ORACLE AGILE ENGINEERING DATA MANAGEMENT - BUG FIXES FOR AGILE E6.1.2

March 23, 2011

Part No. E22326-01

BUG ID	Product ID	Component	Subject
7106574	4436	BAS	10220 number cycle edb_rol_usr_id definition
7107231	4436	BAS	11052 xedbusr_rst_prd, reversion predecessor inactive, release date
7107296	4436	BAS	10794 xedbusr_tor_ref_rel does not work, if val_from,val_until not empty
7107315	4436	WFL	10823 notifier, watchdog, external mails layout variables, notifications
7107398	4436	BAS	11468 dragdrop, copy of attribute relations, inherited, field contents
7107908	4436	BAS	11295 display settings, classification list, abstract class, hide attributes
7108200	4436	BAS	11581 text template, placeholder, datatype, copy, overwrite
7108202	4436	BAS	11583 text instance, placeholder values, insert, withdrawn, check
7108455	4436	BAS	11373 error in 'xstate_get_ini_lev' (nosuchelementexception:std-prt)
7108508	4436	BAS	11191 ep_grp/grp_chkvaluebeforedel,get wrong field value
7108541	4436	BAS	11398 ep/ewoassignpac, postaction, update mode, copy affected objects
7108659	4436	WFL	10768 workflow, watchdog, split configuration regarding to batch
7108667	4436	WFL	10777 virtual width field c_main_process_id
7108748	4436	BAS	11412 classification list, update on logical field, attribute, not saved
7108823	4436	BAS	11217 query in two attribute fields, result,t_grp_art.att_no, sorting
7110944	4436	BAS	289039:bei Verwendung von cch_get_rec werden Felder geleert
7240450	4436	ORG	suppressing the inheritance in an organization structure is not possible
7410842	4436	UPG	insert wfl process ora-01400: cannot insert null into ("t_prc_dat"."act_ref")
7519247	4436	BSL	LogiView: field v_edb_lgv_dt.name does not exist in lv-var-cfr
7605298	4436	EXCH	xml loader: data import with the external binary loader fails - process hangs -
7653690	4436	CLI	take entry with ampersand blank -field selection menu-search string not quoted
7681040	4436	DOC	file transfer xfile_chg_are - error: file remains in source vault
8201546	4436	DB	LogiView procedure decision tables c_nr exist twice
8204425	4436	BAS	recover bom agg flags new wrong entries e.g. edb-cmg-mas-bui
8204449	4436	BAS	template - place holder value is not copied to other languages
8204483	4436	BAS	set edb-gtm-inh-rls=1 parent attributes gets inherited to child before release.
8205079	4436	CLI	different behavior in java and dtv clients
8326486	4436	CLI	titles of mandatory fields in lists are not displayed red in the java

