

# Report for Java EE 8 survey - SCRUBBED

## 1. Response Counts

2. For this reason we would like to kindly ask you to clearly identify yourself.

Name:

Email address:

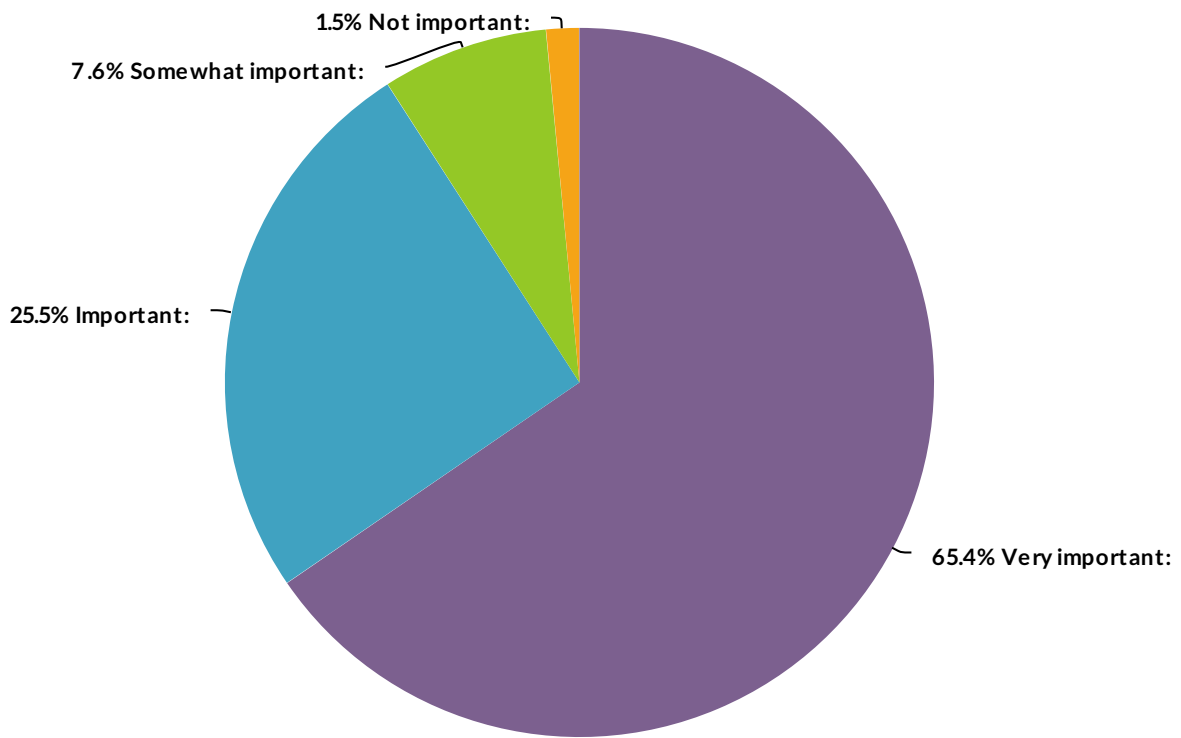

### 3. Can we contact you for follow-up questions?

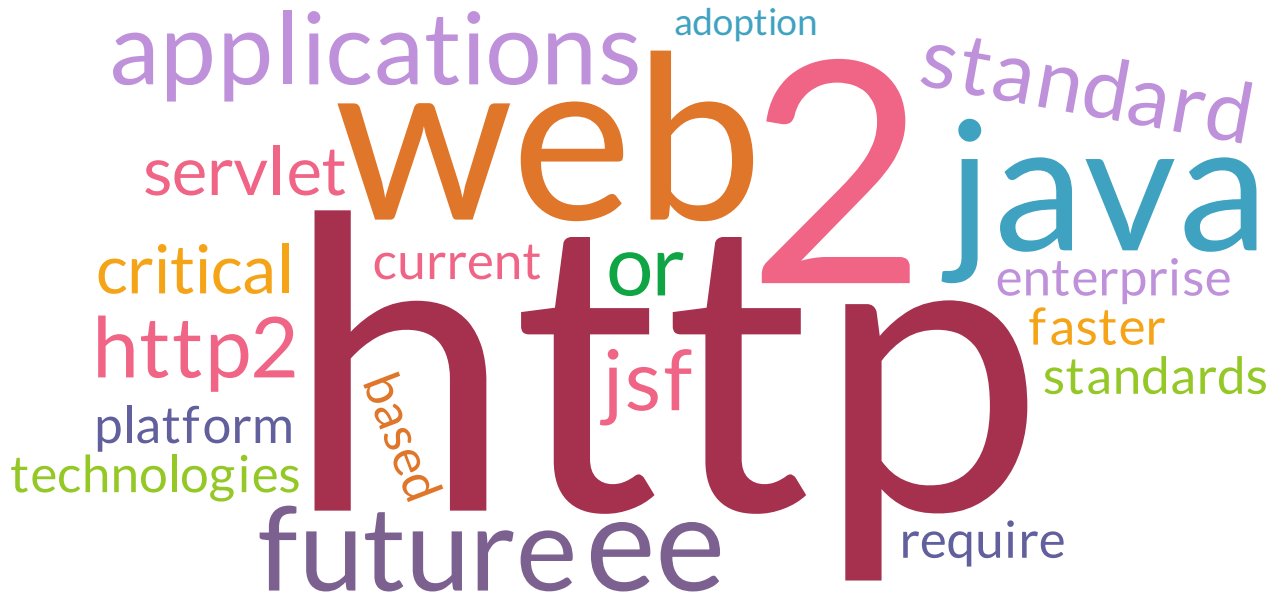

