

Oracle® Retail Convenience Store Back Office

Release Notes

Release 3.6.6

E76465-01

June 2016

This document highlights the major changes for Release 3.6.6 of Oracle Retail Convenience Store Back Office.

Note: Prism 2 has been renamed Oracle Retail Convenience Store Back Office as part of the rebranding process. The installed application will continue to be called Prism 2.

- [Overview](#)
- [Functional Enhancements](#)
- [Fixed Issues/Defects](#)
- [Documentation Accessibility](#)

Overview

Oracle Retail Convenience Store Back Office is a complete solution for reconciliation, sales tracking and stock management in the retail environment. With a full sales and purchase ledger and integrated electronic ordering, it provides a powerful end-to-end solution for both wet and dry stock retailing.

Functional Enhancements

The functional enhancements below are included in this release.

RCSBO-23 – Blakemore Ordering File Expired

Spar/Blakemore sites week number file expired in April 2016. This has now been replaced with the new file including up to April 2017.

RCSBO-25 – Incomplete Shift Not Reporting

Incomplete shifts were not being logged in the event log. They will now be recorded correctly in the event log.

RCSBO-27 – Include Latest Iridium Build

The most recent version of the Iridium POS software (15 sr12.0) is now included in the installer.

RCSBO-29 – Allow 3rd Party Support Numbers

New functionality to allow 3rd party support companies to add their customer support details to Prism error messages.

Fixed Issues/Defects

The following defects and issues have been fixed since the previous release:

RCSBO-14 – Stock Update Overwrites Prevent POS Repeat

When a stock update is done to the Iridium2 POS, the Prevent Duplication flag is overwritten. The option to mark items and headings as 'non-repeatable' has been added and this is now sent to the POS correctly.

RCSBO-20 – Error 0 Running Manual Price Review Ordered by Supplier

When ordering a Manual Price Review by Supplier, an Error 0 would occur. This has been resolved.

RCSBO-21 – End Time on Promotions Defaults to the Current Time

When creating a new promotion, the End Time is defaulting to the current time, not '23:59'. This has been corrected.

RCSBO-22 – Error 9 Running Daily Sales

More than 12 sales groups set up would cause an error going into Daily Sales. Prism can now handle up to 20 sales groups in total and will prevent further sales groups being added.

RCSBO-24 – Unbooked Deliveries Show Delivered Status in PLP

Previously Matched EDNs and Delivered stock have not been differentiated. Matched EDNs that have not been saved into stock will now display as 'Unbooked' instead of 'Delivered'.

RCSBO-26 – Error 0 Entering Manual Petty Cash Movements

In limited situations, an error 0 could occur entering manual Petty Cash movements in Daily Sales. This has been resolved.

RCSBO-28 – Remove Legacy MICROS Support Screen

The legacy MICROS support screen has been removed.

RCSBO-30 – Incomplete Shift Caused by Hard Reset on the POS

Fixed an issue that caused an incomplete shift in the back office if the POS was restarted during a transaction.

RCSBO-32 – Overflow Error when Generating Promotion Achievement Reports

If a very large amount of promotions occurred in the selected period, the report could produce an Overflow Error. This has been corrected.

RCSBO-33 – Missing Transactions being Ignored by POSImport

In some circumstances, missing transactions that contained errors were being ignored and shifts were not marked as incomplete. This has been corrected.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

(i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.

(ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.

(iii) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.

(iv) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
