Data

```

https://<hostname>:<port>/rjWebServices/DataPrivacyServlet?method=deleteEmployeeData&deviceID=<deviceID> &uid=<userID>&pwd=<password> &id=<employeeID>
<Result>Processing delete.</Result>

```

The userID, and password are the credentials of the person accessing it.

Note: Upon customer deletion, the deletion of a related basket can be controlled based on a flag called 'DeleteTransactionForPrivacy', added to organization.

The deleteTransactionForPrivacy can be controlled in the organization as follows:

Data Model Changes

A table called DataPrivacyEvents has been added to store the events triggered by invoking getCustomerData, getEmployeeData, deleteCustomerData, deleteEmployeeData methods. The events are Access_Customer Event, Access_Employee event, Forget_Customer event and forget_employee event.

DataPrivacyServlet logs every call to DataPrivacyEvents table based on the method invoked.

Activity Log

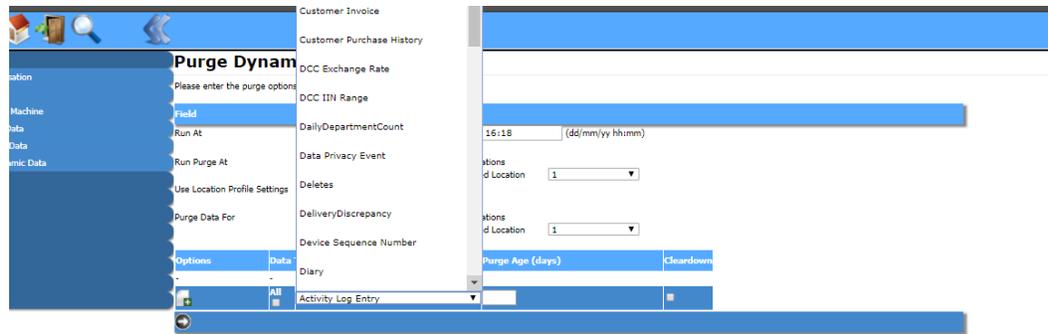

The DataPrivacy Events would also make it to the Activity log and thus be available for audits.

An activity log entry for a data privacy event would look like:

	04/01/18 11:41	Insert	DataPrivacyEvent	221120180104114126141	ADMIN	ALL.RJ13
	04/01/18 11:41	Card Number View	ReportCriteria	Card Details	ADMIN	ALL.RJ13
	04/01/18 11:40	Card Number View	ReportCriteria	Customer Spend History Report	ADMIN	ALL.RJ13

Purging Events

The Data Privacy Events are purgable just like other entities as part of purge dynamic data.

Technical Enhancements

The technical enhancement described below is included in this release:

Internal Reference Number	Description
MRJ-28062	Secure by Default

Known Issues

For a list of known issues, speak with your Oracle product representative.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

- (i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
- (iii) the software component known as **Access Via**™ licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (iv) the software component known as **Adobe Flex**™ licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