Value	Percent	Count
Yes	69.7%	535
No	30.3%	233
Total		768

#### 4. How important is it to bring HTTP/2 support to Java EE?

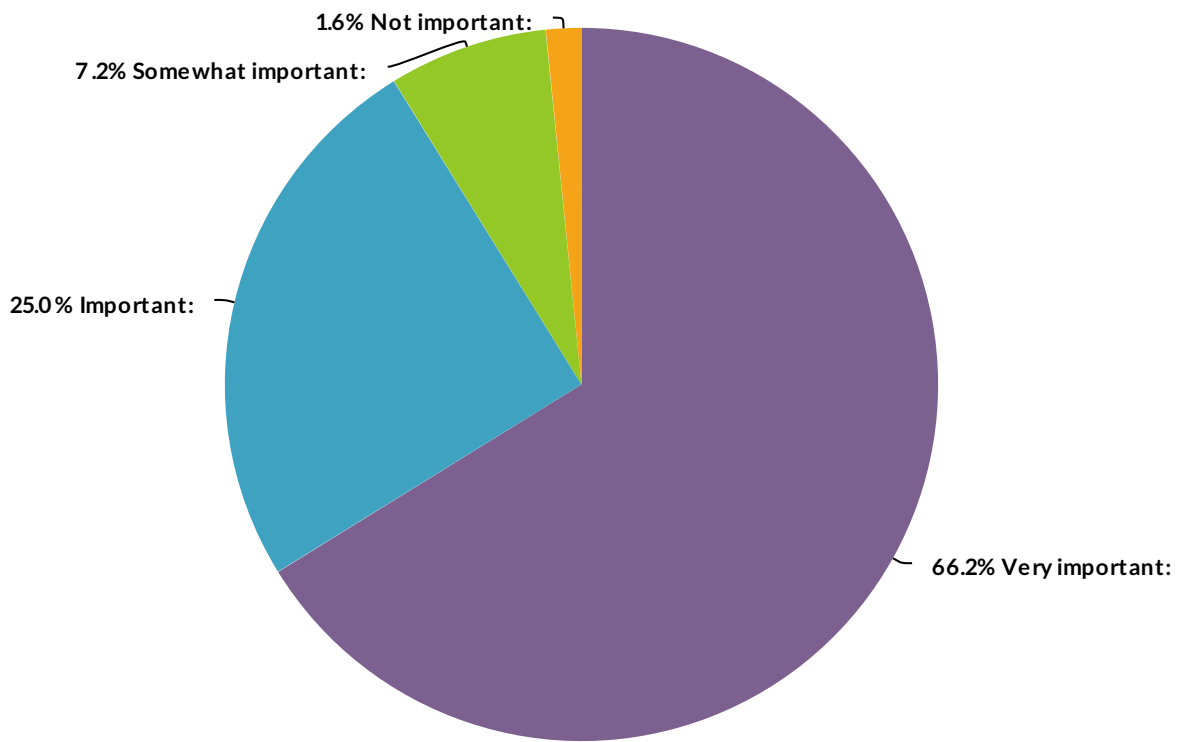

Value	Percent	Count
Very important	65.5%	537
Important	25.5%	209
Somewhat important	7.6%	62
Not important	1.5%	12
<b>Total</b>		<b>820</b>