BUG ID	Product ID	Component	Subject
			client
8354017	4436	BAS	results of LogiView function field_write not displayed in mask of java client
8359431	4436	CLI	in the java-client the relations of a menu or a form definition are not copied
8368734	4436	CLI	combined form sublist scroll to next record - error: ora-01652: unable to extend
8373835	4436	ORG	pdw element list displays objects that should not be visible in current pdw-view
8400316	4436	BAS	client hangs while trying to derive bom from order
8407393	4436	CLI	in java client contents of list masks is first scrolled to top in edit mode
8422158	4436	ORG	moa not really activated at login of a non-manager user
8436432	4436	CLI	In java client it is not possible to insert float values with a comma
8439232	4436	BAS	enhanced security reset password error:iwf_frm_lis(edb-article)" returns error 1
8439428	4436	ORG	pressing access button gives error 'xpdw_frm_acc' (nosuchelementexception:...)
8441963	4436	CLI	Post mask user exit fired after mask was closed and not vice versa
8545239	4436	CLI	java client should support userexit "@sel iwf_brw_ent" to explode the structure
8555414	4436	BAS	double clicking a record in the Java Client doesn't switch to edit mode
8583965	4436	DOC	scrolling in customer's office form with file folder active: java client hangs
8606047	4436	CLI	mask of multi level structure explosion not displayed correctly in Java Client
8620354	4436	CLI	documentation of url linking support not detailed enough
8628891	4436	DOC	'Save to agile' from word/excel with failure when Java Client is down
8629841	4436	BAS	stored queries containing more than one condition may return incorrect results
8667461	4436	VAR	unable to check order specs bom, gives error message.
8724607	4436	BAS	confusing message concerning number of characters needed for password
8736193	4436	BAS	function prt_chk_pwd gives wrong return codes and does not work in java client
8741791	4436	CLI	Batch client dies during eci_rea_rel and eci_rea_doc_his_trx
8768234	4436	DOC	c-function fmslibloaderinterface.checkout" does not support special characters
8796273	4436	BAS	online help - getting started - manager information - menu monitor outdated
8796434	4436	ORG	xtask_chk function deselect all records when leaving - error in function row
8801113	4436	DOC	public vaults must not be used with dfm
8811714	4436	BAS	temporary deleted record - negative c_id - not checked when creating a new c_id
8844030	4436	VAR	variant mgmt: unable to delete order.
8845014	4436	DOC	double encrypted file names, replication error, connections in

2

BUG ID	Product ID	Component	Subject
			close_wait
8855876	4436	DOC	online help for changing windows client is extremely confusing
8856719	4436	BAS	java client classification attribute menu drag drop - LogiView error
8889396	4436	CLI	pre-action- and post-action- userexit executed twice in java client
8908437	4436	BAS	patch caused change in behavior: passwords must be changed on warning date
8924157	4436	INS	support for windows 7
8925734	4436	BAS	item types using wrong c_id when creating bvb_artikel relation
8925833	4436	BAS	item type (edb-article) not deleted when the master record is put to the trash
8930033	4436	CLI	java client: combined query in combined forms not working
8933839	4436	WFL	loading big workflow process - workflow editor hangs
8975647	4436	CLI	java client LogiView field_set_acc hide unhide fields does not work
8976102	4436	WFL	exm_snd_ext: notifier does not send emails if a comma is found in the text (-t)
8983394	4436	BAS	memory leaks in eci certificate handling, eci_get_cer and eci_chk_pwd
9004821	4436	CLI	1off:9002995:hf25/hf17:6.1:6.1:java client eci_connect error connection, hostn
9018820	4436	CLI	eta: handling of long text fields
9027922	4436	BAS	bug in dtv_dmn script for Linux
9035928	4436	CLI	list userexit not fully synchronized
9039712	4436	BAS	scrolling in work request form does not refresh change operations tab
9054803	4436	BAS	standard value for favorites and stored query name for office documents too long
9104009	4436	CLI	user name truncated in progress panel during connect
9117460	4436	CLI	field_set_qry looses query condition in interactively opened mask after refresh
9151132	4436	BAS	item record is updated when inserting the item into a bom
9155648	4436	CLI	quick filter hides query and inserted rows
9159489	4436	CLI	take entry and clear entry do not work if list is sorted on client side
9162826	4436	EXCH	EIP 2.1.1does not work under AIX 5.3
9165361	4436	DOC	file server eif vault checkin/checkout from network / unc path fms client hangs
9165991	4436	CLI	hyper link in lists waits for double click delay
9170255	4436	CLI	office suite pdf-service - error: com.agile.eci.callexception:no widget [err=27]
9170323	4436	CLI	submask (tab) with manager profile can be opened by any user
9175490	4436	DOC	xfile_chk_out #server error: fms-interface: connection failed (errorcode: -305)
9178760	4436	BAS	eci daemon, connect to running public server fails
9192875	4436	BAS	error restoring elements from the recycle bin
9194519	4436	BSL	LogiView lvf mask cannot be closed with button iwf_exi_edt
9196508	4436	CLI	in java client a search for value null in a logical field does not work
9197477	4436	CLI	logical field (checkbox) display does not change correctly with space key

