

This document highlights the major changes for Release 132.18 (132R) of Oracle Retail Iridium2.

Release Numbering

For this product suite, MICROS patch releases were given alphabetic suffixes to show their sequence, where 123B is a later patch than 123A. The Oracle release number will be the position of the equivalent letter in the alphabet. For example, 123.3 will be the equivalent of MICROS release number 123.C, and 123.6 will be the equivalent of 123.F. Note that all log files and messages continue to show the MICROS release number.

Overview

MICROS Iridium 2 is an integrated ARTS-based (Association of Retail Technology Standards) automation system that optimizes the operational processes of fuel forecourts and convenience stores. It enables retailers to manage the stock and sale of fuel and dry goods, both locally and remotely.

Hardware and Software Requirements

See *the Oracle Retail Iridium2 Installation Guide* for information about the following:

- Hardware and software requirements
- Oracle Retail application software compatibility

Noteworthy Defect Fixes

This is a summary of the bug fixes in this patch release. This is for retailer information, and no action is required by sites.

Correction for Day End Started Between the Hour and 2 Minutes Past the Hour

A check was introduced in release 132Q to determine whether the day end data returned for the Day End Report is the day being closed. This prevents instances of the previous day's report being printed. A fault when checking within the first 2 minutes of the hour caused the report not to print, and to lock up the POS initiating day end for an hour. This has been corrected.

Correction for OPT Transaction Tax Codes

Where a site using Outside Payment Terminals was configured with the VAT Tax Group for standard VAT products as anything but 1, the setting in the OPT server for the actual Tax group required was not being passed to the back office correctly, making the system VAT calculations wrong. This has been corrected.

Correction for MICROS Promotions and Loyalty

The MICROS promotion system provides the ability to issue and redeem coupons for discounts or partial payment of sales, and the option of a local loyalty system, allowing

site customers to accumulate and spend points, or trigger other offers. Since a site may be operating an EFT system that provides loyalty itself, the automation in the configuration tool TACT that forced the MICROS Promotion system to be the Loyalty system has been removed.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Accessibility of Code Examples in Documentation

Screen readers may not always correctly read the code examples in this document. The conventions for writing code require that closing braces should appear on an otherwise empty line; however, some screen readers may not always read a line of text that consists solely of a bracket or brace.

Accessibility of Links to External Web Sites in Documentation

This documentation may contain links to Web sites of other companies or organizations that Oracle does not own or control. Oracle neither evaluates nor makes any representations regarding the accessibility of these Web sites.

Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit

<http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Value-Added Reseller (VAR) Language

Oracle Retail VAR Applications

The following restrictions and provisions only apply to the programs referred to in this section and licensed to you. You acknowledge that the programs may contain third party software (VAR applications) licensed to Oracle. Depending upon your product and its version number, the VAR applications may include:

- (i) the **MicroStrategy** Components developed and licensed by MicroStrategy Services Corporation (MicroStrategy) of McLean, Virginia to Oracle and imbedded in the MicroStrategy for Oracle Retail Data Warehouse and MicroStrategy for Oracle Retail Planning & Optimization applications.
- (ii) the **Wavelink** component developed and licensed by Wavelink Corporation (Wavelink) of Kirkland, Washington, to Oracle and imbedded in Oracle Retail Mobile Store Inventory Management.
- (iii) the software component known as **Access Via™** licensed by Access Via of Seattle, Washington, and imbedded in Oracle Retail Signs and Oracle Retail Labels and Tags.
- (iv) the software component known as **Adobe Flex™** licensed by Adobe Systems Incorporated of San Jose, California, and imbedded in Oracle Retail Promotion Planning & Optimization application.

You acknowledge and confirm that Oracle grants you use of only the object code of the VAR Applications. Oracle will not deliver source code to the VAR Applications to you. Notwithstanding any other term or condition of the agreement and this ordering document, you shall not cause or permit alteration of any VAR Applications. For purposes of this section, "alteration" refers to all alterations, translations, upgrades, enhancements, customizations or modifications of all or any portion of the VAR Applications including all reconfigurations, reassembly or reverse assembly, re-engineering or reverse engineering and recompilations or reverse compilations of the VAR Applications or any derivatives of the VAR Applications. You acknowledge that it shall be a breach of the agreement to utilize the relationship, and/or confidential information of the VAR Applications for purposes of competitive discovery.

The VAR Applications contain trade secrets of Oracle and Oracle's licensors and Customer shall not attempt, cause, or permit the alteration, decompilation, reverse engineering, disassembly or other reduction of the VAR Applications to a human perceivable form. Oracle reserves the right to replace, with functional equivalent software, any of the VAR Applications in future releases of the applicable program.