5. Comments:

## 6. How important is it to fully align Java EE with Java SE 8?

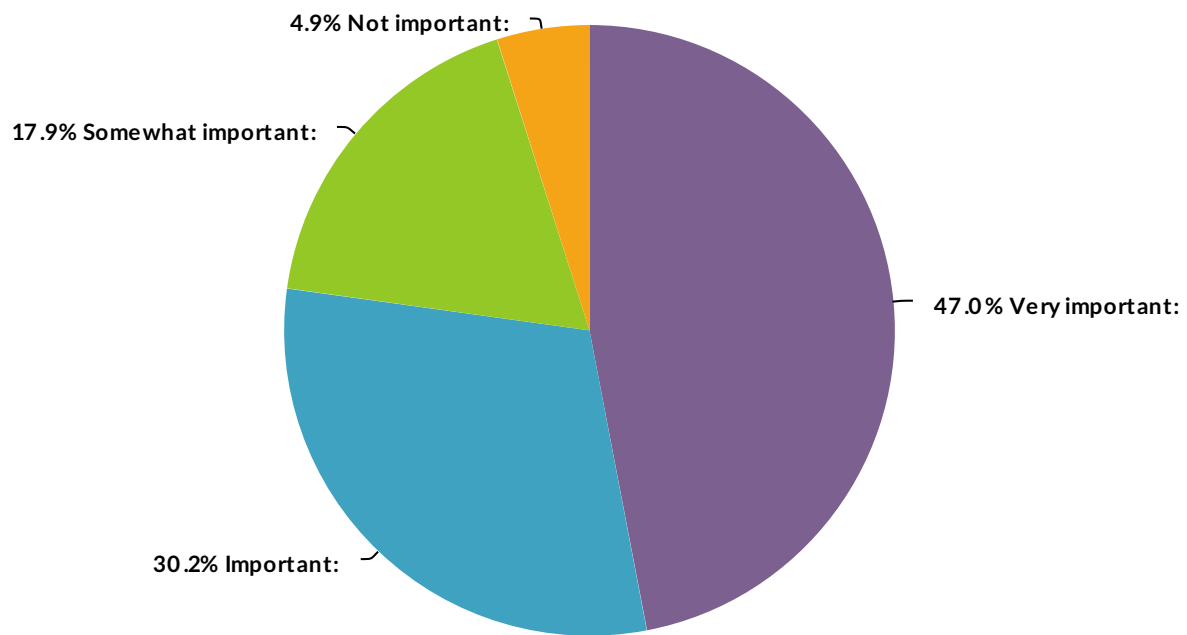

Value	Percent	Count
Very important	66.2%	542
Important	25.0%	205
Somewhat important	7.2%	59
Not important	1.6%	13
<b>Total</b>		<b>819</b>