BUG ID	Product ID	Component	Subject
9210205	4436	CLI	ctrl-t in java client opens empty mask
9211474	4436	CLI	key combination ctrl-tab does not work in java client
9211540	4436	CLI	ctrl-f4 does not work in java client with single document interface
9212208	4436	EXCH	EIP 2.2.1 64-bit test manager error: the system cannot find the path specified
9285135	4436	BAS	m-cad connector ecu in batch mode on Windows xp 64bit is unstable
9289002	4436	BAS	LogiView virtual_mode in java client cannot be switched on again after first run
9300719	4436	BSL	LogiView insert_ref in a loop for different father records - wrong pos_no
9311459	4436	EXCH	eip 2.2 cleanup bpm queue - error: unable to execute: bpm cleanup (bpm::queue)
9312282	4436	EXCH	eip 2.2 cleanup eip queue - error: ora-01821: date format not recognized
9312420	4436	BAS	java daemon, number of pre-started servers not correct
9340580	4436	CLI	can't show object in browser on Unix java client
9359054	4436	CLI	auto filter with combined search criteria returns too many elements
9363614	4436	WFL	workflow, reject, forward work item - German umlauts not displayed
9366454	4436	EXCH	eip 2.1.2 with eipservicexmlsync: bad response format
9366878	4436	WFL	workflow error messages - German umlauts not displayed
9370446	4436	WFL	workflow forward work item - comment not written in history
9370738	4436	WFL	workflow - 'wflcompleteworkitem': error during creation of work item with ...
9371347	4436	CLI	context menu does not open when cursor positioned on a field
9408129	4436	CLI	java client cursor flickering long time when updating logic fields
9410756	4436	CLI	when inserting multiple rows in list forms the cursor disappears in the Java Client
9411320	4436	BAS	java client utf-8 update multilingual field German umlaut not displayed correct
9414584	4436	CLI	in java client a query string is not visible during search transaction
9433492	4436	EXCH	eip 2.2 hf39 - cleanup bpm queue - error: unable to execute: bpm cleanup
9433538	4436	BAS	update and release item - server crashes
9434280	4436	BAS	java client configuration parameter wrong field menu displayed
9436876	4436	CLI	function @modify-sort (ctrl-s or ctrl-o) does not work in java client
9445027	4436	CLI	records not deleted when quick filter is active
9445241	4436	CLI	the width of a field in a list in the java client can only be resized up to 99 c
9445448	4436	BAS	poor performance when displaying LogiView trace in a client window
9454756	4436	CLI	LogiView: runtime error in function field_read: row 0 is not in valid range 1-3!
9458920	4436	ORG	moa-assign different organization - error in 'xpdw_men_chg_pro' ... epqins: -948
9462047	4436	CLI	display in footer line "current row/total number of records" is not

