

Oracle® AutoVue Integration SDK

Release Notes

Release 21.1.0.4

F86930-02

April 2025

For the most up-to-date version of this document, go to the Oracle AutoVue Documentation Web site on the Oracle Technology Network (OTN)

<https://www.oracle.com/technetwork/documentation/autovue-091442.html>.

Introduction

AutoVue Integration Software Development Kit (ISDK) is designed for Oracle partners and third-party integrators to develop new integrations between AutoVue server and enterprise systems like Document Management System (DMS) or Product Lifecycle Management (PLM). The purpose of the integration is to enable communication between AutoVue and the enterprise systems as well as to integrate AutoVue's capabilities into their environments. The ISDK includes a sample integration of a simplified file system management (filesystem). This sample integration is a starting point for a new integration implementation and is a tool to help you become more familiar with the AutoVue Integration SDK.

Figure 1 AutoVue ISDK

Platforms

Operating Systems that are certified in this release:

- ▣ Windows Server 2022—64-bit
- ▣ Windows Server 2019—64-bit
- ▣ Redhat Enterprise Linux 9.X (x86_64), 8.X (x86_64), and 7.X (x86_64) 64-bit
- ▣ Oracle Linux 9.X (x86_64), 8.X (x86_64), and 7.X (x86_64) 64-bit

System Requirements

- ▣ Oracle AutoVue 21.1.0.4.
- ▣ Latest secure version of Java for Filesys Sample, and ISDK Skeleton.
- ▣ Oracle WebLogic Server 12cR2[12.2.1.4.0].
- ▣ Any other application server that supports Servlet 3.1.0 and up may work but aren't certified by Oracle.

- Oracle Enterprise Pack for Eclipse.
- Web browsers supported by Oracle AutoVue 21.1.0.4.

Documentation

All ISDK documentation (with the exception of JavaDocs which is included with the ISDK) can only be found on the AutoVue Documentation Web site on the Oracle Technology Network (OTN)

<https://www.oracle.com/technetwork/documentation/autovue-091442.html>.

Overview and Installation Guide

This document provides an overview of ISDK components, high-level overview of the ISDK, and a step by step procedure to set up a project in Eclipse IDE and how to run the sample integration.

JavaDocs

Describes Oracle AutoVue ISDK Framework API. JavaDocs are included with the ISDK

Technical Guide

Guides integrators when implementing a new integration or upgrading an existing integration.

Security Guide

Provides guidelines on how to secure the ISDK.

Acknowledgments

List the third-party components used in Oracle AutoVue line of products.

Included in Media Pack

This media pack includes ISDK in the form of a zipped package that you can install on Linux and Windows platforms.

Refer to the *Overview and Installation Guide* for a description about ISDK components after unzipping the media package.

Upgrading

Refer to the *Technical Guide* for information on upgrading your integration to work with Oracle AutoVue 21.1.0.4.

Known Issues

- Files checked into Filesys repository at the root level will not load in the AutoVue client.
- In the sample Filesys project, if saving a new workflow markup, the value of Markup Type on Markup Save dialog does not take effect.

- To initiate or join a meeting in RTC demo, user must enter login information in an Authentication dialog.
- Both AutoVue server and Vuelink must run on a recent version of Java ie Java 8u381 and up. Oracle recommends to always use the latest version of Java on your system.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.