7. Comments:

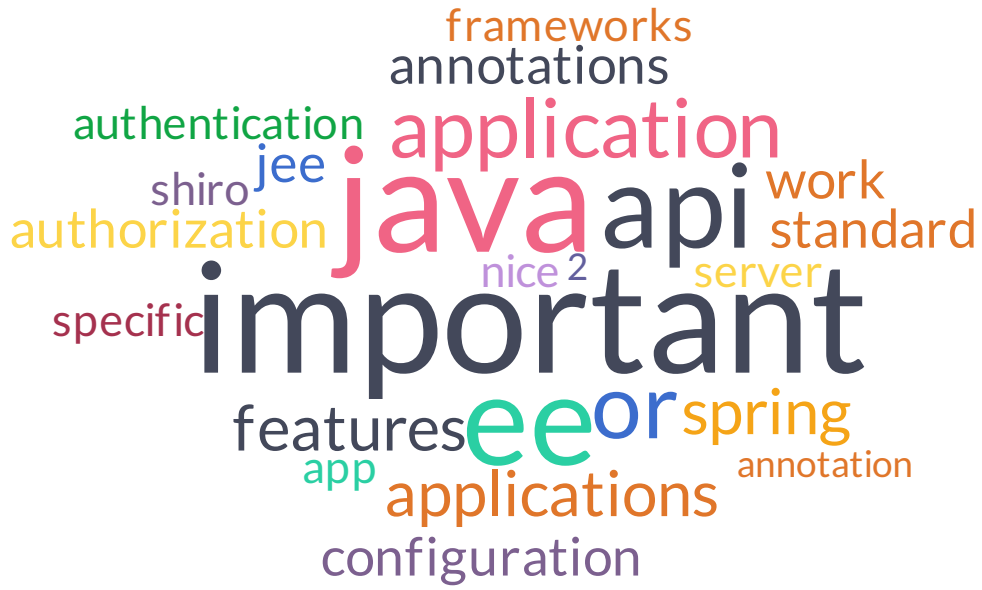

## 8. How important is it to revamp the Java EE security API?

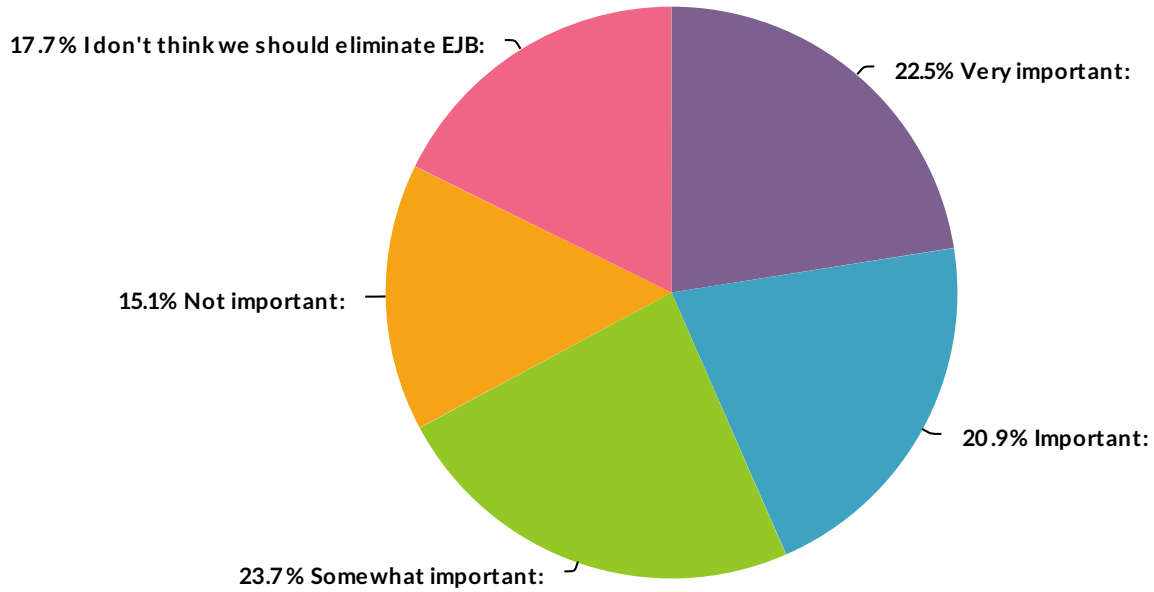

Value	Percent	Count
Very important	47.0%	381
Important	30.2%	245
Somewhat important	17.9%	145
Not important	4.9%	40
<b>Total</b>		<b>811</b>