BUG ID	Product ID	Component	Subject
			complete
9466951	4436	BAS	hyper field userexit zag_fld_hyp_cal not executed correctly in java client
9467263	4436	INS	enhanced client and db server platform support for e6.1.1
9470073	4436	BAS	userexit documentation of xmodul_prm is incomplete
9471196	4436	BAS	java client user password umlaut - error password incorrect - also with LDAP
9499559	4436	CLI	wrong password change dialog box displayed in web client - login impossible
9503714	4436	CLI	with enhanced security the password change dialog sometimes hangs in the WebClient
9504754	4436	CLI	missing submask in "text instance editor"
9531266	4436	CLI	java client: left aligned representation of currency (money fields)
9535644	4436	CLI	e6 top menu does not support keyboard shortcuts
9539187	4436	CLI	quick filter does not always display correct results
9554548	4436	BAS	mail via notifier: sender is always axalant@agile.com.
9554608	4436	CLI	drag drop into a mask in query mode is possible - two lines in edit mode then
9563370	4436	ORG	moa - create structure - error in 'xpdw_rel_poa' ... epqins: -948
9569800	4436	CLI	cannot view pdf with more than one blank in filename
9583601	4436	BAS	eci function eci_cre_gtm_rec returns error in edit-action-trigger
9596883	4436	EXCH	missing library (libclntsh.so.11.1) in eip 2.2.1 download package
9614020	4436	BAS	eci function eci_upd_gtm_rec -- server crashes
9654681	4436	ORG	moa - delete project - pdw/fatal error in pdwconfiguration.cpp at 186
9662361	4436	WFL	work item missing in inbox after forward - reverts back to forwarder's inbox
9663308	4436	BAS	external mailing does not work
9666863	4436	CLI	button areas in list are too big, and width changes if window is resized
9667947	4436	CHG	origin widget in change management mask is empty
9668268	4436	CLI	no groovy button in .msi-installed java-client
9668427	5681	3DEMPRO	killing viewers axalant server process - Autovue viewer error "file not found"
9668551	4436	VIEW	Java Client internal Autovue viewer tab remains gray - does not display jt file
9672818	4436	BAS	when header form changed using next record buttons, sub form data not refreshed
9674818	4436	CHG	progress indicator t_chk_sta.mod_flag = "y" - work set is already released!
9674824	4436	CLI	search mode cursor not in the first row of a list after deselecting rows
9676706	4436	CLI	web development tool kit doesn't work in e6.1.1
9685359	4436	CLI	menu navigation with keyboard using alt + char not functional in java client
9685617	4436	EXCH	eip 2.2.1 - loopback - could not connect with user session after snapshot
9685828	4436	VAR	multi record editing of variants - update cancel update - record

BUG ID	Product ID	Component	Subject
			remains locked
9693107	4436	CLI	batch client eci server wrapper process does not stop when axalant process stops
9697300	4436	CLI	java-client, check-string, default value, date-format
9701420	4436	CLI	in the java client when in insert mode in a list cursor jumps to the top
9701503	4436	CLI	in the java client when in update or copy mode in a list cursor jumps to the end
9702461	4436	CLI	data found after pipe character '|' is lost after switching focus from field
9707007	4436	BAS	userexit iwf_exi_edt does not work correctly if called from LogiView
9710071	5681	3DEMPRO	View file AutoVue viewer - error "file not found"
9715292	4436	CLI	when changing field focus in edit mode, potential data loss after @ sign
9719283	4436	BAS	field title of date-field is not displayed in mask, if default value is ' . .'
9719540	4436	CLI	incorrect search string deleted if mask has no edit-action-userexit
9728937	4436	ORG	error message when using tasks containing access rules with parameters
9734063	4436	BAS	random key generator uses zero bytes which may cause trouble on string functions
9738466	4436	BAS	iwf_edt_lis does not work if entity has 20 or more constraints
9750921	4436	DOC	userexit "xdocty_change_typ" not described in online help
9752595	4436	CLI	copy-function xcpy_str does not work when called from LogiView
9756313	4436	CLI	heterogeneous structure explosion shows a ? in case of huge amount of data
9765982	4436	BAS	colored field titles on mask components disappear after return from submask
9769098	4436	CHG	progress indicator t_chk_sta.mod_flag = "y" undo change operation fails
9772612	4436	CHG	errors in userexit xcps_vrf_bom_pos_pra when saving structure position
9773008	4436	CHG	position of list masks cannot be changed inside the monster mask
9773190	4436	CHG	record selection in monster mask list is first displayed when field was left
9773443	4436	CHG	monster mask: layout of filter mask is not correct and cannot be adapted
9780744	4436	DOC	file server client crashes fast load eci_cho_fil_lst big assembly (~ 600 files)
9790036	4436	EXCH	huge data export ora-24817: unable to allocate the given chunk for current lob
9791015	4436	CLI	open a sub form (mask component) with task just displays a question mark
9791243	4436	CLI	field access cannot be updated in edit action trigger
9791369	4436	DOC	Office Suite property exchange relation - runtime error in function execute syntax error
9799612	4436	BAS	wrong item gets focus when revising an item while quick filter is active
9804501	4436	CHG	releasing item revisions via work resets status of predecessor

