## Licensed Products, Restricted Use Licenses, and Prerequisite Products

---

Certain Oracle licensed products require valid licenses for other Oracle products; licenses for these other Oracle products are included with your core license. Included licenses give you the rights to functionality limited to what is needed for your core licensed product; these are referred to as *Restricted Use Licenses*. In addition, some products require that you install other Oracle products; these are referred to as *Prerequisite Products*. The following topics identify what technologies are included within each core product license and also any other products you need to install in order to fully use the core product. Please see you Oracle Sales Representative for details.