9. Comments:

## 10. How important is it to completely eliminate EJB in favor of CDI based services?

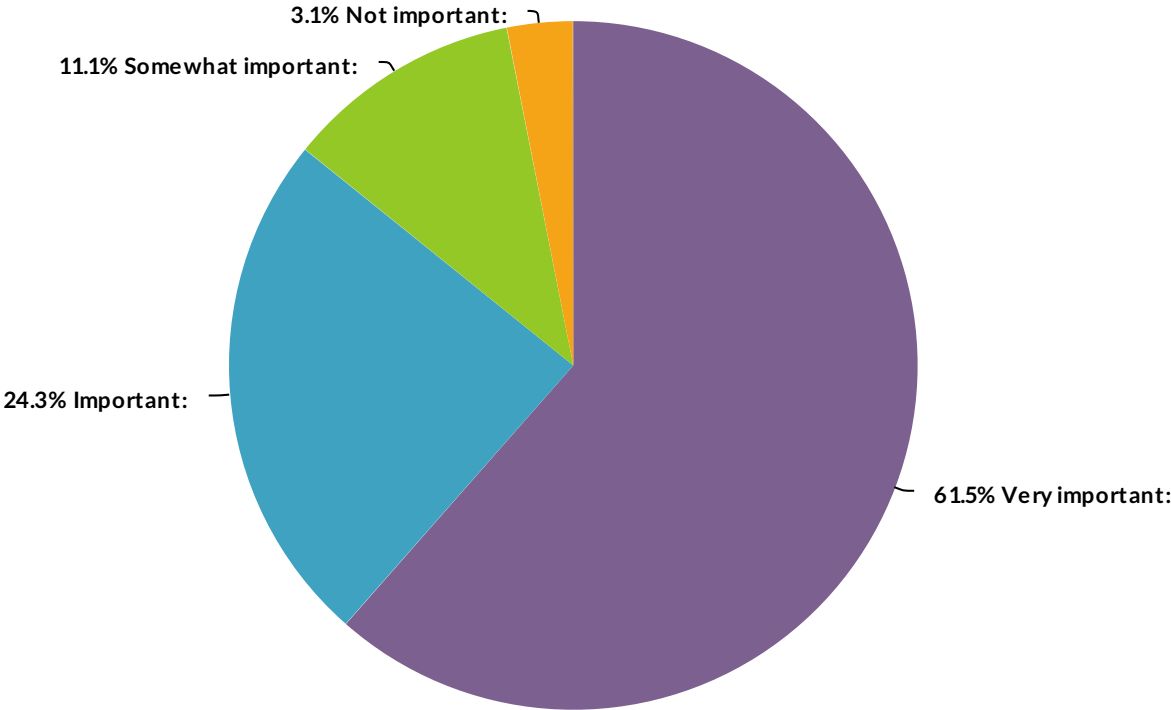

Value	Percent	Count
Very important	22.5%	183
Important	20.9%	170
Somewhat important	23.7%	193
Not important	15.1%	123
I don't think we should eliminate EJB	17.7%	144
<b>Total</b>		<b>813</b>

11. Comments:

## 12. How important is it to strengthen JSON support in Java EE?

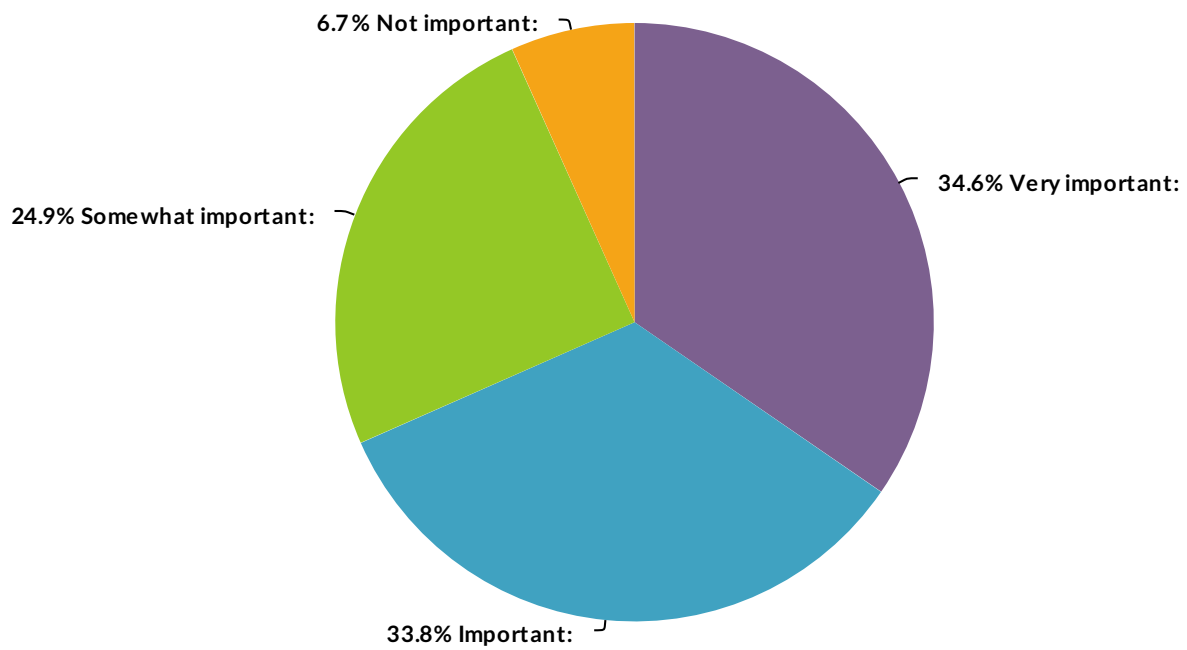

Value	Percent	Count
Very important	61.5%	503
Important	24.3%	199
Somewhat important	11.1%	91
Not important	3.1%	25
<b>Total</b>		<b>818</b>