BUG ID	Product ID	Component	Subject
			version withdrawn
9808310	4436	CHG	release item between two released item-revisions - error in 'xchg_cpl_set_pst' .
9812259	4436	BAS	eai.log error - com.agile.er.axalant.axalant entity record cannot be cast to ...
9822033	4436	CLI	wrong field titles after hiding columns by db-procedure called through LogiView
9822363	4436	EXCH	convert loader files for the binary loader does not work correctly
9823044	4436	CHG	assigning work order to a product-variant-specification relation in update mode
9826244	4436	DB	update or insert in vpd environment returns error ora-04043
9827902	4436	BAS	insert a class structure relation with LogiView command insert_ref returns error
9835664	4436	CLI	selected record looses focus after status change and mask jumps to first record
9836192	4436	BAS	lgv_edt_run does not work in query mode in java client
9836257	4436	CLI	java-client, field-update, pull-down menu only,
9872333	4436	BAS	java client: pre-mask trigger is not executed in LogiView mask (lvf dialog mask)
9877695	4436	CLI	when undocking a window it should have the focus and stay before the application
9884665	4436	VAR	order bom parallel structure error in 'xcps_prl_shw_ord_bom' no such field exception
9898807	4436	BAS	blobs from linked table not displayed in the java client
9902820	4436	BAS	insert into class-item-relation has poor performance for certain classes
9910902	4436	BAS	exm_snd_ext /mailer=notifier leads to server crash
9919171	4436	ORG	with moa activated father access is not checked on updating relations
9922887	4436	CLI	xatt_prm returns error in java client browser only
9923379	4436	DOC	file-server stops caused by rpc.dll
9930062	4436	ORG	tolerance correction creates wrong records in t_org_str
9950573	4436	DOC	checkout with edb-fms-cko-no-lck enabled can cause 0-byte files
9955713	4436	CLI	userexit 'lng_set_act_usr' does not work correctly in a Java Client-toolbar
9958075	4436	CHG	error in 'xcps_vrf_sgl_bom' if an inactivate operation is executed by cps verify
9958505	4436	CHG	monster mask: delete query value in filter mask shows error message
9972324	4436	CLI	java client hangs in closed edit mode
9973089	4436	UPG	synchronize step skips tables in case view exists in different db schema
10012981	4436	EXCH	eip 2.2.1 - cleanup task does not run - eai.log: waiting for 1000ms
10036952	4436	CLI	web client checkin checkout - fms-cli-dll - fms interface: port creation failed
10044640	4436	VIEW	access rights on records in edb-pvm-dms
10061942	4436	DOC	file-server-process shows loss of sockets
10062076	4436	INS	upgrade from e6.1.0 to e6.1.1 oas deployment and create new

