

Simplify the Complexity of Corporate Systems

On Average...

Multinational companies have

Resulting in...

Higher maintenance and upgrade costs

Lack of control and reduced visibility

Lengthy implementation cycles

Limited agility & speed to innovate

Therefore...

70%

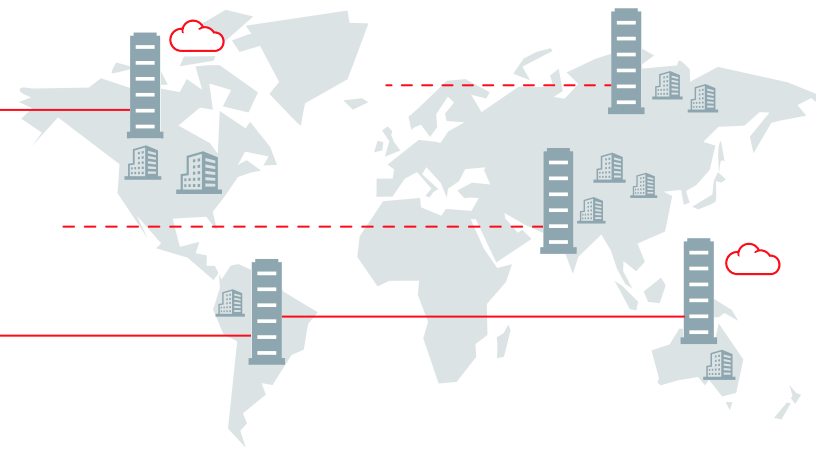

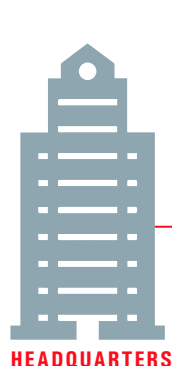

of companies with 1,000 employees desire a single ERP system³

Although rationalizing this with existing on-premise ERP is difficult & expensive

Simplify Complexity with Cloud

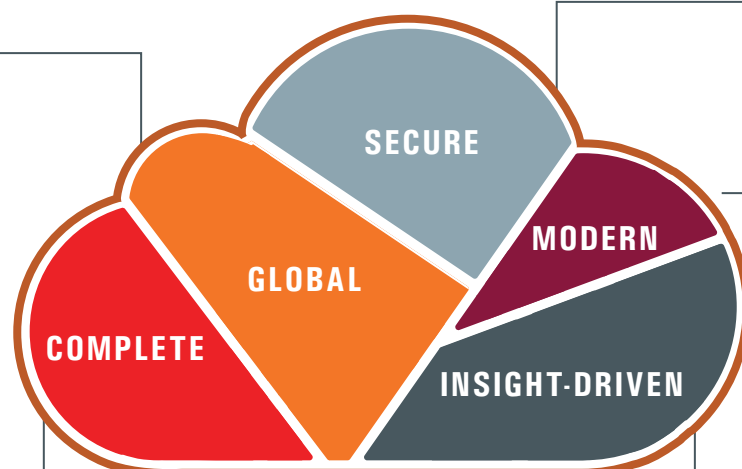

Deliver to headquarters the visibility it wants and to subsidiaries the flexibility they need

Discover the Digital Leaders' Reality...

No limits on expansion and maintain control with confidence for head office

One cloud for your entire business with flexibility and low cost of ownership for subsidiaries

Enterprise grade security and compliance

Inbuilt agility with native collaboration, mobile and embedded analytics

The right information the right way