13. Comments:

## 14. How important is it to include JCache in Java EE?

Value	Percent	Count
Very important	34.6%	280
Important	33.8%	274
Somewhat important	24.9%	202
Not important	6.7%	54
<b>Total</b>		<b>810</b>

15. Comments:

A word cloud centered around the words 'standard' and 'caching'. The word 'standard' is in a large, dark blue font at the top. 'caching' is in a large, light green font at the bottom. Other words are scattered around in various colors and sizes: 'application' (orange), 'developers' (blue), 'api' (teal), 'java' (yellow), 'long' (red), 'people' (blue), 'applications' (red), 'jpa' (orange), 'or' (blue), 'current' (green), 'nice' (blue), and 'time' (green). The word 'ee' is written vertically in green on the left side.

16. Comments:

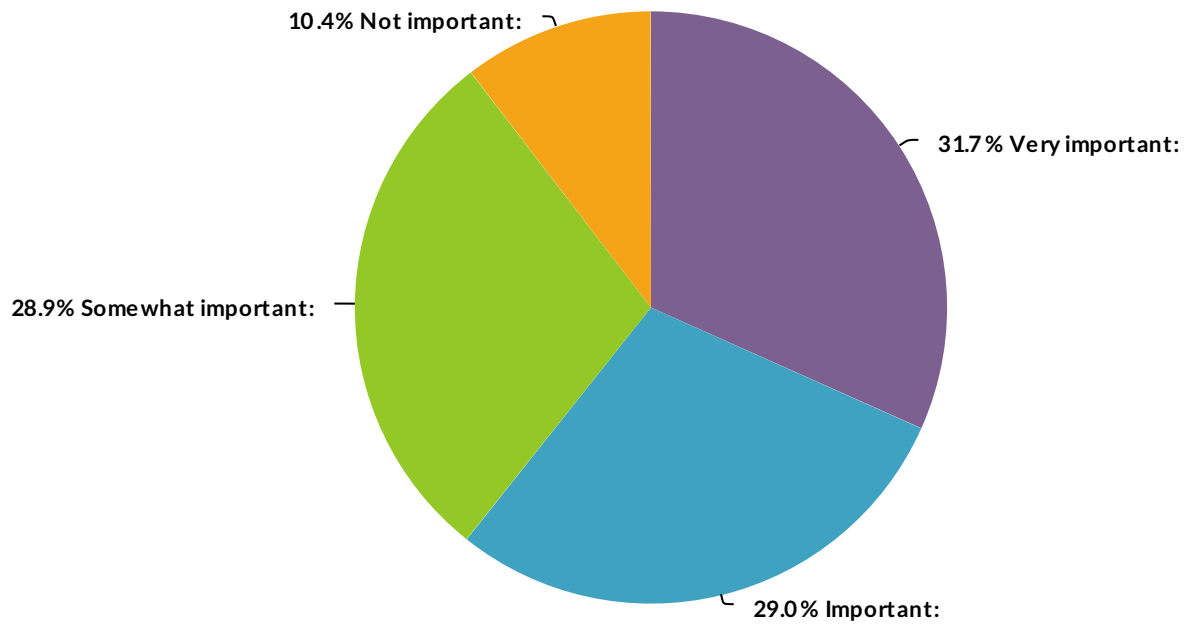

## 17. How important is it to add a new action-oriented MVC framework to Java EE?

Value	Percent	Count
Very important	30.4%	248
Important	21.2%	173
Somewhat important	24.0%	196
Not important	24.4%	199
<b>Total</b>		<b>816</b>

## 18. How important is it to enable dynamic configuration in Java EE applications?

Value	Percent	Count
Very important	31.7%	258
Important	29.0%	236
Somewhat important	28.9%	235
Not important	10.4%	85
<b>Total</b>		<b>814</b>

19. Comments:

20. Comments:

## 21. How important is it to standardize NoSQL database access in Java EE applications?

Value	Percent	Count
Very important	24.5%	200
Important	23.0%	188
Somewhat important	29.2%	238
Not important	23.3%	190
<b>Total</b>		<b>816</b>

