

Name list-javamail-resources – lists the existing JavaMail session resources

Synopsis list-javamail-resources [--help [--target *target*]]

Description The list-javamail-resources subcommand lists the existing JavaMail session resources.

This subcommand is supported in remote mode only.

Options --help

--?

Displays the help text for the subcommand.

--target

Do not specify this option. This option is retained for compatibility with other releases. If you specify this option, a syntax error does not occur. Instead, the subcommand runs successfully and the option is silently ignored.