BUG ID	Product ID	Component	Subject
			application fails
10068918	4436	BAS	eci_ins_typ, eci_upd_typ leads to server crash when edit-act-usx more 255char
10069015	4436	CLI	file picker "file_choose" called with LogiView does not allow multiple selection
10070528	4436	DOC	fallback for ep_ddm_site
10070626	4436	BSL	crash on calling LogiView function file_choose with too many file extensions
10070968	4436	CHG	text instance wrong or missing when executing respecify for 'replace 1:1 all'
10077928	4436	CLI	check string 'a' is not working in the java client
10078474	4436	CLI	switch user data language - lng_set_act_usr - date selection wrong date format
10086698	4436	VAR	modular bom variants double click one variant sets all variants into edit mode
10097230	4436	DOC	fms client (fms_cli) process remains after stopping axalant server process
10107252	4436	CHG	menu for change operations includes all possible values - type not considered
10121300	4436	CHG	specifying a change operation create: structure positions cannot be selected
10130331	4436	CLI	in a modal choice mask a list of unwanted messages comes up
10130438	4436	CLI	xedb_hierarcy_ver does not open the structure mask - causes LogiView error
10134067	4436	CLI	java client hangs when scrolling in group selection field
10140328	4436	ORG	multilevel structure explosion without checking moa access rights
10140956	4436	CLI	after drag drop mask does not enter edit mode correctly
10144611	4436	DOC	fallback for ep_ddm_site , AutoVue-integration
10144927	4436	BAS	eip transfer is not working with the product configurator
10148336	4436	BAS	entire status change dialog displayed in user data language; should be adaptable
10152637	4436	BAS	xsml_chk_dup does not allow items to be classified in different classes
10164129	4436	BAS	unwanted query execution in t_grp_art if no class is found
10164531	4436	BAS	unwanted query execution in classification list when tab is changed
10169127	4436	CLI	radio buttons in java client do not clear for records with 'no value'
10181328	4436	CLI	https is not working for web client and wdt applications
10181815	4436	CLI	agile e6.1.1 hf0026 batch client connection to server dies after 15 minutes
10184397	4436	CLI	changing a sub list with LogiView does not work after a tab switch
10184645	4436	CLI	menu button: deleting the current row does not work
10193523	4436	BAS	from heterogeneous structure tab the main form opens instead of the type form
10201070	4436	BAS	userexit xedbusr_frr_upd_val returns error when t_doc_dat.val_from is empty
10205759	4436	CLI	browser opened with iwf_brw_ent @act does not open mask when clicking record
10209668	4436	BAS	the general tab of form edb-cfg-cfr looses fields when changing

BUG ID	Product ID	Component	Subject
			tabs
10213208	4436	CHG	function 'move to set' displays released work sets (status has revisioning flag)
10213877	4436	CHG	insert of change operation: change in field 'aenderungsvorgang' is not saved
10214483	4436	WFL	complete work item, activity - error xml-20201: (fatal error) expected name
10217849	4436	CLI	open access form on affected objects tab does not work correctly in the java cli
10221092	4436	CLI	select-action-userexit of main form not always executed after tab change
10221771	4436	CLI	function eci_sel_rel does neither refresh nor close widget
10224665	4436	BAS	wrong records inserted with active quick filter and applying ctrl-c and ctrl-v
10238233	4436	DOC	excel, save to Agile PLM if cursor is in input line of Excel
10243046	4436	CLI	internal browser is not updating levels 3 and deeper on f5 in the java client
10262519	4436	CLI	LogiView function field_write sets records into edit mode without write access
10265226	4436	BAS	LDAP activated - used ports will not be closed correctly
10265235	4436	BAS	poor performance with java client at status change of registration relation
10265509	4436	CLI	batch client does not properly shut down in eci server mode
10296500	4436	CHG	actual flag, documents, rollback of deleted new version from trash basket
10300690	4436	BSL	LogiView command 'sel_value' returns a wrong value if no record is found
10302397	4436	BSL	java client hangs when using ask_mes in query mode (count) (in pre-action-usx)
10316735	4436	BSL	with insert_ref relation records get wrong pos_no (mask limit not removed?)
10322301	4436	CHG	message 'object not under change management control' when copying to new number
10323640	4436	CLI	function "delete all search entries" no longer works
10349342	4436	CLI	query result is sometimes wrong when switching tabs
10393540	4436	CLI	search in a mask opened by hyperlink is not possible; c_id kept as query value
10402245	4436	BAS	not enough timestamp in edb_main for tracing purposes
10410121	4436	CLI	using http protocol /plm-api-axis/services does not store German umlauts correct
11064128	4436	TEC	java-daemon, clean-up of old processes, accepting new requests
11071201	4436	INSTALL	unused server process does not shutdown automatically
