

The background of the slide is a photograph of the Oracle headquarters building in Redwood City, California. The building is a large, modern structure with a curved, cylindrical design and a glass facade. The word "ORACLE" is visible on the side of one of the towers. The building is situated on a rocky shore next to a body of water, with several trees in the foreground. The sky is clear and blue.

Oracle on OpenVMS and VMS Software Inc.

Update Session

London, England