## 22. How should Java EE approach reactive programming?

Value	Percent	Count
Introduce significantly specialized Java EE APIs for reactive programming	24.0%	193
Continue making ad-hoc improvements to support reactive programming in each Java EE API	31.8%	256
Wait to see how well reactive is adopted in practical enterprise environments	39.0%	314
Reactive is merely hype, nothing should be done	5.2%	42
<b>Total</b>		<b>805</b>

23. Comments:

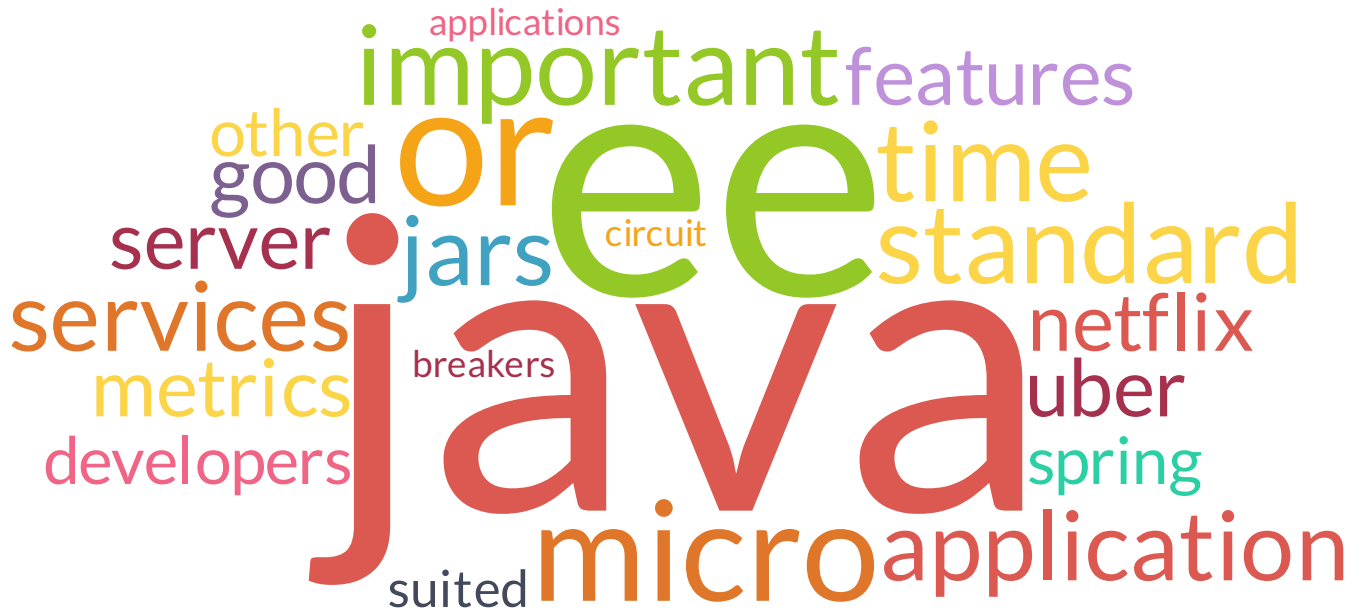

## 24. How should Java EE approach microservices?

Value	Percent	Count
Java EE should standardize features such as uber jars, metrics, discovery, circuit breakers and bulkheads.	44.0%	355
Java EE is already well suited to building practical microservices.	26.8%	216
Wait to see how well microservices is adopted in practical enterprise environments.	25.0%	202
Microservices is merely hype, nothing should be done.	4.2%	34
<b>Total</b>		<b>807</b>

25. Comments:

## 26. How should Java EE approach innovation?

Value	Percent	Count
Java EE should innovate in the same way that non-standard products do.	20.8%	167
It is OK for Java EE to standardize unproven ideas that seem promising.	22.7%	182
Java EE should innovate, but only very carefully.	42.8%	344
Java EE should not standardize ideas that are not clearly proven.	13.7%	110
<b>Total</b>		<b>803</b>

27. Comments:

## 28. What should the release frequency for Java EE be?

Value	Percent	Count
1-2 years	52.5%	426
2-3 years	37.1%	301
3-4 years	8.6%	70
4-5 years	1.8%	15
Total		812

29. Comments:

30. Comments Did we forget something important? Are you missing any features not mentioned in previous questions? Please feel free to enter any comments you would like to be heard.
